Years 7 and 8: resources for the next six teaching weeks

Year 7 from Week 6 (after the Checkpoint) to Week 10; Year 8 from Week 4 (The white powder) to Week 9. Quantities in the lesson data are for one class of up to 24 students in 6 groups; the totals multiply by the classes below.

Year 7 classes	**2**	7A and 7B
Year 8 classes	**2**	8A and 8B
Year 7 freezer plan	**A and B**	A (freezer), B (no freezer) or "A and B". Items for the plan not chosen count as 0.

Teaching w	Year 7 lesson	Year 8 lesson	Items to get, print or make	Already in the room	To make beforehand	Open questions to settle
1	Week 6: Ice cube rescue	Week 4: The white powder	72	23	7	18: listed on the Open questions sheet
2	Week 7: The ice ship mission	Week 5: The mystery liquid	70	24	7	21: listed on the Open questions sheet
3	Week 8: Test day	Week 6: Footprints and height	46	21	3	16: listed on the Open questions sheet
4	Week 9: What does it mean?	Week 7: Design your own test	32	19	4	17: listed on the Open questions sheet
5	Week 10: Ice Engineers Expo	Week 8: Lab day	68	33	9	20: listed on the Open questions sheet
6	None (series ended)	Week 9: Build the case	15	10	0	10: listed on the Open questions sheet

How to use it

1. Check the yellow cells. Totals on every sheet update when you change them.
2. Each Week sheet lists the Year 7 lesson, then the Year 8 lesson. Grey rows should already be in the room from an earlier week: just check they are there.
3. Buy and order lists the equipment, food and consumables to source, in the week they are first needed, so you can order ahead.
4. Printing lists every print job with sheet totals, to send to reprographics in one go.
5. Open questions lists the points still to settle for each lesson (amounts, recipes, which version to use).
6. Pink cells in the Check column are points to settle before the lesson (from the checked lesson data).

Watch out

Year 7 Week 8 (Test day) uses the samples made in Week 7, which need freezing (Plan A) or drying (Plan B) in between: see the Make beforehand rows in Week 2.

Year 8 Week 8 (Lab day) depends on each group's own plan from Week 7: collect the plans at the end of Week 7 and check the equipment against them.

Teaching week 1 of 6

Year 7: Week 6 Ice cube rescue | Year 8: Week 4 The white powder

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Year 7, Week 6: Ice cube rescue 冰块保卫战									
To get, print or make									
Printing (paper copies)	Worksheet Plan A: Ice cube rescue (Core A to D, Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip on page 5)	24	copies; 5 A4 pages, double-sided (3 sheets; page 5, the exit ticket, prints alone on sheet 3)	per student	Plan A	48	Main student task for the whole lesson: cartoon vote, meltwater results table, gap fill, variables table, prediction, conclusion; exit ticket	No spares stated. The design runs to 5 pages with 'turn over' on pages 1 to 4, so print double-sided: 24 x 3 = 72 A4 sheets. The Core D sort-card strip ('CUT HERE') sits in the middle of page 3, so cutting it out also cuts into page 4 on the back (Challenge). Print only from the design rebuilt after the language pass.	
Printing (paper copies)	Worksheet Plan B: Keep it warm (Core A to D, Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip on page 5)	24	copies; 5 A4 pages, double-sided (3 sheets; page 5, the exit ticket, prints alone on sheet 3)	per student	Plan B	48	Main student task for the whole lesson: cartoon vote, temperature results table, gap fill, variables table, prediction, conclusion; exit ticket	No spares stated. The design runs to 5 pages with 'turn over' on pages 1 to 4, so print double-sided: 24 x 3 = 72 A4 sheets. The Core D sort-card strip ('CUT HERE') sits in the middle of page 3, so cutting it out also cuts into page 4 on the back (Challenge). Print only from the design rebuilt after the language pass.	
Printing (paper copies)	Planning frame Plan A: Pykrete strips (Week 7 Section 6a design; page 1 done in Week 6)	8	copies; 5 A4 pages, double-sided (3 sheets)	per group	Plan A	16	Think and Reflect: each group chooses a project question and drafts the independent variable on page 1; kept in the group folder from Week 6 to Week 10	8 = 1 per group + 2 spares (Week 7 print spec); the Week 6 file says 6 copies. The spec says two sides of A4 or one A3 sheet folded, and the requisition counts 8 A3 sheets for that, but the design runs to 5 A4 pages, so print 5 pages double-sided (8 x 3 = 24 A4 sheets) unless the design is cut back to two pages. Printed from the Week 7 design (Section 6a).	
Printing (paper copies)	Planning frame Plan B: Straw-brick science (Week 7 Section 6a design; page 1 done in Week 6)	8	copies; 5 A4 pages, double-sided (3 sheets)	per group	Plan B	16	Think and Reflect: each group chooses a project question and drafts the independent variable on page 1; kept in the group folder from Week 6 to Week 10	8 = 1 per group + 2 spares (Week 7 print spec); the Week 6 file says 6 copies. The spec says two sides of A4 or one A3 sheet folded, and the requisition counts 8 A3 sheets for that, but the design runs to 5 A4 pages, so print 5 pages double-sided (8 x 3 = 24 A4 sheets) unless the design is cut back to two pages. Printed from the Week 7 design (Section 6a).	
Printing (paper copies)	Concept cartoon: snowman in a coat (A3 board copy)	1	copy; A3 landscape, single-sided (A4 landscape design enlarged), then laminated	per room		1	Hook vote and the 'Who was right?' return in Think and Reflect; the same cartoon is on Slides 4, 5 and 17 and in worksheet Core A	Print spec: 1 laminated A3 copy for the board. One copy can stay up for every class taught in the same room.	
Printing (paper copies)	Kit card Plan A: Ice cube rescue (half-A4, marked Teacher copy)	1	copy; A5, single-sided	per once	Plan A	1	Kit list, teacher prep (about 25 minutes plus freezing), hazards and controls, clean-up	Print quantity not stated; the design is marked 'Teacher copy', so 1 is assumed. The Teacher Guide says the Safety Officer checks the kit card at the start of every Do phase; print 6 more for the trays if wanted.	
Printing (paper copies)	Kit card Plan B: Keep it warm (half-A4, marked Teacher copy)	1	copy; A5, single-sided	per once	Plan B	1	Kit list, teacher prep (about 20 minutes), hazards and controls, clean-up	Print quantity not stated; the design is marked 'Teacher copy', so 1 is assumed. The Teacher Guide says the Safety Officer checks the kit card at the start of every Do phase; print 6 more for the trays if wanted.	
Card, laminating and stationery	Laminating pouch, A3	1	pouch	per room		1	Laminate the A3 concept cartoon board copy		
Card, laminating and stationery	Group folders	6	folders	per group		12	One per group: holds the planning frame from Week 6 to Week 10; the teacher keeps them between lessons	New this week; label each with the project group name. Reused in Weeks 7 to 10. No spare folders stated.	
Equipment and materials	Scissors and a ruler (teacher prep)		not stated; tools	per once			Cut the 15 x 15 cm squares (Plan A) or the 25 x 10 cm jackets and 10 x 10 cm lid squares with a 1 cm slit (Plan B)	Not listed in the file, but the kit card prep needs them. Prep-room stock is likely enough.	
Equipment and materials	Plastic cups (Plan A)	30	cups	per group	Plan A	60	4 per group labelled A to D for the wrapped bags (24) + 1 hand-out cup per group holding the 4 bagged cubes (6)	The file does not say whether the hand-out cup is a fifth cup or one of cups A to D; if it is cup A, 24 are enough. Cups are stacked at clean-up and reused for later classes.	
Equipment and materials	Plastic cups, identical, about 250 ml (Plan B)	25	cups	per group	Plan B	50	4 per group labelled A to D with a 150 ml line (24) + 1 cup of room-temperature water for the thermometer check	Cups must be identical. Once marked, they are reused for later classes.	
Equipment and materials	Trays	6	trays	per group		12	One kit tray per group; the cups stand on it to catch spills	Reused as group trays in Weeks 7 and 8.	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Equipment and materials	Elastic bands (Plan A)	30	bands	per group	Plan A	60	3 per group to hold the wrapped squares, plus 2 spare per group	The requisition row (36, tagged both) is the Plan B count; Plan A needs 30.	
Equipment and materials	Elastic bands (Plan B)	36	bands	per group	Plan B	72	6 per group to hold the cup jackets		
Equipment and materials	Aluminium foil, 15 x 15 cm squares (Plan A)	3	squares	per group	Plan A	6	Set A groups (1, 3, 5): one square each	The requisition row (6 pieces, tagged both) is the Plan B count. Cut from the roll on the programme order; dry foil can be reused.	
Equipment and materials	Newspaper, 15 x 15 cm squares (Plan A)	6	squares	per group	Plan A	12	All 6 groups: one square each	The requisition row (12 pieces, tagged both) is the Plan B count. Collected, not bought; wet newspaper goes in the bin.	
Equipment and materials	Cotton wool sheet, 15 x 15 cm squares (Plan A)	3	squares	per group	Plan A	6	Set A groups (1, 3, 5): one square each	The requisition row (6 pieces, tagged both) is the Plan B count. Wet cotton wool goes in the bin.	
Equipment and materials	Fabric scraps, 15 x 15 cm squares (Plan A)	3	squares	per group	Plan A	6	Set B groups (2, 4, 6): one square each	The requisition row (6 pieces, tagged both) is the Plan B count. Collected from staff and students; the Plan A clean-up puts wet materials in the bin.	
Equipment and materials	Bubble wrap, 15 x 15 cm squares (Plan A)	3	squares	per group	Plan A	6	Set B groups (2, 4, 6): one square each	The requisition row (6 pieces, tagged both) is the Plan B count. Dry bubble wrap can be reused (Week 8 box wraps if cool boxes are short).	
Equipment and materials	Aluminium foil, jackets and lid squares (Plan B)	6	pieces: 3 jackets 25 x 10 cm + 3 lid squares 10 x 10 cm with a 1 cm slit	per group	Plan B	12	Set A groups (1, 3, 5): one jacket and one lid each	Dried for reuse.	
Equipment and materials	Newspaper, jackets and lid squares (Plan B)	12	pieces: 6 jackets 25 x 10 cm + 6 lid squares 10 x 10 cm with a 1 cm slit	per group	Plan B	24	All 6 groups: one jacket and one lid each	Collected, not bought; wet newspaper goes in the bin.	
Equipment and materials	Cotton wool sheet, jackets and lid squares (Plan B)	6	pieces: 3 jackets 25 x 10 cm + 3 lid squares 10 x 10 cm with a 1 cm slit	per group	Plan B	12	Set A groups (1, 3, 5): one jacket and one lid each	Wet cotton wool goes in the bin.	
Equipment and materials	Fabric scraps, jackets and lid squares (Plan B)	6	pieces: 3 jackets 25 x 10 cm + 3 lid squares 10 x 10 cm with a 1 cm slit	per group	Plan B	12	Set B groups (2, 4, 6): one jacket and one lid each	Dried for reuse.	
Equipment and materials	Bubble wrap, jackets and lid squares (Plan B)	6	pieces: 3 jackets 25 x 10 cm + 3 lid squares 10 x 10 cm with a 1 cm slit	per group	Plan B	12	Set B groups (2, 4, 6): one jacket and one lid each	Dried for reuse.	
Equipment and materials	Measuring cylinders, 25 ml (or 10 ml) (Plan A)	6	cylinders	per group	Plan A	12	Read each bag's meltwater in ml in Do part 2	The requisition tags this row 'both'; it is Plan A only. Expected meltwater is 2 to 10 ml, so 10 ml cylinders read more precisely. The Teacher Guide (Week 5 row) allows a kitchen scale instead, but the worksheet records ml. Week 7 (Plan A) needs 12.	
Equipment and materials	Measuring cylinder for marking the 150 ml line (Plan B)	1	cylinder	per once	Plan B	1	Teacher prep: measure 150 ml into each cup to mark the line	Size not stated in the file; the requisition says 100 ml or larger. A 250 ml cylinder measures 150 ml in one fill.	
Equipment and materials	Thermometers, spirit-filled (red) or digital (Plan B)	7	thermometers	per group	Plan B	14	1 per group for start and end readings (6) + 1 spare for checking the jug	Never mercury. If short, the Teacher Guide allows one per two groups or a teacher-read class set of readings.	
Equipment and materials	Ice-cube trays, same type (Plan A)	2	trays	per once	Plan A	2	Freeze about 28 cubes the day before, filled to the same level	Two more trays and more freezer space for each extra class taught on the same day.	
Equipment and materials	Cool box, insulated with lid (Plan A)	1	box	per once	Plan A	1	Holds 24 bagged cubes + 4 spare at the door	Week 8 (Plan A) needs 6 cool boxes.	
Equipment and materials	Freezer space (Plan A)	1	drawer	per once	Plan A	1	Freeze the two ice-cube trays the day before; keep the bagged cubes until the lesson		
Equipment and materials	Jugs: one of at least 2 litres + a second jug or flask (Plan B)	2	jugs	per class	Plan B	4	Mixing and holding the warm water the teacher pours	The requisition tags this row 'both'; it is Plan B only. About 3.6 litres are needed, so refill or use both. The Week 5 trial jug can be one of them.	
Equipment and materials	Kettle (Plan B)	1	kettle	per once	Plan B	1	Hot water mixed with cold tap water to about 50 °C; teacher use only	Students never handle the kettle.	
Equipment and materials	Mop and bucket, or a roll of paper towels	1	set	per room		1	Mop spills straight away: a wet floor is the most likely injury		
Food and consumables	Paper towels (kitchen roll)	36	sheets	per group		72	6 per group with the tray, for drips and wiping tables	Plus a whole roll per class if there is no mop.	
Food and consumables	Disposable gloves (Plan A)	12	pairs	per group	Plan A	24	2 pairs per group: handling ice for more than a minute and the measuring slot		
Food and consumables	Zip-lock sandwich bags, small (Plan A)	28	bags	per class	Plan A	56	One per ice cube (24 + 4 spare), so the meltwater stays in the bag	The requisition tags this row 'both'; it is Plan A only.	
Food and consumables	Ice cubes (Plan A)	28	cubes	per class	Plan A	56	4 per group (24) + 4 spare; one spare bag for the teacher's measuring demo	From the same tray type, filled to the same level, so the test is fair. The Teacher Guide (Sections 7 and 8) says about 24; the kit card's 28 takes priority.	
Food and consumables	Warm water, about 50 °C (Plan B)	3.6	litres	per class	Plan B	7.2	150 ml into each of 24 cups, poured by the teacher during the Hook	Never above 55 °C; mixed from kettle water and cold tap water during the Do Now.	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Make beforehand	Pre-cut material sets, 15 x 15 cm squares (Plan A)	6	sets (3 squares each)	per group	Plan A	12	Set A (groups 1, 3, 5): foil, newspaper, cotton wool sheet; Set B (groups 2, 4, 6): fabric, bubble wrap, newspaper; packed on the trays	Cut from the material rows above; replace any wet pieces for each class (wet materials go in the bin).	
Make beforehand	Pre-cut material sets, jackets and lid squares (Plan B)	6	sets (3 jackets + 3 lid squares each)	per group	Plan B	12	Set A (groups 1, 3, 5): foil, newspaper, cotton wool sheet; Set B (groups 2, 4, 6): fabric, bubble wrap, newspaper; each a 25 x 10 cm jacket and a 10 x 10 cm lid square with a 1 cm slit	Cut from the material rows above; new newspaper and cotton wool for each class.	
Make beforehand	Bagged ice cubes (Plan A)	28	bagged cubes	per class	Plan A	56	Each cube sealed in its own zip-lock bag with the air squeezed out; 24 + 4 spare kept in the cool box or freezer	Made on the day of the lesson.	
Make beforehand	Cups labelled A to D (Plan A)	24	cups	per group	Plan A	48	4 per group for the three wrapped bags and the bare control	Made from the plastic cups with the marker; the requisition has a teacher-made row for the Plan B marked cups only. Reusable for every class.	
Make beforehand	Cups labelled A to D and marked with a 150 ml line (Plan B)	24	cups	per group	Plan B	48	4 per group: three wrapped cups and the bare control, all filled to the same line	Reusable for every class.	
Already in the room (from an earlier week): check it is there									
Card, laminating and stationery	Marker pen	1	pen	per once		1	Label cups A to D (both plans); Plan B: mark the 150 ml line on 24 cups Reuse: Marker from Week 2 or Week 5; reuse	The requisition lists 1 marker again; the Week 2 or Week 5 marker will do if it still writes. The file says only 'a marker'; a permanent (waterproof) one is advisable because the cups get wet.	
Card, laminating and stationery	Pencils	24	pencils	per student		48	Writing on the worksheet, planning frame, exit ticket and logbook Reuse: Bought for Week 1; reuse	Not named in the Week 6 file.	
Card, laminating and stationery	Scientist's Logbook (A5 booklet)	24	booklets	per student		48	Logbook line 'What I found' in Think and Reflect, if time Reuse: Started in Week 1; kept in the class box		
Card, laminating and stationery	Group role cards with duties, with the Language buddy card (laminated)	6	sets	per group		12	Safety Officer collects the ice and leads clean-up; Measurer reads the cylinder or thermometer; Recorder writes times and results; Reporter shares; Lead Scientist files the planning frame; buddy card for Band 1 pairs Reuse: Printed and laminated with the language support pack before Week 1; reuse	Roles rotate weekly. Project groups may be re-formed this week.	
Card, laminating and stationery	Sentence frame card sets, Year 7 (A6 cards)	6	sets	per group		12	Frames on group tables for the vote and the report back (Week 6 frame: 'I think ___ because ___.') Reuse: Printed with the language support pack before Week 1; reuse		
Card, laminating and stationery	Classroom language card (A5, laminated)	24	cards	per student		48	Routine phrases and how to ask for help, in English and Chinese (Band 1 support) Reuse: Printed and laminated with the language support pack before Week 1 (1 per student + 6 spares); reuse	Not named in the Week 6 file; the Teacher Guide gives it to Band 1 students with the dictionary.	
Card, laminating and stationery	My Science Dictionary, Year 7 (A5 booklet)	24	booklets	per student		48	Key word meanings in English and Chinese Reuse: Given out in Week 1 (28 printed: 24 + 4 spares); reuse	Not named in the Week 6 file; the Teacher Guide says it is open in every lesson.	
Equipment and materials	Class box	1	box	per class		2	Logbooks collected at the end of the lesson Reuse: Week 1 class box; reuse		
Equipment and materials	Stopwatches (Plan B)	6	stopwatches	per group	Plan B	12	1 per group: the Recorder starts it at cup A; end readings at 15 minutes Reuse: Prep-room stopwatches used in Weeks 3 and 4; reuse	Already in the prep room from Weeks 3 and 4; no new order needed.	
Equipment and materials	Stopwatches (Plan A, only if no wall clock is visible to all) (optional)	6	stopwatches	per group	Plan A	12	1 per group to time the melt, only if there is no wall clock visible to all Reuse: Prep-room stopwatches used in Weeks 3 and 4; reuse	Already in the prep room from Weeks 3 and 4; no new order needed.	

Year 8, Week 4: The white powder 白色粉末之谜

To get, print or make									
Printing (paper copies)	Worksheet: The white powder (Core results grid with picture key, b and c with sorting strip; Stretch flowchart key; Challenge; My thinking; fold-under word bank; exit ticket strip)	24	copies; 3 A4 pages, double-sided (pages 1 and 2 back to back, page 3 on its own sheet, back blank)	per student		48	Main student task: results grid during testing, identification key, Think and Reflect answers; exit ticket strip at the foot of page 3	No spares stated. Pages 1 and 2 both say 'turn over'. The exit ticket sits below a cut line at the foot of page 3, so with page 3 single-sided nothing is lost when the strip is cut off: 24 x 2 = 48 sheets. No scissors are named for cutting off the strip. The worksheet goes into the case file afterwards: the Week 7 kit card lists the 'Week 4 results grid (in case files)' for planning, and Powder 2 groups use it as a reference in Week 8. Print only from the design rebuilt after the language pass.	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Printing (paper copies)	Powder testing lab card (table top, lab card 6.1): tile and cup layout, 'What to look for' table, safety footer	6	copies; A5 landscape, single-sided, then laminated	per group		12	On each group's tray in the Do phase: where each powder goes on the spotting tile and cups, and what a positive result means	Print 6 (one per group). Laminated and not written on, so one set serves every class. If the printer has no A5 paper, print 2 per A4 sheet and cut (3 A4 sheets).	
Printing (paper copies)	Kit card: Week 4 The white powder (half-A4, marked 'Teacher copy')	1	copy; A5 landscape (half-A4), single-sided	per class		2	Per-group kit list, teacher prep, hazards and controls, clean-up	The kit list names the scene powder: 'Evidence bag ... (baking soda)', so keep it on the teacher's desk, not on group trays. The Teacher Guide says the Safety Officer checks the kit card at the start of every Do phase: Safety Officers can use Slide 7 and the lab card's safety footer instead. One copy serves every class.	
Printing (paper copies)	White powder identification key poster	1	copy; A3 portrait, single-sided	per room		1	Classroom wall display from Week 5, after students have built their own key	Do not put it up until every class has done Week 4: it gives away the Stretch key. One per room serves every class taught there.	
Card, laminating and stationery	Laminating pouches, A5	6	pouches	per group		12	Laminating the 6 powder testing lab cards	Once for all classes.	
Card, laminating and stationery	Black card	6	pieces	per group		12	Dark background for viewing each powder under the magnifier	Size not stated. Brush off and keep: reusable for every class and for Week 8 (Powder 2 kit card: black card, 1 per group).	
Card, laminating and stationery	Sticky labels	42	labels	per class		84	30 known powder pots (Salt, Sugar, Baking soda, Cornflour, Flour; 5 per group), 6 evidence bags ('Evidence 3: white powder, floor by desk (F4)'), 6 vinegar cups	Pot labels can stay on if the pots are reused for later classes. The lab card shows the six water cups labelled with the powder names too, but the kit card does not ask for this: 36 more labels per class, or students write on the cups.	
Equipment and materials	Safety goggles	24	pairs	per group		48	Worn for vinegar and iodine; Safety Officer checks before either is opened	Kit card: 4 per group. The teacher controlling the iodine or modelling a powder also needs a pair (not stated).	
Equipment and materials	Small clear plastic cups	42	cups	per group		84	6 per group a third full of water (water test), plus 1 per group for about 30 ml of vinegar	Cup size not stated. Rinse and reuse between classes. The 30 Week 3 cups can serve, so 12 more are needed.	
Equipment and materials	Spotting tiles, 12 wells	6	tiles	per group		12	Top row: vinegar test; bottom row: iodine test, one well per powder	Alternative on the kit card: 12 white plastic bottle lids per group (72 per class).	
Equipment and materials	Droppers (plastic pipettes)	6	droppers	per group		12	Adding 5 drops of vinegar to each tile well		
Equipment and materials	Iodine solution in dropper bottles (optional) (optional)	6	dropper bottles	per group		12	Starch test: 1 drop per well; blue-black means starch. Teacher or Safety Officer only	Strength not stated; use the prep room's dilute iodine solution. Teacher-controlled, droppers only, one drop. If iodine is not used, show Slide 10 and use the water test to spot the starches. Decide the week before.	
Equipment and materials	Small spoons or lolly sticks	36	spoons or sticks	per group		72	One clean spoon per powder (pea-sized spoonful) to avoid contamination	Washed spoons can be reused between classes; lolly sticks are single use, so 36 per class.	
Equipment and materials	Stirring sticks	36	sticks	per group		72	Stirring each water cup (one per powder)		
Equipment and materials	Small lidded pots	30	pots	per group		60	Holding the five known powders, 5 per group	The kit card says 'labelled pots'; lids are not stated but stop spills and dust between classes. The Case Bible allows a lidded pot instead of a zip bag for the scene powder (6 more).	
Equipment and materials	Small zip bags (evidence bags)	6	bags	per group		12	Evidence 3 scene powder, 1 per group		
Equipment and materials	Teaspoon (teacher's measuring spoon)		not stated (the requisition lists 1); teaspoon	per once			Measuring about 2 teaspoons into each powder pot and about 3 into each evidence bag	Amounts are given in teaspoons but no teaspoon is named as kit.	
Equipment and materials	Teacher demonstration set (Hook evidence bag; Learn: model one powder) (optional)		not stated (the kit card lists group kit only); set	per class			Hook: hold up the evidence bag; Learn: model the tests on one powder	Either use one group's tray before handing it out, or make a seventh set: a powder pot, an Evidence 3 bag, a water cup, tile, vinegar cup with dropper, magnifier and black card, and goggles for the teacher.	
Food and consumables	Salt	12	teaspoons	per group		24	Known powder: about 2 teaspoons in a labelled pot per group		
Food and consumables	Sugar (white)	12	teaspoons	per group		24	Known powder: about 2 teaspoons in a labelled pot per group		
Food and consumables	Baking soda (小苏打)	30	teaspoons	per group		60	Known powder pot (about 2 teaspoons per group) and the Evidence 3 scene powder (about 3 teaspoons per group)	Must fizz strongly with vinegar: test one portion before the lesson.	
Food and consumables	Cornflour	12	teaspoons	per group		24	Known powder: about 2 teaspoons in a labelled pot per group	Allergy check (corn) before the lesson.	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Food and consumables	Plain flour (wheat)	12	teaspoons	per group		24	Known powder: about 2 teaspoons in a labelled pot per group	Allergy check (wheat) before the lesson.	
Food and consumables	White vinegar	180	ml	per group		360	Fizz test: about 30 ml in a small labelled cup with a dropper per group		
Food and consumables	Paper towels (the lab's own, from the sink dispenser)		not stated (the requisition assumes 3 per group, 18 sheets); sheets	per group			Spills and drips on the tray	The kit card says 'Paper towels' with no number.	
Food and consumables	Tap water for the water cups		not stated (36 small cups a third full); cups' worth	per group			Water test: does each powder dissolve?	From the lab tap. No jug for filling the cups is named.	
Make beforehand	Known powder sets (5 labelled lidded pots: salt, sugar, baking soda, cornflour, flour, about 2 teaspoons each)	6	sets	per group		12	Reference samples for the systematic tests	Part of the kit card's 15 minutes of teacher prep. Refill for each class, or top up between classes if the pots are clean.	
Make beforehand	Evidence 3: scene powder (about 3 teaspoons of baking soda in a zip bag labelled 'Evidence 3: white powder, floor by desk (F4)')	6	bags	per group		12	The unknown sample, tested last and exactly like the knowns	Test one portion yourself: it must fizz strongly with vinegar. The label must not say baking soda. Keep any unopened bag for the Powder 2 groups in Weeks 7 and 8.	
Already in the room (from an earlier week): check it is there									
Card, laminating and stationery	Clear sticky tape		not stated (no adhesive is named; the requisition lists 6 rolls, 1 per group); rolls	per group			Do Now: sticking the dry Week 3 chromatograms into the Week 3 worksheet box Reuse: Week 2 and Week 3 rolls; reuse	The lesson file names no tape or glue for sticking in the chromatograms; the requisition assumes tape from the trays. No new order needed if the Week 2 rolls are left.	
Card, laminating and stationery	Pencils	24	pencils	per student		48	Recording in the results grid, drawing the key, exit ticket, evidence log Reuse: Bought for Week 1 (1 per student); reuse		
Card, laminating and stationery	Case files (A4 folder per student: suspect cards, evidence log, suspect tracker)	24	case files	per student		48	Core c (suspect cards), evidence log row 4, suspect tracker 'Powder' column, confidence row Reuse: Made before Week 1; kept in the class box	Band 1 students can use the worksheet sorting strip instead of reading the suspect cards.	
Card, laminating and stationery	Week 3 worksheets (box d for the chromatograms)	24	copies	per student		48	Do Now: the dry chromatograms are stuck into the box on the Week 3 worksheet Reuse: Week 3 worksheets; handed back for the Do Now	Where the Week 3 worksheets are kept (case file or collected by the teacher) is not stated.	
Card, laminating and stationery	Dried Week 3 chromatograms (strips A, B, C, D and N, labelled with the group number)	6	sets of 5 strips	per group		12	Handed back in the Do Now and stuck into the Week 3 worksheet Reuse: Made in Week 3; dried flat on paper towels	Week 3 made one set of 5 strips per group, but every student's Week 3 worksheet has a 5-slot box, and the Week 3 plan says the chromatograms go in the case file. Decide whose worksheet or case file gets each set.	
Card, laminating and stationery	Scientist's Logbook (A5 booklet)	24	booklets	per student		48	One line under 'What I found' if there is time; otherwise evidence log row 4 counts Reuse: Started in Week 1; kept in the class box		
Card, laminating and stationery	Group role cards with duties, including the language buddy card (6 cards per set, laminated)	6	sets	per group		12	Roles today: Measurer (water cups), Lead Scientist (vinegar), Safety Officer (goggles, iodine), Recorder (grid); buddy for Band 1 students Reuse: Printed and laminated before Week 1 (language support pack); reuse	Anyone with a wheat or corn allergy takes the Recorder role.	
Card, laminating and stationery	Sentence frame card sets, Year 8 (A6 cards)	6	sets	per group		12	Frames for identifying the powder and judging the evidence in Think and Reflect Reuse: Printed with the language support pack before Week 1; reuse	The Week 4 card in the frame bank is '___ is ruled out because ___.' The lesson's own frame 'The scene powder matches ___ because it ___.' is on Slide 11 and worksheet Core b; 'When we added vinegar, it ___.' is in the lesson plan only; 'This evidence is strong / weak because ___.' is the Week 2 card.	
Card, laminating and stationery	My Science Dictionary, Year 8 (A5 booklet)	24	booklets	per student		48	Key word meanings in English and Chinese; open in every lesson Reuse: Given out in Week 1 (24 + 4 spares); reuse	Not named in the lesson file; the Teacher Guide says the dictionary is open in every lesson.	
Equipment and materials	Magnifying glasses	6	magnifiers	per group		12	Looking at crystal shape (salt makes small cubes) on black card Reuse: Prep room magnifiers used in Week 2; reuse	Listed again in the Week 4 requisition; same stock as Week 2 (12 used then), so no new order.	
Equipment and materials	Trays	6	trays	per group		12	One kit tray per group, set out before students arrive Reuse: Group kit trays used since Week 2; reuse	Same trays as Weeks 2 and 3; no new order.	
Equipment and materials	Cloths for wiping tables		not stated (the requisition lists 6, 1 per group); cloths	per group			Clean-up: wipe tables with a damp cloth Reuse: Cloths used in Weeks 2 and 3; reuse		
Equipment and materials	Class box	1	box	per class		2	Case files and logbooks out at the start and back in at the end Reuse: Week 1 class storage box; reuse		

Teaching week 2 of 6

Year 7: Week 7 The ice ship mission | Year 8: Week 5 The mystery liquid

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Year 7, Week 7: The ice ship mission 冰船计划									
To get, print or make									
Printing (paper copies)	Worksheet Plan A: The ice ship mission (Do Now box, Core A story cloze, Core B my job, Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip)	24	copies; 3 A4 pages, double-sided (pages 1 and 2 back to back, page 3 on a second sheet)	per student	Plan A	48	Each student's own sheet for the whole lesson; exit ticket strip at the foot of page 3	No spares stated. Pages 1 and 2 say 'turn over'; page 3 carries the cut-off exit ticket, so leave its back blank: 2 sheets per copy, 48 sheets. Print only the plan named on the handover note (Week 4 freezer decision).	
Printing (paper copies)	Worksheet Plan B: Straw-brick science (same sections as Plan A, with the Plan B making jobs, Challenge and word bank additions)	24	copies; 3 A4 pages, double-sided (pages 1 and 2 back to back, page 3 on a second sheet)	per student	Plan B	48	Each student's own sheet for the whole lesson; exit ticket strip at the foot of page 3	No spares stated. 2 sheets per copy, 48 sheets. Print only the plan named on the handover note.	
Printing (paper copies)	Kit card Plan A: Pykrete strips (teacher copy)	1	copy; A5 landscape, double-sided	per class	Plan A	2	Teacher kit list, sample size and fibre doses, strip trial, prep steps, hazards and clean-up	Designed as A5 (half-A4), side 1 and side 2, marked 'Teacher copy'.	
Printing (paper copies)	Kit card Plan B: Straw-brick science (teacher copy)	1	copy; A5 landscape, double-sided	per class	Plan B	2	Teacher kit list, strip trial, prep steps (allergy check, dough recipe), hazards and clean-up	Designed as A5 (half-A4), side 1 and side 2, marked 'Teacher copy'.	
Printing (paper copies)	Class project board Plan A (A3 landscape)	1	copy; A3 landscape, single-sided	per class	Plan A	2	Wall board for Weeks 7 to 9: each group's question, three samples, test (strength or melting), repeats made, tray number, tested in Week 8; coverage check; teacher writes in marker; strip trial decision recorded on it	One board per class, kept up until Week 9; laminate if possible. Covered by the requisition line 'A3 paper for A3 prints' (1 sheet).	
Printing (paper copies)	Class project board Plan B (A3 landscape, Test column printed 'Strength 强度')	1	copy; A3 landscape, single-sided	per class	Plan B	2	Wall board for Weeks 7 to 9: each group's question, three samples, repeats made, tray number, tested in Week 8; coverage check; strip trial decision recorded on it	One board per class, kept up until Week 9; laminate if possible. Covered by the requisition line 'A3 paper for A3 prints' (1 sheet).	
Printing (paper copies)	Sample labels (32 per A4 sheet, 4 x 8, bilingual code key at the top)	2	sheets; A4, single-sided, 32 labels each (64 labels)	per class		4	One label per sample (54 needed: 9 per group) plus spares; 10 per group on the kit tray; written in pencil and taped to the flat foil tab	Same sheet for both plans (students tick Plan A ice or Plan B dough). Cut into single labels before the lesson.	
Card, laminating and stationery	Laminating pouch, A3 (optional)	1	pouch	per class		2	Laminate the class project board so it lasts Weeks 7 to 9	Spec says 'laminated if possible'. Choose the marker to match: a permanent marker will not wipe off a laminated board.	
Card, laminating and stationery	Masking tape		not stated (the kit card lists masking tape in each group's kit); rolls	per group			Fix each sample label to the flat foil tab of its trough	The requisition has 6 rolls (one per group); groups could share fewer.	
Equipment and materials	Measuring cylinder, 25 ml (or a 20 ml syringe without a needle)	12	cylinders	per group	Plan A	24	Measure 12 ml of water per strip (2 per group)	Week 6 (Plan A) used 6 and the Week 5 strip trial 1, so about 5 more are needed, or use 20 ml syringes without needles.	
Equipment and materials	Small mixing cups	18	cups	per group	Plan A	36	Mix 12 ml of water with the fibre portion (3 per group)	Rinsed at clean-up. The requisition line 'Plastic cups 24' covers these 18 and the 6 water cups; the 30 plastic cups from Week 6 could be rinsed and reused.	
Equipment and materials	Cup for water, about 200 ml	6	cups	per group	Plan A	12	One cup of water per group to measure from	Part of the requisition line 'Plastic cups 24'.	
Equipment and materials	Teaspoons	18	teaspoons	per group		36	Plan A: stir and spread the fibres along the trough; Plan B: press and smooth the dough (3 per group)	Rinsed at clean-up.	
Equipment and materials	Freezer drawer (space for 54 thin strips on trays)	1	drawer	per class	Plan A	2	Freeze the strips flat and level for at least 24 hours, until the Week 8 lesson	The Teacher Guide Week 6 row says about 36 samples; the kit card's 54 is used. Each class needs its own space.	
Equipment and materials	Dry shelf (room for two shallow trays for one week)	1	shelf	per class	Plan B	2	Air-dry the dough strips for a week, away from sinks and very hot radiators	Each class needs its own space until Week 8.	
Equipment and materials	Large mixing bowl and a cup measure (for the salt dough)		not stated (a bowl and a cup measure are implied by the recipe); sets	per once	Plan B		Mix and knead 2 batches of salt dough on the morning of the lesson	Not on the kit card; may come from the canteen if it makes the dough.	
Food and consumables	Untreated natural wood sawdust (or pet-bedding wood shavings)		not stated: depends on the approved plans; g	per class			Fibre: 0.6 g per strip in a fibre-type test; 0.3, 0.6 or 0.9 g per strip in an amount test; kept damp in a sealed bag	Never MDF dust. The requisition buys 30 g as an upper limit (18 x 0.9 g and 18 x 0.6 g in 9 g and 6 g batches, plus spare). Buy in Week 6.	
Food and consumables	Paper tissues		not stated: depends on the approved plans; g	per class			Fibre, torn into 5 mm pieces: 0.6 g per strip	The requisition has 12 g (up to 18 portions).	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Food and consumables	Shredded paper, finely shredded		not stated: depends on the approved plans; g	per class			Fibre: 0.6 g per strip	The requisition has 12 g (up to 18 portions); collect from an office shredder.	
Food and consumables	Cotton wool		not stated: depends on the approved plans; g	per class			Fibre, pulled apart: 0.6 g per strip	The requisition has 12 g (up to 18 portions).	
Food and consumables	Aluminium kitchen foil	60	pieces about 20 cm x 10 cm (about 1.2 square metres in all)	per class		120	Fold into 60 troughs (10 per group: 9 plus 1 spare)	The strip trial troughs are on the Week 5 list, not here.	
Food and consumables	Small paper cups (or paper twists) for fibre portions	36	cups	per class		72	Hold each pre-portioned, labelled fibre portion (at most 36: 6 per group, as control samples need none)	Paper twists of scrap paper also work.	
Food and consumables	Zip-lock bags, small, for dough balls	54	bags	per class	Plan B	108	One 18 g ball of salt dough per bag (9 per group); students knead the fibre in with the bag closed	The requisition line of 58 bags covers these 54 and 4 spare-fibre bags. Spare dough balls need more bags (number not stated).	
Food and consumables	Sealable bags for spare fibre		not stated (the kit card says 'labelled bags'; one per fibre type would be 4); bags	per class			Spare fibre on the teacher desk in labelled bags; sawdust kept damp in its sealed bag	Part of the requisition's 58 zip-lock bags, which allows 4 (one per fibre type).	
Food and consumables	Paper towels (kitchen roll)	24	sheets	per group		48	Spills and wiping (4 per group)		
Food and consumables	Plain flour	500	g	per class	Plan B	1000	2 batches of salt dough, each 2 cups (about 250 g), with about 1 cup (240 ml) of water per batch	The Week 5 trial dough is on the Week 5 list, not here. Check the allergy list before anyone handles flour.	
Food and consumables	Salt	580	g	per class	Plan B	1160	2 batches of salt dough, each 1 cup (about 290 g)		
Food and consumables	Damp cloth for wiping tables	1	cloth	per class	Plan B	2	Clean-up after the dough work		
Make beforehand	Foil troughs (12 cm x 2 cm inside, sides about 1.5 cm high, 3 cm flat tab at one end)	60	troughs	per group		120	Moulds for the strips: 10 per group (9 plus 1 spare)		
Make beforehand	Pre-portioned, labelled fibre portions	36	portions (at most: 6 per group)	per group		72	Each group's fibre to match its plan (for example 'Sawdust 0.6 g' x 3); control samples need none	Portioned before the plans are approved in the lesson: work from the Week 6 page 1 drafts and keep spare fibre for changes. If the trial moved to thinner strips, use the scaled doses (0.4 g; or 0, 0.2, 0.4 and 0.6 g).	
Make beforehand	Salt dough balls, 18 g, each in its own small zip-lock bag	54	balls	per group	Plan B	108	One ball per strip, 9 per group	Made on the morning of the lesson. Spares not stated; 2 batches (about 1,560 g of dough) give plenty. Use 12 g balls if the trial moved to thinner strips.	
Already in the room (from an earlier week): check it is there									
Printing (paper copies)	Planning frame: Our investigation plan (Plan A or Plan B version)	8	copies (1 per group plus 2 spares), printed for Week 6; no new printing	per group		16	Group plan: page 1 done in Week 6; Boxes 3 to 8, plan check and teacher sign-off done today; kept in the group folder to Week 10 Reuse: Printed for Week 6 and kept in the group folders; reuse	The designed frame has 5 A4 pages (the spec says two sides of A4 or one folded A3). Use a spare if a group's frame is lost.	
Card, laminating and stationery	Group folders	6	folders	per group		12	Hold each group's planning frame; returned in the Do Now; approved frame kept in it Reuse: Bought for Week 6; reuse	The Week 7 requisition lists 6 group folders again; they are the Week 6 folders, so no new order is needed.	
Card, laminating and stationery	Pencils	24	pencils	per student		48	Sample labels (pencil only: pen runs when wet), worksheet and planning frame Reuse: Bought for Week 1 (1 per student); reuse	The kit card lists pencils per group with no number; the requisition lists 6 pencils again although the Week 1 class set covers this.	
Card, laminating and stationery	Marker pen	1	pen	per class		2	Label the fibre portions and spare-fibre bags; teacher writes on the class project board Reuse: Week 6 marker; reuse	The file names a marker for the board but gives no number.	
Card, laminating and stationery	Group role cards with duties (6 cards per set, including the language buddy card, laminated)	6	sets	per group		12	Roles split the planning frame: Lead Scientist question and prediction, Measurer variables and method, Safety Officer risks, Recorder results table, Reporter checks; language buddy card for Band 1 Reuse: Printed and laminated with the language support pack; reuse	Roles rotate weekly.	
Card, laminating and stationery	Sentence frame card sets, Year 7 (A6 cards)	6	sets	per group		12	Frames on group tables for the prediction and control variables ('I predict ___ because ___.', 'We must keep ___ the same because ___.') Reuse: Printed with the language support pack; reuse	Not named in the Week 7 file, and the frame bank has no Week 7 row; today's own frames are on the slides and the planning frame.	
Card, laminating and stationery	My Science Dictionary, Year 7 (A5 booklet)	24	booklets	per student		48	Key word meanings in English and Chinese Reuse: Given out in Week 1 (28 printed: 24 plus 4 spares); reuse	Not named in the Week 7 file; the Teacher Guide says it is open in every lesson.	
Card, laminating and stationery	Scientist's Logbook (A5 booklet) (optional)	24	booklets	per student		48	Weekly logbook line, if time Reuse: Started in Week 1; kept in the class box	Not named in the Week 7 file, and the 4-minute Think and Reflect has no logbook slot; the Teacher Guide asks for a line every lesson.	
Equipment and materials	Class box	1	box	per class		2	Holds the logbooks between lessons Reuse: Week 1 class box; reuse		

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Equipment and materials	Flat tray to hold 9 troughs (for example a baking tray, or a stiff card on a tray)	6	trays	per group		12	Each group's troughs sit flat and level; carried by the teacher to the freezer (Plan A) or the drying shelf (Plan B) Reuse: Week 6 kit trays, if flat and they fit the freezer	The kit card also says the class's 54 strips fit on two shallow trays in one freezer drawer: decide whether the 6 group trays go into the freezer or the troughs are moved onto two shallow trays.	
Equipment and materials	Kitchen scale, 1 g (or 0.1 g if available)	1	scale	per class		2	Pre-portion the fibres; Plan B: weigh 54 dough balls at 18 g Reuse: On the Week 5 requisition for the strip trial; reuse	Listed again in the Week 7 requisition; the Week 5 trial scale will do.	
Equipment and materials	Jug, about 2 litres	1	jug	per class	Plan A	2	Fill the six cups of about 200 ml (about 1.2 litres of tap water) Reuse: Week 5 strip trial jug; reuse	Not on the kit card; the Teacher Guide Week 6 prep row names a measuring jug. Listed again in the Week 7 requisition.	
Equipment and materials	Mop and bucket	1	set	per room	Plan A	1	Mop spills straight away so no one slips; floor wiped at clean-up Reuse: Week 6; reuse	Listed again in the Week 7 requisition; the same set as Week 6.	
Make beforehand	Trough template block (12 cm x 2 cm wood offcut, or a stack of rulers taped together)	1	block	per once		1	Every trough is folded round the same block, so every strip has the same width Reuse: Made for the Week 5 strip trial; reuse	The Week 7 requisition lists a wood offcut and the block again, but it is the Week 5 block, so no new order. Keep for next year.	
Make beforehand	Strip trial result (3 plain trial strips tested on the Week 8 rig, 10 cm span, 25 ml pours)	3	strips (tested before this lesson)	per once		3	Essential trial: sets the strip size (Plan A 12 ml or 8 ml of water; Plan B 18 g or 12 g balls) and the Week 8 span (10 cm or 8 cm) Reuse: Made and tested in Week 5 (Plan B must be Week 5 so the strips dry); the trial kit is on the Week 5 list and requisition	Nothing new to buy this week. The Teacher Guide Week 5 row says two strips; the kit card's three is used (Week 5 makes five: three to test, two kept for the Week 8 Hook).	
Year 8, Week 5: The mystery liquid 神秘液体									
To get, print or make									
Printing (paper copies)	Worksheet: results table (Core a to d), Stretch tracker, Challenge, My thinking, fold-under word bank and exit ticket strip	24	copies; 3 A4 pages, double-sided (pages 1 and 2 on one sheet, page 3 on its own sheet)	per student		48	Do: results table, matching with the suspect cards and tracker update; Think and Reflect: conflict questions and My thinking; exit ticket cut off page 3 and collected at the door	1 per student; no spares stated. 24 x 2 = 48 sheets. Page 3 has a blank back, so cutting off the exit ticket loses nothing (scissors are not listed; folding and tearing on the cut line also works). Print only from the designs rebuilt after the language pass (Teacher Guide Section 8). Core d) points to the suspect cards in the case file (the same details are printed under d)); Challenge b) uses the scene map in the case file.	
Printing (paper copies)	Checkpoint paper (Questions 1 to 6, 12 marks)	25	copies; 2 A4 pages, double-sided (24 students plus 1 left on the incoming teacher's seat)	per student		50	Do Now: 10-minute checkpoint in place of the Do Now; the score goes into tracker column Q and the handover note	Kit card: 1 per student. Teacher Guide Section 10: the current teacher leaves a copy on the incoming teacher's seat. No spares stated. Checkpoint_Y8.md says one side of A4, but the designed paper is 2 pages with 'turn over', so 25 sheets printed double-sided. Papers go on desks before students arrive. The checkpoint is not reused: print fresh for every class.	
Printing (paper copies)	Checkpoint mark scheme (teacher copy)	1	copy; 1 A4 page, single-sided	per once		1	Marking the checkpoint out of 12 and banding scores for the tracker and handover note	Teacher only; keep away from students. Chinese answers that earn marks are listed in Checkpoint_Y8.md Section 0, not on the designed mark scheme.	
Printing (paper copies)	Kit card (half-A4, two sides: kit, prep and clean-up; hazards and controls)	1	copy; A5, 2 sides, double-sided	per once		1	Per-group kit, teacher prep times, clean-up and bilingual hazards and controls	Marked 'Teacher copy'; no print count stated, 1 assumed. The Teacher Guide says the Safety Officer checks the kit card at the start of every Do phase: print 6 if each tray should carry one.	
Printing (paper copies)	pH colour chart for red cabbage indicator (A5 landscape, colour), laminated	6	copies; A5 landscape, single-sided, colour, then laminated	per group		12	Do: groups compare each cup with the chart to read colour, acid / neutral / alkali and pH; the bilingual chart is also the Band 1 support for Core a)	Requisition lists colour printing (7, including the A3 copy) and 6 A5 laminating pouches. Colour names are printed in every box, so it still works in greyscale. Laminated charts can serve every class.	
Printing (paper copies)	pH colour chart, enlarged A3 copy for the wall	1	copy; A3 landscape, single-sided, colour if possible	per room		1	Wall reference during Learn and Do	The file says only '1 enlarged A3 copy for the wall'; colour and laminating are not stated (the requisition counts it as a colour print).	
Printing (paper copies)	Ideas Parking Board header sign	1	copy; 1 A4 landscape page, single-sided, black and white	per room		1	Think and Reflect: heads the wall space where students stick their explanations for the evidence that does not fit	Print 1 (file). Keep it up: the Week 6 Do Now points to the board, and Week 9 uses the board or its photo. See the open question on keeping each class's notes separate.	
Printing (paper copies)	Lesson plan (Section 1, one page) for the incoming teacher	1	copy; 1 A4 page, single-sided	per class		2	Left on the incoming teacher's seat with a checkpoint paper for the Week 5 observation (Teacher Guide Section 10)	One copy can serve every observed class if the same incoming teacher keeps it.	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Printing (paper copies)	Handover note form (Tracker_Spec Section 6, Science Detectives version)	1	copy; 1 A4 page, single-sided	per class		2	Completed after this lesson, one per class, for the incoming teacher (checkpoint summary, groups and roles, language support, storage, kit status)	Teacher document; fill in after the checkpoint scores are in tracker column Q. A paper copy also goes in the class assessment folder (Teacher Guide Section 10).	
Card, laminating and stationery	Laminating pouches, A5	6	pouches	per group		12	Laminate the 6 A5 pH colour charts		
Card, laminating and stationery	Plain white paper, A4 (to stand the cups on)	6	sheets	per group		12	Do: under the six indicator cups so the colours show clearly		
Card, laminating and stationery	Sticky notes	24	notes	per student		48	Think and Reflect: each student writes one possible explanation for the Ideas Parking Board	Kit card lists sticky notes per class with no number; 1 per student is implied by the lesson plan ('Write one idea on a sticky note'). No spares stated.	
Card, laminating and stationery	Sticky labels	73	labels	per class		146	Label 36 indicator cups, 30 reference liquid cups, 6 'Evidence 4: liquid, floor by sink (I2)' cups and the indicator bottle 'Red cabbage indicator: do not drink'	Count follows the kit card ('ready filled and labelled') and Case Bible Sections 12 and 13. Writing on the cups with a permanent marker also works. If cups are rinsed and reused, labels can stay on for later classes.	
Equipment and materials	Safety goggles	24	pairs	per group		48	Eye protection for indicator, vinegar, lemon juice and soap solution (4 per group)	Goggles for the teacher during the Hook demo are not listed.	
Equipment and materials	Small clear plastic cups	74	cups (per group 6 indicator, 5 reference, 1 scene liquid = 72; plus 2 indicator cups for the Hook demo)	per group		148	Ready-filled indicator cups, reference liquid cups and the Evidence 4 cup on each tray; two indicator cups for the teacher's Hook demo	Rinse and reuse for later classes, or recycle (kit card).	
Equipment and materials	Cups of rinse water (only if using 2 droppers per group) (optional)	6	cups	per group		12	Rinse the dropper between liquids when a group has 2 droppers instead of 6	The requisition's cup note says add 6 rinse-water cups if using 2 droppers per group; they are not in its 74.	
Equipment and materials	Droppers (plastic pipettes)	36	droppers	per group		72	Add 10 drops of each liquid to its indicator cup (6 per group)	Kit card alternative: 2 per group (12) plus a cup of rinse water.	
Equipment and materials	Trays	6	trays	per group		12	One kit tray per group, set out before students arrive		
Equipment and materials	Kettle	1	kettle	per once		1	Hot water for the indicator, the day before (teacher only)		
Equipment and materials	Heatproof jug	1	jug	per once		1	Chopped cabbage and about 500 ml hot water, left 15 minutes		
Equipment and materials	Sieve	1	sieve	per once		1	Strain the indicator into a clean bottle		
Equipment and materials	Clean bottle for the indicator	1	bottle	per class		2	Holds the strained indicator, labelled 'Red cabbage indicator: do not drink'; leftovers keep in the fridge up to 3 days		
Equipment and materials	Fridge space	1	shelf space	per once		1	Store the indicator overnight; leftovers keep up to 3 days, then discard		
Equipment and materials	Teacher's kitchen tools and containers: knife and chopping board (cabbage), grater (soap), teaspoon, measuring jug (500 ml and 200 ml), stirring spoon, and a jug or bottle each for the soap solution, baking soda solution and scene liquid		not stated (one of each tool and 3 containers are implied by the recipes); set	per once			Making the indicator, soap solution, baking soda solution and scene liquid	Implied by the Case Bible recipes ('chop', 'grate', 'about 500 ml', '200 ml') but not listed anywhere. Check the prep room or canteen.	
Equipment and materials	Cloths for wiping tables		not stated (requisition assumes 6, 1 per group); cloths	per group			Clean-up: wipe spills straight away and wipe tables	Kit card says 'Wipe tables' without a number.	
Equipment and materials	Timer or stopwatch	1	timer	per class		2	Exactly 10 minutes for the checkpoint; 15-minute Do with the minute-11 call	An on-screen timer will do.	
Equipment and materials	Camera or phone	1	camera	per class		2	Photograph the Ideas Parking Board for the handover folder and Week 9 (Hook slide 4 and the tunnel vision sort)		
Equipment and materials	Ideas Parking Board space on the wall	1	wall or board area	per room		1	Students stick their sticky notes under the header; photographed for Week 9	Fixings for the header and the A3 chart (Blu-tack or pins) are not listed.	
Food and consumables	Red cabbage (紫甘蓝)	0.25	head	per class		0.5	Makes about 500 ml of indicator, enough for one class	A quarter head per class (Case Bible Section 13). The requisition note says the canteen is asked for 1 head; that covers four batches.	
Food and consumables	Lemon juice	60	ml	per group		120	Reference liquid, about 10 ml per group	Food material: check the allergy list (Teacher Guide Section 6).	
Food and consumables	White vinegar	60	ml, plus a little for the Hook demo	per group		120	Reference liquid on every tray; poured into an indicator cup in the Hook demo (turns pink)	Requisition lists 70 ml (60 ml plus about 10 ml for the demo), which covers it.	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Food and consumables	Baking soda (小苏打)		not stated: no strength is given for the baking soda solution (requisition assumes 2 teaspoons); plus a pinch if the soap solution only turns blue-purple; teaspoons	per class			Baking soda solution for the reference cups, half of the scene liquid and the Hook demo	Week 4 baking soda stock may cover it.	
Food and consumables	Plain bar soap	1	teaspoon, grated (buy 1 plain bar; not washing-up liquid)	per class		2	Soap solution: about 1 teaspoon grated into 200 ml warm water	Washing-up liquid is often close to neutral and will not work (Case Bible Section 13).	
Food and consumables	Bottled or purified water	560	ml	per class		1120	About 500 ml heated for the indicator plus 60 ml for the 'water' reference cups (10 ml per group)	Tap water can be slightly alkaline and turn the indicator blue-purple. The water for the soap and baking soda solutions is not specified.	
Food and consumables	Paper towels (the lab's own, from the sink dispenser)		not stated (requisition assumes 3 sheets per group, 18); sheets	per group			Spills and drips on each tray	Kit card lists 'Paper towels' with no number.	
Make beforehand	Red cabbage indicator	500	ml	per class		1000	Six cups of about 10 ml (2 cm) per group, plus spare and the two Hook demo cups	Made by the teacher the day before with hot water; refrigerate; use within 3 days. Check it is purple in bottled water.	
Make beforehand	Soap solution	200	ml	per class		400	Reference cups (10 ml per group) and half of the scene liquid	Must turn the indicator blue-green or green; if it only goes blue-purple, add a pinch of baking soda.	
Make beforehand	Baking soda solution		not stated: at least about 90 ml is needed (60 ml for the reference cups plus 30 ml as half of the scene liquid) plus a little for the Hook demo; requisition assumes 100 ml; ml	per class			Reference cups, half of the scene liquid and the Hook demo (turns the indicator blue-green)	No recipe or strength is given in any file. About 120 ml is needed if the scene liquid follows the Case Bible's 20 ml per group.	
Make beforehand	Evidence 4: scene liquid (equal amounts of soap solution and baking soda solution) in cups labelled 'Evidence 4: liquid, floor by sink (I2)'	60	ml	per group		120	The unknown each group tests last against the five reference liquids	Test it yourself: it must turn the indicator blue-green, not purple. The Case Bible says it wins over lesson files, so 120 ml may be intended.	
Already in the room (from an earlier week): check it is there									
Card, laminating and stationery	Case files (A4 folder per student: scene map, suspect cards, evidence log, suspect tracker)	24	case files	per student		48	Core d) and Slide 9 use the suspect cards; Challenge b) uses the scene map; students fill in evidence log row 5, confidence and the suspect tracker 'Liquid' column Reuse: Made before Week 1; kept in the class box	The Week 6 Do Now checks that evidence log row 5 is filled in.	
Card, laminating and stationery	Scientist's Logbook (A5 booklet)	24	booklets	per student		48	One line under 'What I found' if time at the end; otherwise evidence log row 5 counts as the entry Reuse: Started in Week 1; kept in the class box	Collect at the end: logbooks are stored for the handover.	
Card, laminating and stationery	My Science Dictionary, Year 8 (A5 booklet)	28	booklets (1 per student plus 4 spares)	per student		56	Open during the lesson and the checkpoint (Teacher Guide Section 4) Reuse: Given out in Week 1; reuse	Language support pack: 1 per student plus 4.	
Card, laminating and stationery	Group role cards with duties, including the language buddy card (laminated)	6	sets	per group		12	Roles for the practical (Safety Officer checks the kit card and goggles before any liquid is opened); Band 1 students sit with their language buddy Reuse: Printed and laminated before Week 1 (language support pack); reuse		
Card, laminating and stationery	Sentence frame card sets, Year 8 (A6 cards)	6	sets	per group		12	Frames for pair talk, reporting and the sticky note ('One problem with this evidence is ___ .') Reuse: Printed with the language support pack before Week 1; reuse		
Card, laminating and stationery	Sentence frame poster, Year 8 (A4)	1	poster	per room		1	Frames on the wall for rehearsing before reporting (Teacher Guide Section 4) Reuse: Printed with the language support pack before Week 1; already on the wall		
Card, laminating and stationery	White powder identification key poster (A3), from Week 4	1	poster	per room		1	Wall display from Week 5, after students have built their own key (Week 4 file, printable 6.2) Reuse: Printed for Week 4; put up now	Not used in this lesson's tasks; the Week 4 file only says display it from Week 5.	
Card, laminating and stationery	Pencils	24	pencils	per student		48	Checkpoint, worksheet and sticky notes Reuse: Bought for Week 1 (1 per student); reuse		
Equipment and materials	Class box	1	box	per class		2	Holds case files and logbooks between lessons Reuse: Week 1 class storage box; reuse		

Teaching week 3 of 6

Year 7: Week 8 Test day | Year 8: Week 6 Footprints and height

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Year 7, Week 8: Test day 测试日									
To get, print or make									
Printing (paper copies)	Worksheet, Plan A: Test day (group results sheet)	24	copies; 5 A4 pages, double-sided (3 sheets), stapled	per student	Plan A	48	Safety check, strength results table and melting results table with repeats and notes, How did it break?, Stretch, Challenge, My thinking, fold-under word bank and exit ticket (page 5). The Recorder's copy goes in the group folder for Week 9	Designed as 5 A4 pages, but the lesson file expects one sheet that may run onto the back; check before printing 72 sheets. Page 5 holds only the exit ticket, so the third sheet has a blank back. Spares not stated.	
Printing (paper copies)	Worksheet, Plan B: Test day (group results sheet)	24	copies; 4 A4 pages, double-sided (2 sheets), stapled	per student	Plan B	48	Safety check, strength results table with repeats and notes, How did it break?, Stretch, Challenge, My thinking, fold-under word bank and exit ticket. The Recorder's copy goes in the group folder for Week 9	The exit ticket is at the foot of page 4. Printed double-sided, cutting it off also cuts the foot of page 3 (Challenge b and its Ideas line). Check the layout before printing 48 sheets. Spares not stated.	
Printing (paper copies)	Kit card, Plan A: Test day, ice strips		not stated; the card is marked Teacher copy, but the Safety Officer in each group reads its hazards aloud; copies; A5, 2 sides, double-sided	per class	Plan A		Kit list per group and per class, teacher prep (side 2), bilingual hazards and clean-up	Decide: 1 teacher copy, or 1 per group for the Safety Officers.	
Printing (paper copies)	Kit card, Plan B: Test day, dough strips		not stated; the card is marked Teacher copy, but the Safety Officer in each group reads its hazards aloud; copies; A5, 2 sides, double-sided	per class	Plan B		Kit list per group and per class, teacher prep (side 2), bilingual hazards and clean-up	Decide: 1 teacher copy, or 1 per group for the Safety Officers.	
Printing (paper copies)	Strength test rig labelled diagram (6a), A4 group copies	6	copies; 1 A4 landscape page, single-sided, then laminated	per once		6	Bilingual diagram on each group table; groups (and Band 1 students) build the rig from it	Laminated and reusable in future years, so print once for all classes.	
Printing (paper copies)	Strength test rig labelled diagram (6a), A3 board copy	1	copy; A3 landscape, single-sided	per room		1	Board copy for the rig demonstration		
Printing (paper copies)	Melting test station card (6b)	2	copies; 1 A5 landscape page, single-sided, then laminated	per class	Plan A	4	Picture steps for the melting-test groups (up to two)	The print spec says 2 per class; once laminated, the same pair can serve later classes.	
Card, laminating and stationery	Laminating pouches, A4	6	pouches	per once		6	Laminate the 6 group copies of the rig diagram		
Card, laminating and stationery	Laminating pouches, A5	2	pouches	per class	Plan A	4	Laminate the 2 melting test station cards	The requisition tags this line 'both'; only Plan A needs it.	
Card, laminating and stationery	String for the hanger strings	13	lengths (one per hanger string: 2 per group plus 1 for the demo rig)	per group		26	Hanger strings: a loop about 20 cm round with a tail so the bag hangs about 5 cm above the bottom of the bucket	Length per string not stated; set by testing on one pair of classroom desks.	
Card, laminating and stationery	Marker pen		not stated; the requisition lists 1; pens	per class			Mark the 25 ml line on the pour cups; results written on the class project board	The lesson file does not name a marker or a quantity (the Week 7 project board is written on in marker).	
Equipment and materials	Cool box (insulated box with lid)	6	boxes (1 per group)	per group	Plan A	12	Keeps each group's tray of ice strips cold from the freezer until each strip is tested	Week 6 used one cool box; 6 are needed. Use bubble-wrapped boxes (below) if short.	
Equipment and materials	Box with a lid, to wrap in bubble wrap (optional)	6	boxes	per group	Plan A	12	Alternative insulated box if cool boxes are short	Only if cool boxes are short.	
Equipment and materials	Textbooks for the book stacks	78	books (about 12 per group for 4 stacks of 3, plus 6 for the demo rig)	per group		156	Two equal stacks at the gap edges for each rig	Students' own books are fine. Plan A melting groups (up to 2) need no rigs; the quantity covers 6 strength groups.	
Equipment and materials	Thin plastic bags to cover the top books	12	bags (2 per group)	per group	Plan A	24	Keep the top books dry under the ice strips	The Plan B kit card leaves these out, but the shared rig diagram and Slide 5 show the top books covered; decide whether Plan B needs 12 too.	
Equipment and materials	Small carrier bags or freezer bags with handles	13	bags (2 per group plus 1 for the demo rig)	per group		26	The bag that hangs from the strip and takes the water load		
Equipment and materials	Buckets or deep washing-up bowls (catch trays)	13	buckets (2 per group plus 1 for the demo rig)	per group		26	Catch tray under every hanging bag		
Equipment and materials	Plastic cups (to make the pour cups)	12	cups (2 per group)	per group		24	Marked at 25 ml for pouring the load		
Equipment and materials	Jug, about 2 litres	6	jugs (1 per group)	per group		12	Water supply for the pours; water from the bags goes back into it, then the sink		

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Equipment and materials	Waste bowl	6	bowls (1 per group)	per group		12	Broken strips (and melted samples) go here, then the bin, not the sink		
Equipment and materials	Ruler, 30 cm	7	rulers (1 per group plus 1 for the teacher's demo rig)	per group		14	Check the 10 cm span every time	The requisition lists 6; the 7th is for the demo rig (Slide 5 notes), and any classroom ruler will do. The lesson file says only 'ruler'.	
Equipment and materials	Measuring cylinder, 25 ml	1	cylinder	per once		1	Mark the 25 ml line on the 12 pour cups	The lesson file says only 'a measuring cylinder'; the 25 ml size comes from the requisition (Week 7 groups used 25 ml cylinders).	
Equipment and materials	Measuring cylinder, 10 ml	2	cylinders (1 per melting group, up to 2)	per group	Plan A	4	Read each lid's meltwater to the nearest 0.5 ml		
Equipment and materials	Identical plastic lids or saucers	20	lids (10 per melting group, up to 2)	per group	Plan A	40	One strip melts on each lid for 15 minutes		
Equipment and materials	Stopwatch	2	stopwatches (1 per melting group, up to 2)	per group	Plan A	4	Time the 15-minute melting test	The requisition tags it 'both'; only Plan A melting groups need it.	
Equipment and materials	Towels (cloth)	13	towels (2 per group plus 1 for the teacher)	per group		26	Towels on every table; the teacher circulates with one in the Do phase		
Equipment and materials	Mop and bucket	1	set	per room		1	Near the door; mop spills at once (a wet floor is the biggest risk today)		
Food and consumables	Tap water	12	litres (about 2 litres per group jug)	per group		24	The load poured into the bags, 25 ml at a time		
Food and consumables	Disposable gloves	18	pairs (3 per group)	per group	Plan A	36	Peeling foil off the strips and holding ice for more than a minute		
Food and consumables	Paper towels (kitchen roll)		not stated (kit card says 'plus paper towels'); the requisition lists 1 roll; rolls	per class			Mopping small spills alongside the cloth towels	No amount given in the lesson file.	
Make beforehand	Pre-tied hanger strings	13	strings (2 per group plus 1 for the demo rig)	per group		26	Loop over the strip with a tail tied to both bag handles	Test the length on one pair of classroom desks so the bag hangs about 5 cm above the bucket bottom.	
Make beforehand	Pour cups marked at 25 ml	12	cups (2 per group)	per group		24	Fill to the line for each 25 ml pour	Made from the 12 plastic cups above, marked with the measuring cylinder and the marker.	
Already in the room (from an earlier week): check it is there									
Card, laminating and stationery	Group folder with the Week 7 planning frame	6	folders	per group		12	Handed out in the Do Now; Band 1 students copy the Our test line from the planning frame; the Recorder's results sheet is stored in it for Week 9 Reuse: Folders and planning frames issued in Week 6; planning frame completed and approved in Week 7; reuse	The requisition lists 6 group folders again this week (flagged reusable); no new order needed.	
Card, laminating and stationery	Group role cards with duties (language support pack, 6 cards per set including the Language buddy card)	6	sets	per group		12	Parallel roles on two rigs; the teacher checks role cards in the Do Now; the Band 1 student sits beside the language buddy Reuse: Printed and laminated from the language support pack before Week 1; reuse		
Card, laminating and stationery	Sentence frame card set, Year 7 Ice Engineers (A6)	6	sets	per group		12	Pair talk in Think and Reflect with the frame 'The anomaly is ___ because ___.' (Slide 13); the set also has the Week 8 frame '___ is an anomaly because ___.' Reuse: Printed from the language support pack before Week 1; reuse		
Card, laminating and stationery	Class project board	1	board	per class		2	Shows the trial decision (strip thickness or span) and who tests what; Recorders copy their results onto it for Week 9 pooling Reuse: Printed (A3) for Week 7 and on the wall since then; reuse	Photograph it after the lesson, before it is wiped.	
Equipment and materials	Labelled ice strips on the group's tray (from the freezer)	6	trays (one per group, about 9 labelled strips each, still in their foil troughs)	per group	Plan A	12	The samples to test Reuse: Made in the Week 7 lesson and frozen for at least 24 hours; reuse		
Equipment and materials	Labelled dough strips on the group's tray (from the drying shelf)	6	trays (one per group, about 9 labelled strips each)	per group	Plan B	12	The samples to test Reuse: Made in the Week 7 lesson and air-dried for a week; reuse	Strips must feel hard, not soft, before testing.	
Equipment and materials	Freezer drawer holding the class's ice strips	1	drawer	per class	Plan A	2	Strips stay frozen until just before the lesson, then move into the insulated boxes Reuse: Booked in Week 6, cleared and labelled in Week 7; in use since the Week 7 lesson; reuse	The requisition lists it again this week (Freezer space, 1 drawer); no new booking needed if it is still held.	
Equipment and materials	Drying shelf holding the class's dough strips	1	shelf	per class	Plan B	2	Strips stay on the shelf until they are handed out at the start of the lesson Reuse: Set up for the Week 7 lesson; reuse	The requisition lists it again this week (Dry shelf, 1 shelf).	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Equipment and materials	Flat trays carrying each group's samples	6	trays	per group		12	Carry each group's strips to its table Reuse: Week 7 flat trays (the samples are still on them); reuse	The requisition lists 6 trays again this week (flagged reusable); no new order needed.	
Equipment and materials	Kit trays	6	trays (1 per group)	per group		12	Each group's kit set out before students arrive (Do Now resource: kit tray) Reuse: Group kit trays used in every practical (Teacher Guide routine); reuse	Books and buckets will not fit on a tray; set them beside it.	
Equipment and materials	Bubble wrap (optional)		not stated; enough to wrap up to 6 boxes; box wraps	per group	Plan A		Wrap the alternative insulated boxes Reuse: Week 6 bubble wrap; reuse if there is enough	The requisition tags it 'both'; Plan A only. The Week 6 Plan A pieces were small (15 cm squares for three groups), so more may be needed.	
Make beforehand	Spare strips for the Hook (from the trial batch)	2	strips	per class		4	Held up in the Hook: which will hold more water, and how will each break? Reuse: From the strip trial batch (Plan A: frozen in Week 5 or 6; Plan B: made in Week 5 and dried); reuse	The kit card and requisition say 2 plain strips, but Slides 3 and 4 hold up one plain and one fibre strip. The Week 7 trial tests all its plain strips on the rig, so check spares exist.	
Year 8, Week 6: Footprints and height 脚印与身高									
To get, print or make									
Printing (paper copies)	Worksheet: Footprints and height (Core, Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip with the Week 7 option vote)	24	copies; 4 A4 pages, double-sided	per student		48	Main student task: own measurements, class data table, scatter graph (15 cm by 13 cm grid), line of best fit, height estimate and suspect check; exit ticket with the Week 7 option choice at the foot of page 4	No spares stated. 24 copies x 2 sheets = 48 A4 sheets. The lesson file says 'two sides', but the designed worksheet has 4 pages (pages 1 to 3 say 'turn over'). Cutting off the exit ticket strip at the foot of page 4 also cuts the bottom of page 3 (Challenge a) writing lines) on the back. Print only from the design rebuilt after the language pass.	
Printing (paper copies)	Scene footprint, true size (group copies)	6	copies; A4 portrait, single-sided, printed at 100% (actual size)	per group		12	Evidence 5: the 24 cm white footprint with a 0 to 25 cm check scale, one per group for the Do phase	The requisition lists 7 prints (6 groups plus 1 scene table). Never print 'fit to page'; check every copy measures exactly 24.0 cm with a ruler. Footprints go into case files at clean-up, so 6 new copies are needed for each class.	
Printing (paper copies)	Scene footprint, true size (scene table and teacher's Hook copy)	1	copy; A4 portrait, single-sided, printed at 100% (actual size)	per once		1	The teacher holds it next to a metre stick in the Hook ('Can a footprint tell us how tall someone is?'); then on the scene table	Counted in the requisition's 7 prints. If the optional Week 1 scene table used a 24 cm paper footprint, that copy can be reused: check it measures 24 cm.	
Printing (paper copies)	Sample class data card (24 made-up Year 8 students, S01 to S24)	7	copies; A5 portrait, single-sided, then laminated	per once		7	Data for any student who prefers not to be measured, and for the whole class if fewer than 16 are measured or time is short; also used by the answer key	Print notes give 6 (1 per group) plus 1 for the teacher; the kit card says 1 per group. Laminated 'if possible', so the cards can be collected and serve every class. Print on A5, or 2 up on A4 and cut.	
Printing (paper copies)	Height station sign	3	copies; A4 portrait, single-sided	per room		3	Three picture steps for measuring height to the nearest 1 cm at each wall station; bilingual method support for Band 1 students	The requisition names the signs only as an ingredient of the height stations ('ordinary print'). They can stay up with the charts for every class.	
Printing (paper copies)	Kit card (half-A4, teacher copy)	1	copy; A5 landscape, single-sided	per once		1	Teacher kit list, prep, hazards and controls, and clean-up	The design is marked 'Teacher copy'. The Teacher Guide has the Safety Officer check the kit card at the start of every Do phase; extra copies for group trays are not stated.	
Card, laminating and stationery	Laminating pouches, A5 (optional)	7	pouches	per once		7	Laminating the 7 sample class data cards	Lamination is 'if possible'.	
Card, laminating and stationery	Masking tape		not stated (requisition: 1 roll); roll	per once			Taping the paper height charts to the wall, or making the marked strip (every 1 cm from 100 to 200 cm) beside an upright metre stick	The Week 1 roll (pen labels) may still have enough.	
Equipment and materials	Rulers, 30 cm	12	rulers (2 per group)	per group		24	Measuring foot length (heel against the wall) to the nearest 0.5 cm and drawing the line of best fit; the teacher also uses one to check the footprint prints	Week 3 used 6 (1 per group); 12 are needed this week.	
Equipment and materials	Metre sticks or tape measures	7	metre sticks or tape measures (1 per group plus 1 for the Hook)	per group		14	Group measuring; the teacher lays one beside the scene footprint in the Hook	The kit card gives 1 per group; the Slide 4 notes need one at the front, so the requisition adds 1. Tape measures must be retracted slowly (Teacher Guide safety table).	
Equipment and materials	Metre sticks for upright height stations (alternative to paper charts) (optional)	3	metre sticks	per room		3	Held upright against the wall with a masking tape strip marked every 1 cm from 100 to 200 cm	The requisition note says 'add up to 3 more if the height stations use upright metre sticks'. Marking the tape needs a fine marker pen, which is not listed.	
Equipment and materials	Paper height charts, 130 to 190 cm	3	charts	per room		3	Wall scale at each height station	No printable design exists for the chart: buy ready-made charts or use the upright metre stick alternative. Leave up if Year 7 or 9 need them.	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Equipment and materials	Hardback books	6	books (1 per group)	per group		12	Held flat on the head, touching the wall, to read height	Borrow from the library or staff room.	
Make beforehand	Height measuring stations	3	stations	per room		3	Pairs measure height to the nearest 1 cm, book flat on the head	On clear wall space away from doors. Ingredients: a paper height chart (or upright metre stick with a marked masking tape strip), masking tape and a height station sign. Set up once and leave up for every class.	
Already in the room (from an earlier week): check it is there									
Card, laminating and stationery	Pencils, sharp	24	pencils (4 per group)	per group		48	Plotting small, neat crosses on the scatter graph and filling in the worksheet Reuse: Bought for Week 1 (1 per student); reuse	Listed again in the Week 6 requisition; no new order needed. Sharpen before the lesson.	
Card, laminating and stationery	Case files (cover, briefing, scene map, four suspect cards, evidence log with suspect tracker and confidence rows)	24	case files	per student		48	Do Now answers from evidence log row 5; suspect cards give heights (Core f) and foot lengths (Challenge b); evidence log row 6, tracker column 'Footprint' and confidence row W6; group footprints filed here at clean-up Reuse: Made in Week 1; kept in the class box		
Card, laminating and stationery	Scientist's Logbook (A5 booklet)	24	booklets	per student		48	One line under 'What I found' if time; otherwise evidence log row 6 counts as the logbook entry Reuse: Started in Week 1; kept in the class box		
Card, laminating and stationery	Group role cards with duties (6 cards per set, laminated, including the Language buddy card)	6	sets	per group		12	Measurer and Recorder roles rotate in the measuring pairs; the Recorder reads the group's data to the teacher; the Safety Officer checks the kit card; buddy card for Band 1 seating Reuse: Printed and laminated with the language support pack before Week 1; reuse		
Card, laminating and stationery	Sentence frame card sets, Year 8 (A6 cards)	6	sets	per group		12	Frames on the tables for reporting, including the Week 6 frame 'We estimate ___ because ___.' and 'This evidence is strong / weak because ___.' Reuse: Printed with the language support pack before Week 1; reuse		
Card, laminating and stationery	My Science Dictionary, Year 8 (A5 booklet)	24	booklets	per student		48	The Week 6 page gives all eight key words with Chinese meanings; open in every lesson Reuse: Given out in Week 1 (24 plus 4 spares); reuse	Not named in the Week 6 lesson file; the Teacher Guide says the dictionary is open in every lesson.	
Equipment and materials	Trays	6	trays (1 per group)	per group		12	Group kit tray; rulers and metre sticks are counted back in at clean-up Reuse: Prep room trays used every week since Week 2; reuse	Listed again in the Week 6 requisition; no new order needed.	
Equipment and materials	Class box	1	box	per class		2	Case files and logbooks stored at the end of the lesson Reuse: Bought for Week 1; reuse		
Equipment and materials	Ideas Parking Board (Week 5 sticky notes), or its photo	1	board	per class		2	Do Now: the teacher points to it ('We have not forgotten that the liquid does not fit') Reuse: Made in Week 5; photo kept for Week 9	The Week 5 file says photograph it before taking it down; the handover note should say whether it is still on the wall.	

Teaching week 4 of 6

Year 7: Week 9 What does it mean? | Year 8: Week 7 Design your own test

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Year 7, Week 9: What does it mean? 数据说明了什么？									
To get, print or make									
Printing (paper copies)	Worksheet: What does it mean? (Do Now box, Core A to C, Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip)	24	copies; 4 A4 pages, double-sided	per student		48	Each student's own work: Do Now means, Core A and B in Learn, Core C, Stretch and Challenge in Do, then the panel card; exit ticket strip on page 4; collected as evidence of who wrote what	48 A4 sheets per class. No spares stated. Pages 1 to 3 say 'turn over', so print double-sided. Cutting off the exit ticket strip (page 4) also cuts a strip out of page 3 (Challenge b), so collect the whole worksheet. Print only from the design rebuilt after the language pass.	
Printing (paper copies)	Class data pooling sheet (Section 6a)	6	copies; A4 landscape, 2 sides (side 1 strength, side 2 melting), double-sided; 1 per group	per group		12	Each group writes every group's mean for each sample, adds and divides to check the class means for its question (Core A)	Side 2 (Table 2, melting) is for Plan A melting groups only; Plan B classes could print side 1 only. No spares stated.	
Printing (paper copies)	Class data pooling sheet enlarged to A3 for the board (side 1, strength)	1	copy; A3 landscape, single-sided	per class		2	The teacher writes the class results table on it before the lesson, so the board table has the same bilingual headings and sample rows as the groups' sheets (Band 1 students find their rows by the Chinese labels)	Covered by the requisition's A3 paper line (8 sheets: 7 posters plus this enlargement). The file asks for 1 A3 enlargement, but the melting table is on side 2: Plan A classes with melting-test groups need it on the board too (on the back, or on a second A3 sheet that is not in the requisition). See open questions.	
Printing (paper copies)	Investigation poster template (Section 6b), seven numbered panels	7	copies; A3 portrait, single-sided; 6 groups plus 1 spare	per group		14	Each group glues its seven panel cards onto it; main evidence for Rubric strands 1 to 5 and the display for the Week 10 Expo	Covered by the requisition's A3 paper line. Posters are stored flat in the group folders: check the folders take A3.	
Printing (paper copies)	Poster panel cards, Panels 1 to 7 (Section 6b), with 'Cut here' lines	7	sets; 4 A4 sheets per set, single-sided, cut out by students; 6 groups plus 1 spare set	per group		14	Students write their own panel at the same time, cut it out and glue it onto the A3 poster	28 A4 sheets per class. The cards are designed the same size as the poster panels, so print at 100% (no fit to page); this also keeps the Panel 4 graph grid at 1 cm squares.	
Printing (paper copies)	Sample class data card, Plan A ice strips (Section 6c): side 1 strength, side 2 melting	3	copies; A4 portrait, 2 sides, double-sided, laminated	per class	Plan A	6	Made-up class data kept on the teacher desk, given only to groups whose own data is missing or unusable	Print spec says 3 of each plan per class; only the set matching your plan is given out. Laminated and kept on the teacher desk, so the same cards can serve other classes; Week 10 stores them with the reusable kit.	
Printing (paper copies)	Sample class data card, Plan B dough strips (Section 6c)	3	copies; A4 portrait, single-sided, laminated	per class	Plan B	6	Made-up class data kept on the teacher desk, given only to groups whose own data is missing or unusable	Print spec says 3 of each plan per class; only the set matching your plan is given out. Laminated and kept on the teacher desk, so the same cards can serve other classes; Week 10 stores them with the reusable kit.	
Printing (paper copies)	Sample class data: teacher answers (group means and class means) (optional)	1	copy; A4 portrait, single-sided, teacher copy	per once		1	Teacher reference for checking the means of groups using the sample data and the class means on posters	No print spec; the designed page is marked Teacher copy. The same answers are in Sections 4 and 6c of the lesson file.	
Printing (paper copies)	Self-assessment slip (assessment/Rubric_and_Reporting.md, Section 7)	24	slips; A5 portrait, 2 per A4 sheet, single-sided, cut in half (12 A4 sheets)	per student		48	Think and Reflect (about 4 minutes): each student rates themselves on the six rubric strands before the teacher decides levels	The Teacher Guide prep calendar puts this print job in Week 8. Collected separately from the posters.	
Printing (paper copies)	Talk frame card: Our 2-minute Expo talk (Week 10 file, Section 6b)	24	copies; folded A4 (A5 when folded), 4 panels, double-sided	per student		48	Groups split the 2-minute Expo talk in Think and Reflect; kept in the group folder for Week 10	Designed with the Week 10 printables as a folded A4 card (the spec allows this when the five parts do not fit on one A5 side). The bilingual version must be the one printed now, in Week 9.	
Printing (paper copies)	Kit card (half-A4, teacher copy, one card for Plan A and Plan B)	1	copy; A5, 2 sides, double-sided	per class		2	Teacher's kit list, prep steps, hazards and clean-up		
Card, laminating and stationery	Laminating pouches, A4	6	pouches	per class		12	Laminate the sample class data cards (3 Plan A, 3 Plan B)	Only 3 are needed if you print only your plan's cards.	
Card, laminating and stationery	Glue sticks	12	glue sticks	per group		24	2 per group to glue the panel cards onto the A3 poster		
Card, laminating and stationery	Black felt-tip pens, thick	12	pens	per group		24	2 per group for poster titles and headings, readable from 2 metres		
Card, laminating and stationery	Black felt-tip pens, thin	12	pens	per group		24	2 per group for writing the panel cards		

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Make beforehand	Class results table, written on the A3 enlargement of the pooling sheet: every group's mean for every sample and the class mean for each sample type	1	table	per class		2	Displayed from the Do Now; groups check their means against it and copy the class means for their question in Core A	Made from the photo of the Week 8 class project board on the A3 enlargement listed under Printing, so no extra paper; the kit card also allows it on a slide. Plan A classes with melting groups need the melting rows too.	
Already in the room (from an earlier week): check it is there									
Card, laminating and stationery	Group folders, holding the Week 7 planning frame and the Week 8 results sheets	6	folders	per group		12	Returned in the Do Now (results sheets for finishing means; Box 1 of the planning frame for 'Our question'); posters stored flat in them at clean-up; talk frame cards kept in them for Week 10 Reuse: Issued with the planning frame in Week 6; reuse	The current requisition lists 6 group folders again this week; they already exist, so no new order is needed. Check they take an A3 poster flat.	
Card, laminating and stationery	Group role cards with duties, including the language buddy card (6 cards per set, laminated)	6	sets	per group		12	Poster panels are assigned by role; the language buddy card marks the buddy who sits beside a Band 1 student Reuse: Printed and laminated before Week 1 (language support pack); reuse		
Card, laminating and stationery	Sentence frame card sets, Year 7 (A6 cards)	6	sets	per group		12	Week 9 frames (One problem was ___. Next time we would ___.; We are confident / fairly confident / not confident because ___.; If I did it again, I would ___.) for Stretch, Challenge and Panels 6 and 7 Reuse: Printed with the language support pack before Week 1; reuse		
Card, laminating and stationery	My Science Dictionary, Year 7 (A5 booklet)	24	booklets	per student		48	Open in every lesson for key words with Chinese Reuse: Given out in Week 1 (24 plus 4 spares); reuse		
Card, laminating and stationery	Scientist's Logbook (A5 booklet) (optional)	24	booklets	per student		48	Weekly logbook line, if time allows; supporting rubric evidence for Week 10 Reuse: Started in Week 1; kept in the class box	This lesson's Think and Reflect has no logbook line (self-assessment slip, talk planning and exit ticket instead).	
Card, laminating and stationery	Pencils	24	pencils	per student		48	Worksheet and plotting the graph on the Results panel Reuse: Bought for Week 1 (1 per student); reuse	Not on the Week 9 kit card.	
Equipment and materials	Scissors	6	pairs	per group		12	1 per group to cut out the panel cards Reuse: Bought for Week 3 (12 pairs, 2 per group); reuse	The current requisition lists 6 pairs again this week; the Week 3 scissors already exist, so no new order is needed.	
Equipment and materials	Ruler, 30 cm	12	rulers	per group		24	2 per group for graph axes, bars and poster lines Reuse: Bought for Week 5 (24 rulers, 1 per student); reuse	The current requisition lists 12 rulers again this week; the Week 5 rulers already exist, so no new order is needed.	
Equipment and materials	Class box (optional)	1	box	per class		2	Holds the logbooks between lessons Reuse: Week 1 class storage box; reuse	Only needed if logbooks are used this lesson.	

Year 8, Week 7: Design your own test 设计你的检测

To get, print or make									
Printing (paper copies)	Plan sheet (worksheet): Core a) to f), Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip and kit request box	24	copies; 4 A4 pages, double-sided	per student		48	Main task for the Do phase: each student completes their own copy of the group's agreed plan; checkpoint stamp boxes on page 1; exit ticket and kit request on page 4	Kit card: plan sheets, 4 per group (24). No spares stated. Lesson file Section 3 says 'two sides', but the designed plan sheet is 4 A4 pages (pages 1 to 3 say 'turn over'), so 24 x 2 = 48 sheets. Printed double-sided, page 3 is on the back of page 4: the first cut line on page 4 sits a little under halfway down, so cutting off the exit ticket also cuts away the lower half of page 3 (Stretch c and all of Challenge); cutting off only the kit request cuts away Challenge b and c. The kit request is meant to be one per group (Safety Officer) but is printed on every copy. Plan sheets are collected, returned with comments in the Week 8 Do Now (Week 8 file), then go into the case file. Print only from the designs rebuilt after the language pass.	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Printing (paper copies)	Option cards: Soil, Paper, Ink 2, Powder 2 (story hook, question, samples, picture method steps, main hazards, Think about)	10	copies; 1 A4 page each, single-sided; 6 group copies (1 per group, its own option) plus 4 spares (1 of each option)	per group		20	Hook: each group reads its story hook and question; Do: groups copy the question, samples and hazards and put the lettered method steps in order	Print after allocating options ('1 per group taking that option, plus 1 spare of each'). With six groups, every option at least once and no more than two groups per option, the split is always 2, 2, 1, 1, so 3, 3, 2 and 2 copies (10). Laminate if possible. Keep them: the Week 8 file says the Week 7 option card stays on the table beside the plan sheet on lab day.	
Printing (paper copies)	Kit card: Week 7 planning lesson (half-A4, teacher copy)	1	copy; A5, single-sided	per class		2	Per-group kit, teacher prep, hazards and controls, clean-up	Marked 'Teacher copy'. No print count is stated; 1 teacher copy assumed.	
Printing (paper copies)	Week 8 kit lists by option: Soil, Paper, Ink 2, Powder 2 (teacher copy)	1	set; 4 A5 pages (one per option), single-sided	per class		2	Teacher reference for checking kit requests against what each option needs in Week 8	Titled 'Week 8 kit list by option: plan with these' and marked 'Teacher copy'. No print count is stated; 1 teacher set assumed. The lesson file specifies them as half-A4, so they can also go 2 per A4 sheet (2 sheets). The full Week 8 kit cards in the Week 8 file take priority.	
Card, laminating and stationery	Laminating pouches, A4 (optional)	10	pouches	per group		20	Laminating the 10 option cards	The print spec says 'laminated if possible'.	
Card, laminating and stationery	Sticky labels	6	labels	per class		12	Labelling the sealed Evidence 6, Evidence 7 and Evidence 3 bags	Label text: 'Evidence 6' and 'Evidence 7' (kit card and Case Bible Section 12); 'Evidence 3: white powder, floor by desk (F4)' as in Week 4. Up to 2 of each; with a 2, 2, 1, 1 split no class needs more than 5.	
Card, laminating and stationery	Clear plastic sleeves	2	sleeves	per group		4	Holding a note ink strip N for each Ink 2 group to look at	1 per Ink 2 group, no more than 2 groups.	
Card, laminating and stationery	Dry-wipe pens for mini whiteboards (optional)	24	pens	per student		48	Do Now recap answers	Kit card: mini whiteboards and pens, 4 per group. Students may answer in the logbook instead.	
Equipment and materials	Mini whiteboards (optional)	24	boards	per student		48	Do Now: three recap questions	Kit card: 4 per group. First Year 8 lesson to use them; the school may already have a class set. Students may answer in the logbook instead.	
Equipment and materials	Small zip bags (evidence bags)	6	bags	per group		12	Sealed evidence bags, 1 per group: Evidence 6 (Soil groups), Evidence 7 (Paper groups), Evidence 3 (Powder 2 groups)	Up to 2 of each type (6), but because at least one group takes Ink 2, no class uses more than 5. Reuse a Week 4 Evidence 3 bag only if it is still sealed.	
Equipment and materials	Reference samples to show groups: soils A to D (A flowerbed by the science block entrance, B sports field edge, C sandpit, D tree bed by the main gate) and papers P1 to P4 (lab paper towel, canteen napkin, tissue, shop kitchen roll) (optional)		not stated for Week 7 (the Week 8 kit card collects about 2 cups of each soil; each Soil group uses about 4 tablespoons of each, and each Paper group needs enough of each paper for 3 strips); samples	per class			Kit card: 'collect the reference soils and papers now if possible, so groups can see them' while planning	Listed in the Week 8 requisition (campus soil samples A to D, paper reference sets P1 to P4); collecting them now only moves that Week 8 task earlier, so do not order twice. No containers are named for Week 7.	
Food and consumables	Paper towels (the lab's own, from the sink dispenser)	2	sheets	per group		4	Making Evidence 7: one sheet per Paper group	Must come from the lab's own roll (the same roll as reference P1), not a purchase. The same sheet is smoothed flat and cut into 3 strips 2 cm by 12 cm in Week 8, so take a full sheet.	
Food and consumables	Baking soda (小苏打) (optional)	6	teaspoons	per group		12	New sealed Evidence 3 bags for the Powder 2 groups, about 3 teaspoons per bag	Only if no unopened Week 4 Evidence 3 bag is left. Use the Week 4 baking soda if any remains.	
Make beforehand	Evidence 6: scene soil (a little soil from the flowerbed by the science block entrance) in a sealed bag labelled 'Evidence 6'	2	sealed bags	per group		4	Hook reveal ('new evidence from the forensic team'), then on the Soil groups' tables to look at while planning	Must come from the same flowerbed as reference A, or the Week 8 results will not match the Case Bible. The lesson file and kit card say a sealed bag; Case Bible Section 12 and the Teacher Guide prep calendar say a labelled jar. Bags stay sealed and go back to the teacher, so one set can serve every class (Week 8 uses a separate pot of Evidence 6 per Soil group).	
Make beforehand	Evidence 7: scene paper towel (crumpled lab paper towel with a pencil arrow along the roll direction) in a sealed bag labelled 'Evidence 7'	2	sealed bags	per group		4	Hook reveal, then on the Paper groups' tables to look at while planning	From the lab's own roll (reference P1); mark the arrow before crumpling. The same sheet is smoothed flat and cut into strips in Week 8, so if you teach more than one class, each class's Paper groups will need their own sheet by Week 8. Bags stay sealed and go back to the teacher.	
Make beforehand	Evidence 3: scene powder (baking soda) in a sealed bag labelled 'Evidence 3: white powder, floor by desk (F4)'	2	sealed bags	per group		4	On the Powder 2 groups' tables to look at while planning	An unopened Week 4 bag if one is left (most will have been opened in Week 4); otherwise a new bag of about 3 teaspoons of baking soda.	
Already in the room (from an earlier week): check it is there									

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Card, laminating and stationery	Pencils	24	pencils	per student		48	Writing the plan sheet, exit ticket and kit request Reuse: Bought for Week 1 (1 per student); reuse		
Card, laminating and stationery	Case files (A4 folder per student, with the Week 4 results grid and the evidence log)	24	case files	per student		48	Powder 2 groups use the Week 4 results grid as a reference; evidence log row 7; the plan sheet is filed here Reuse: Made before Week 1; kept in the class box		
Card, laminating and stationery	Group role cards with duties, including the language buddy card (6 cards per set, laminated)	6	sets	per group		12	Planning roles: Lead Scientist keeps time, Recorder writes the group copy, Safety Officer leads the risk table and kit request, Measurer plans measurements, Reporter explains the plan Reuse: Printed and laminated before Week 1 (language support pack); reuse	Roles rotate weekly.	
Card, laminating and stationery	Sentence frame card sets, Year 8 (A6 cards)	6	sets	per group		12	Week 7 frames on group tables: 'I change ___. I measure ___. I keep ___ the same.' and 'I predict ___ because ___.' Reuse: Printed with the language support pack before Week 1; reuse		
Card, laminating and stationery	My Science Dictionary, Year 8 (A5 booklet)	24	booklets	per student		48	Key word meanings in English and Chinese; open in every lesson Reuse: Given out in Week 1 (24 + 4 spares); reuse	Not named in the Week 7 lesson file; the Teacher Guide says the dictionary is open in every lesson.	
Card, laminating and stationery	Scientist's Logbook (A5 booklet)	24	booklets	per student		48	Do Now answers if no whiteboards; one line under 'What I found' if time allows (otherwise evidence log row 7 counts) Reuse: Started in Week 1; kept in the class box		
Equipment and materials	Class box	1	box	per class		2	Case files and logbooks out at the start and back at the end Reuse: Week 1 class storage box; reuse		
Equipment and materials	Pen B (black washable felt-tip that wrote the note) (optional)	1	pen	per once		1	Making new note ink strips N, only if the 2 Week 3 spares are gone Reuse: Bought and pre-tested before Week 1; kept with pens A to D	Never leave pen B on a student table (Case Bible Section 11).	
Equipment and materials	White coffee-filter strips, 2 cm by 10 cm (optional)	2	strips	per group		4	New note ink strips N for the Ink 2 groups, only if the Week 3 spares are gone Reuse: Coffee filters bought before Week 1 (Week 3 stock)	The requisition lists 2 strips, but they come from the existing coffee-filter stock; no new order needed.	
Make beforehand	Note ink strip N (pen B on a coffee-filter strip) in a clear sleeve	2	strips	per group		4	On the Ink 2 groups' tables to look at while planning Reuse: The 2 spare N strips from Week 3, if still unused	The requisition lists 2 teacher-made strips; use the Week 3 spares first. If new ones are needed, make them as in Case Bible Section 11 (pencil line 2 cm from the bottom, 'N' at the top, dot pen B on the line three times).	

Teaching week 5 of 6

Year 7: Week 10 Ice Engineers Expo | Year 8: Week 8 Lab day

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Year 7, Week 10: Ice Engineers Expo 冰雪工程师成果展									
To get, print or make									
Printing (paper copies)	Final skills check paper, Year 7 (assessment/Skills_Check_Y7.md, Section 1): the same paper as Week 1, fresh copies	24	copies; 2 A4 pages (two sides of A4), double-sided	per student		48	Do Now: 15-minute final skills check, face down on desks before students arrive, 'Week 10' box ticked; total into tracker column S for growth	Print from the same master as Week 1 (or use spare copies printed with Week 1) and do not alter it, not even the Chinese. Check the 'Week 10' tick box is on the paper. Print in class order. Kit card: 1 per student; no spares stated.	
Printing (paper copies)	Interest survey (assessment/Interest_Survey.md, Section 1), fresh copies	24	copies; half-A4, 2 per A4 sheet with a cut line, single-sided (12 sheets)	per student		48	Survey phase: six statements on a five-face scale, each read aloud once (3 minutes), 'Week 10' box ticked; tracker columns U to Z	Fresh copies, not the Week 1 ones. Print in class order and cut in half. Collected separately from everything else. Kit card: 1 per student; no spares stated.	
Printing (paper copies)	Expo notes worksheet: Core notes table, Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip	24	copies; 3 A4 pages, double-sided (pages 1 and 2 back to back, page 3 on its own sheet)	per student		48	Do: Expo notes for each other group's talk (Core), the question asked and whether the answer used evidence (Stretch), comparing two groups' conclusions (Challenge); Think and Reflect: My thinking box and exit ticket strip	Kit card: 1 per student; no spares stated. The design is 3 A4 pages (pages 1 and 2 say 'turn over'); lesson file Section 3 does not say how many sides. Printed this way, 24 x 2 = 48 sheets, and cutting off the exit ticket at the foot of page 3 loses nothing on the back. Collected with the exit tickets; strong My thinking answers go into the programme summary.	
Printing (paper copies)	Peer feedback slip, 'Two stars and a wish' (assessment/Rubric_and_Reporting.md, Section 6)	24	slips; A6, 4 per A4 sheet with dashed cut lines, single-sided (6 sheets)	per student		48	Do: each student writes one slip for the group they ask; collected in Think and Reflect, given to each group and stuck on the back of its poster (can support strand 5)	Print spec: 6 sheets per class 'plus spares', but the number of spares is not given. Before the lesson, write on each slip's 'For' line the group that student will write for (the group they ask).	
Printing (paper copies)	Expo run sheet (6a), teacher copy	1	copy; 1 A4 portrait page, single-sided	per class		2	Teacher's clipboard: clock times for each phase and talk, who asks each question, teacher checks and the timing rule		
Printing (paper copies)	Strand 6 talk record (6d), teacher copy	1	copy; 2 A4 landscape pages (talks 1 to 3, talks 4 to 6), single-sided	per class		2	Do: the teacher records part spoken, key words used, question with evidence and a B, D, S or E level for each student; strand 6 for tracker columns AC to AH	Lesson file: 1 per class. The design splits the 24 rows (six blocks of four) over two A4 landscape sheets. Fill in the student names in talk order before the lesson.	
Printing (paper copies)	Gallery walk sign (6e)	2	copies; 1 A4 portrait page, single-sided	per class		4	Gallery walk at break or a later session: one by the door and one by the posters, each with a pad of sticky notes and a pencil on a string		
Printing (paper copies)	Kit card: Ice Engineers Expo (half-A4, teacher copy, one card for Plan A and Plan B)	1	copy; A5, double-sided (side 1: kit, hazards and clean-up; side 2: teacher prep)	per class		2	Per-group, per-student and teacher kit, teacher prep (about 40 minutes), hazards and controls, clean-up	Marked 'Teacher copy'. No print count is stated; 1 teacher copy assumed.	
Printing (paper copies)	Skills report, Ice Engineers version (assessment/Rubric_and_Reporting.md, Section 5)	24	copies; 1 A4 portrait page, single-sided	per student		48	After the lesson: one-page bilingual report per student (strand levels, Week 1 and Week 10 skills check scores, Week 5 checkpoint, growth, award, teacher comment); final product 'Investigation poster and Expo talk 调查海报与成果展演讲'	Not used in the lesson itself: printed after marking and rubric levels (close-out step 4), filled in by hand or by mail merge from the tracker. One page per student (Teacher Guide Section 5).	
Card, laminating and stationery	Expo question cards (6c): 12 questions per A4 sheet, cut into 24 cards	1	set of 24 cards; 2 A4 sheets, single-sided, on card if possible	per class		2	Do: each student holds one card; after each talk the asking group reads a question aloud; Stretch a) copies it onto the worksheet	Print spec: 2 sheets per class (24 cards, one per student), on card if possible. If the 12-per-sheet layout were not readable, the fallback is 6 per sheet (4 sheets per class); the designed sheet uses 12. The requisition's 27 sheets of white card cover these 2 sheets and the 25 certificates. Cards are not written on and Section 7 stores them with the reusable kit, so one set could serve every class.	
Card, laminating and stationery	Certificates, Ice Engineers version (assessment/Rubric_and_Reporting.md, Section 4): Gold, Silver, Bronze, Participation and Most Improved Scientist, with the optional line 'Ice Engineers Expo 冰雪工程师成果展'	25	certificates; 1 A4 landscape page each, single-sided, on card if available (24 award certificates + 1 Most Improved Scientist)	per student		50	Survey and certificates phase, or a short ceremony within a week: one award certificate per student plus one Most Improved Scientist per class	Award levels need strand 6 (judged today) and Most Improved needs today's skills check marked, so the recommended option is to present them within a week (Section 7); mark tracker column AL when printed. If they must be given today, print only the awards already fixed from the Week 9 draft levels and hand-complete the rest after the lesson. If Most Improved is still tied after tie-break 1, both students receive it (one extra sheet). Plain A4 paper if no card.	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Card, laminating and stationery	Pencils for the gallery walk signs (tied on a string)	2	pencils	per class		4	One beside each gallery walk sign, for visitors' sticky notes	Counted in the requisition's 26 pencils. They stay by the signs, so do not take them from the student set.	
Card, laminating and stationery	String	2	lengths	per class		4	Tying a pencil beside each gallery walk sign	Length not stated.	
Card, laminating and stationery	Sticky notes	2	pads	per class		4	A pad beside each gallery walk sign, so visitors can leave one thing they learned and one question on a poster	Sticky notes are on the Before Week 1 buy list and in the Teacher Guide prep calendar (Week 9 row, for W10); use that stock if any is left.	
Card, laminating and stationery	Clipboard	1	clipboard	per class		2	Teacher: Expo run sheet and strand 6 talk record during the talks		
Card, laminating and stationery	Wall fixings for the posters (masking tape, adhesive putty or drawing pins)		not stated; fixings	per class			Putting the six A3 posters up on the wall or a display board before the lesson	Not on the kit card. Masking tape has been in stock since Week 2. Use whatever suits the wall or board.	
Equipment and materials	Storage box, labelled 'Ice Engineers', for reusable kit	1	box	per once		1	Series close-out: rig diagrams, sample data cards, question cards, voting cards and talk frames stored for next year	Separate from the class box used for logbooks. Label it before storing the kit.	
Equipment and materials	Guillotine or scissors (teacher)	1	guillotine or pair of scissors	per once		1	Cutting the question card sheets, survey sheets and peer feedback slip sheets before the lesson	Not on the kit card; needed for the 'Print and cut question cards' prep. Scissors have been in stock since Week 3.	
Equipment and materials	Camera or phone	1	device	per once		1	Photographing every poster and a few logbook pages for the programme summary	Use a school device and follow the school's rules for photographing student work.	
Already in the room (from an earlier week): check it is there									
Printing (paper copies)	Skills check mark scheme (assessment/Skills_Check_Y7.md, Section 2), teacher copy (optional)	1	copy; A4 portrait, page count not stated	per once		1	After the lesson: marking the 24 Week 10 skills checks (close-out step 1) Reuse: Same mark scheme as Week 1; reuse the Week 1 marking copy if kept	Page count not stated. Print a teacher copy only if the Week 1 copy was not kept; it can also be read on screen.	
Card, laminating and stationery	Talk frame card, 'Our 2-minute Expo talk' (6b), bilingual, folded A4	24	cards	per student		48	Do: each speaker follows the frame for their part; answer frames and tips on the back; for Band 1 the buddy reads the Chinese frame before Talk 1 Reuse: Printed in Week 9 (1 per student) and kept in the group folder; reuse	Must be the bilingual version printed in Week 9. Stored with the reusable kit in the labelled Ice Engineers box afterwards (Section 7).	
Card, laminating and stationery	Finished A3 investigation posters (one per group)	6	posters	per group		12	Do: each group presents at its poster; main evidence for strands 1 to 5; stays up for the gallery walk Reuse: Made by the groups in Week 9; collected flat in the group folders; reuse	Put up in talk order at a height students can point to, with space in front of each. Afterwards photographed and stored flat with the feedback slips on the back.	
Card, laminating and stationery	Group folders (planning frame and Week 8 results sheet)	6	folders	per group		12	On group tables: planning frame and Week 8 results sheet to help answer questions; talk frame cards kept here Reuse: Issued in Week 6; reuse	The requisition lists 6 group folders again for Week 10 (and for Weeks 6 to 9); they are the same folders, so no new order is needed.	
Card, laminating and stationery	Pencils	24	pencils	per student		48	Skills check, survey, Expo notes, feedback slip and exit ticket Reuse: Bought for Week 1 (1 per student); reuse	The requisition lists 26 pencils for Week 10 (24 students + 2 for the gallery walk signs), marked reusable; the 24 student pencils are the Week 1 set.	
Card, laminating and stationery	Glue sticks or tape for the feedback slips		not stated; glue sticks or rolls of tape	per group			Groups stick their peer feedback slips on the back of their poster Reuse: Week 9 glue sticks (2 per group); reuse	Not on the kit card; the clean-up line says the slips are stuck on the back of each poster.	
Card, laminating and stationery	Scientist's Logbook (A5 booklet)	24	booklets	per student		48	After the lesson: supports the teacher's judgement of strands 1 to 5 for each student; a few pages photographed for the programme summary; returned to students or filed at series close-out Reuse: Started in Week 1; kept in the class box	No logbook line is planned in this lesson's timeline.	
Card, laminating and stationery	Self-assessment slips completed in Week 9	24	slips	per student		48	After the lesson: compared with the final rubric levels (close-out step 3); a gap of two levels or more is worth a 1-minute conversation Reuse: Completed in Week 9; kept by the teacher		
Card, laminating and stationery	Week 1 skills check papers (filed, not returned) (optional)	24	papers	per student		48	After the lesson: may be returned or discussed with the Week 10 paper once marking and tracker entry are done (close-out step 5) Reuse: Sat in Week 1; filed in the class assessment folder	Only if the school wants papers returned, and never before the Week 10 papers are marked and entered.	
Card, laminating and stationery	Group role cards with duties, including the language buddy card (6 cards per set, laminated)	6	sets	per group		12	Band 1 students sit beside their language buddy, who reads them the Chinese frame for their part and the Chinese line of their question card before Talk 1 Reuse: Printed and laminated before Week 1 (language support pack); reuse	Not named in the Week 10 lesson file; the Band 1 support relies on the language buddy.	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Card, laminating and stationery	My Science Dictionary, Year 7 (A5 booklet)	24	booklets	per student		48	Key word meanings in English and Chinese during the talks and Expo notes Reuse: Given out in Week 1 (28 printed: 24 + 4 spares); reuse	Not named in the Week 10 lesson file. The Teacher Guide says the dictionary is open in every lesson but closed for the skills check, so give it out after the skills check papers are collected.	
Equipment and materials	Class box	1	box	per class		2	Logbooks and collected work in and out Reuse: Week 1 class box; reuse		

Year 8, Week 8: Lab day 检测日

To get, print or make

Printing (paper copies)	Worksheet: Core a) to e), Stretch, Challenge, My thinking, fold-under word bank and exit ticket strip	24	copies; 3 A4 pages: pages 1 and 2 double-sided, page 3 single-sided	per student		48	Individual record of the group's result: match sentence, suspects ruled in or out, repeats, anomaly, strength; exit ticket cut from the foot of page 3	One per student; no spares stated. The design is 3 A4 pages (pages 1 and 2 say 'turn over'): print pages 1 and 2 on one sheet and page 3 on its own sheet, because the exit ticket is cut from its foot. 24 x 2 = 48 sheets. Goes into the case file (rubric strand 3 and part of strand 4). Print only from the design rebuilt after the language pass (Teacher Guide prep calendar).	
Printing (paper copies)	Group recording sheets: Soil (6.2), Paper (6.3), Ink 2 (6.4), Powder 2 (6.5)	10	copies; 2 A4 pages each, double-sided; 1 per group for its own option plus 1 spare of each option	per group		20	The group's full results, recorded straight away by the Recorder; Paper and Ink 2 groups stick dry strips in the strip box on page 2	Lesson file: 1 per group doing the option plus 1 spare. With six groups, every option at least once and no more than two per option (Week 7 allocation rule), the split is always 2, 2, 1, 1, so 3, 3, 2 and 2 copies (10 sheets). If printing before the options are allocated, print 3 of each (12). Page 1 of each says 'turn over'. Goes into the case file (main rubric evidence for strand 3).	
Printing (paper copies)	Kit cards: Soil, Paper, Ink 2, Powder 2 (half-A4)	10	copies; A5, single-sided (or 2 per A4 sheet); 1 per group for its own option plus 1 of each option for the teacher's file	per group		20	Safety Officer reads the kit list and hazards aloud in the Do Now; group checks its tray; clean-up steps	Lesson file: print each card for every group doing that option, plus one for the teacher's file (6 + 4 = 10). The designed cards are marked 'Teacher copy 教师用', which does not suit the group copies. Cards are not written on, so they can serve later classes.	
Printing (paper copies)	Lab day run sheet (6.1), A4 landscape, teacher copy	1	copy; 1 A4 page, single-sided	per class		2	Teacher's clipboard: whole-lesson clock and the Do phase minute by minute for each option, with checkpoints at Do minutes 6, 12, 18 and 21	One copy can serve every class.	
Printing (paper copies)	Lab day run sheet (6.1), enlarged A3 copy for the wall	1	copy; 1 A3 page, single-sided	per room		1	On the wall so groups can follow the checkpoints	The requisition lists it as 1 A3 sheet ('A3 printing'). One copy can stay up for every class.	
Printing (paper copies)	Backup lab report cards (6.6): Soil, Paper, Ink 2, Powder 2 (4 A6 cards on one A4 sheet, cut lines)	1	sheet; 1 A4 page, single-sided, cut into 4 cards	per class		2	Teacher only: handed to a group only if its own test failed, as a second source	Kept in the teacher's folder. Attach the dried Ink 2 pre-test strips to the Ink 2 card (teacher note, not printed). An unused card can be kept for the next class; a card given to a group goes into its case file, so reprint it.	
Card, laminating and stationery	Sticky labels	39	labels	per class		78	Soil pots (5 per Soil group) and soil collection bags (5); Paper samples (5 per Paper group); Ink 2 cups Water, Salt water, Vinegar (6 per Ink 2 group); Powder 2 pots (5) and vinegar cup (1) per Powder 2 group	The requisition lists 49, which counts every option at 2 groups. A class of 6 groups splits 2, 2, 1, 1, so the most any class needs is 34 plus the 5 soil bags (39). The soil bag labels are needed once, not per class. Label text for X is only 'Mystery mixture X'.	
Card, laminating and stationery	Permanent markers	2	markers	per group		4	Soil: labelling bottles with sample and group number (bottles stay on the windowsill until Week 9)	1 per Soil group, up to 2 groups.	
Card, laminating and stationery	Plain white paper, A4	4	sheets	per group		8	Soil: looking at the colour of a pinch of each soil	2 sheets per Soil group, up to 2 groups.	
Equipment and materials	White coffee-filter strips, 2 cm by 10 cm	50	strips, plus spares (number not stated)	per class		100	Ink 2: 16 per group (32); note ink strips N, 6 per group plus 2 for the pre-test (14); teacher's pre-test strips for pens A and B in salt water and vinegar (4)	Cut from the coffee filters ordered before Week 1; check enough remain. The kit card adds 'plus spares' for both the strips and the N strips without a number.	
Equipment and materials	Clear plastic bottles or jars with screw lids, about 300 ml, all identical (no glass)	20	bottles	per group		40	Soil: settling bottles, 10 per group (5 samples, two pairs)	Up to 2 Soil groups. Bottles stay labelled on the windowsill until Week 9, so every class with Soil groups needs its own set. Collected from staff and students since before Week 1; plastic only.	
Equipment and materials	Timers (stopwatches)	5	timers	per group		10	Soil (settling times), Paper (60 s dips) and Ink 2 (7 minutes), 1 per group	The requisition lists 6. At least one group does Powder 2, which needs none, so at most 5.	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Equipment and materials	Small clear plastic cups	44	cups	per class		88	Paper 4 per group; Ink 2 6 per group (Water, Salt water, Vinegar, 2 each); Powder 2 10 water cups plus 1 vinegar cup per group; teacher's pre-test, one strip per cup (6)	The requisition lists 48 (every option at 2 groups plus 6). The most a class of 6 groups needs is 38 (2 Powder 2 groups, 2 Ink 2 groups, 1 Paper group) plus 6 for the pre-test earlier in the week; the pre-test cups can be rinsed and reused in the lesson. Cups bought for Weeks 3 to 5 can be used if washed.	
Equipment and materials	Stirring sticks	22	sticks	per group		44	Powder 2: 10 per group for the water test; Ink 2: 1 per group for salt water	Up to 2 Powder 2 and 2 Ink 2 groups (a split a class can have). Use any left from Week 4 first.	
Equipment and materials	Teaspoons	3	teaspoons	per class		6	Ink 2: 1 per group to make salt water (1 level teaspoon in 100 ml); teacher's measuring spoon for K1, K2, X and the pre-test salt water		
Equipment and materials	Tablespoons	10	tablespoons	per group		20	Soil: one per sample, 5 per group (1 level tablespoon of soil per bottle)	Up to 2 Soil groups. Also used by the teacher to fill the pots.	
Equipment and materials	Flat sticks for levelling spoonfuls	2	sticks	per group		4	Soil: levelling each tablespoon, 1 per group	Up to 2 Soil groups.	
Equipment and materials	Jugs for water	4	jugs	per group		8	Soil: about 1.6 litres of water per group; Paper: about 300 ml of coloured water per group	Up to 2 Soil and 2 Paper groups (a split a class can have).	
Equipment and materials	Measuring jugs or measuring cylinders, 150 ml or more	4	jugs or cylinders	per group		8	Soil: 150 ml water per bottle; Ink 2: measuring water for salt water	1 per Soil and Ink 2 group, up to 2 each.	
Equipment and materials	Small bottle for each Ink 2 group's white vinegar (about 60 ml)		not stated (1 per Ink 2 group would be up to 2); bottles	per group			Ink 2: vinegar for the two vinegar cups	The kit card says only 'fill the vinegar bottle'. The requisition assumes 1 per Ink 2 group (2).	
Equipment and materials	Scissors	4	pairs	per group		8	Paper: cutting 3 strips of each paper along the arrows, 2 per group	Up to 2 Paper groups. Counted back in at clean-up.	
Equipment and materials	Iodine solution in a dropper bottle (optional)	2	dropper bottles	per group		4	Powder 2: starch test, 1 drop, Safety Officer only	Optional (skip it if time is short and use the water test for starch). 1 per Powder 2 group, up to 2; returned to the teacher at clean-up. Use the Week 4 bottles if they were bought.	
Equipment and materials	Disposable gloves		not stated; gloves (shared box)	per class			Soil: for anyone with cuts or skin problems	The requisition lists 1 shared box.	
Equipment and materials	Cloths for wiping tables		not stated; cloths	per class			Wipe spills at once; wipe tables at clean-up (every option)	The requisition lists 6 (1 per group).	
Equipment and materials	Bucket	1	bucket	per class		2	Soil waste after Week 9: soil and water go onto a flowerbed or into a bucket, never down the sink		
Equipment and materials	Newspaper (optional)		not stated; sheets	per once			Drying very wet soil overnight before it goes into pots	Only if the soil is very wet. The requisition lists 4 sheets.	
Equipment and materials	Bags for collecting soil, labelled	5	bags	per once		5	About 2 cups from each of the four locations, plus a separate bag 'Evidence 6: soil from footprint tread'	Collected once; enough soil for several classes.	
Equipment and materials	Camera or tablet	1	device	per class		2	Photograph every group's results (bottles, strips, tiles) at Do minutes 18 to 21 for the Week 9 evidence board and Week 10 talks	Also photograph the soil bottles again before Week 9.	
Equipment and materials	Hand soap at the sink		not stated (room supply); dispenser	per room			Everyone washes hands with soap after soil; hands washed after Ink 2 and Powder 2		
Food and consumables	Water (tap or bottled)		not stated in total: about 1.6 litres per Soil group and about 300 ml per Paper group; Ink 2 (water and salt water cups) and Powder 2 (10 cups a third full) amounts not stated; litres	per class			Soil settling bottles (150 ml each); Paper coloured water; Ink 2 water solvent and salt water ('bottled or tap water' on the kit card); Powder 2 water test	Lab tap water is fine; the Ink 2 kit card allows bottled or tap water.	
Food and consumables	Paper towels (the lab's own, from the sink dispenser) for drying strips, spills and hands		not stated; sheets	per class			Every option's kit card lists paper towels; Paper and Ink 2 strips dry flat on them	The requisition lists 26 (3 per group assumed, plus 2 for P1).	
Food and consumables	Lab paper towels for reference P1 (the lab's own roll)	2	sheets	per group		4	Paper: reference P1, enough for 3 strips 2 cm by 12 cm, 1 sheet per group	Must be the same roll as Evidence 7. Counted inside the requisition's paper towel line.	
Food and consumables	Tissues	2	tissues	per group		4	Paper: reference P3, enough for 3 strips 2 cm by 12 cm per group	Up to 2 Paper groups.	
Food and consumables	Canteen napkins	2	napkins	per group		4	Paper: reference P2, 1 per group	Ask the canteen.	
Food and consumables	Food colouring	6	drops	per group		12	Paper: 1 drop per 100 ml in about 300 ml of water per group	Up to 2 Paper groups. Stains skin and clothes.	
Food and consumables	White vinegar	180	ml, plus a little for the pre-test	per class		360	Ink 2: about 60 ml per group (solvent); Powder 2: about 30 ml per group (fizz test); teacher's Ink 2 pre-test	Up to 2 Ink 2 and 2 Powder 2 groups (120 + 60). The pre-test amount is not stated.	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Food and consumables	Salt	7	level teaspoons	per class		14	Ink 2: salt water, 1 level teaspoon per 100 ml per group (2) and for the pre-test (1); Powder 2: 1 teaspoon each for K2 and X per group (4)	The Ink 2 figure assumes each group makes 100 ml of salt water; the kit card gives only the recipe.	
Food and consumables	Baking soda (小苏打)	12	level teaspoons	per group		24	Powder 2 per group: pure baking soda pot 2, K1 1, X 1, Evidence 3 scene powder 2	Up to 2 Powder 2 groups. Use any baking soda left from Week 4.	
Food and consumables	Cornflour	2	level teaspoons	per group		4	Powder 2: K1 (baking soda + cornflour), 1 per group	Allergy check (corn).	
Food and consumables	Plain flour (wheat)	2	level teaspoons	per group		4	Powder 2: K2 (salt + flour), 1 per group	Allergy check (wheat).	
Make beforehand	Pen pre-test strips: pens A and B and an N strip, each in salt water and in white vinegar (Case Bible Section 11)	6	strips	per once		6	Answer key for Ink 2 and the attachment for the Ink 2 backup lab report card	Made once, earlier in the week (kit card: about 30 minutes). Check that N and B give the same pattern in each solvent. The 2 N strips here are the 2 pre-test N strips in the line below.	
Make beforehand	Note ink strips N (pen B dotted 3 times on a pencil line 2 cm from the bottom, 'N' in pencil at the top)	14	strips, plus spares (number not stated)	per group		28	Ink 2: 6 per group (water, salt water and vinegar, both pairs); 2 for the teacher's pre-test	12 for up to 2 Ink 2 groups plus 2 for the pre-test. Kit card: 10 minutes per class with the filter strips.	
Make beforehand	Reference soils A to D (A flowerbed by the science block entrance, B sports field edge, C sandpit, D tree bed by the main gate)	8	cups collected (about 2 cups per location)	per once		8	Soil: about 4 level tablespoons in each labelled pot, 4 pots per Soil group	Remove stones bigger than a pea, glass, litter and anything sharp; do not collect where animals may have fouled. Collected once; refill the pots for each class.	
Make beforehand	Evidence 6: scene soil in a labelled pot (about 4 level tablespoons)	2	pots	per group		4	Soil: the scene sample, tested last and exactly like the references	1 per Soil group, up to 2. Must be taken from the same flowerbed as reference A, at the same time, and bagged separately as 'Evidence 6: soil from footprint tread'.	
Make beforehand	Paper reference sample sets P1 to P4 (P1 lab paper towel, P2 canteen napkin, P3 tissue, P4 kitchen roll), labelled, each enough for 3 strips 2 cm by 12 cm, pencil arrow along the roll	2	sets	per group		4	Paper: reference samples for layers, pattern and absorbency	1 set per Paper group, up to 2. Draw every arrow in the same direction. Optional: pre-cut the strips (add 10 minutes).	
Make beforehand	Evidence 7: scene paper towel (from the lab's own roll, pencil arrow, crumpled then smoothed flat)	2	sheets	per group		4	Paper: the scene sample; must look as if it came from the bin	1 per Paper group, up to 2. Same roll as P1. Each sheet is cut into strips, so it is used up; make new ones for every class. The Week 7 sealed Evidence 7 bags may serve if they come from the same roll and get the pencil arrow.	
Make beforehand	Coloured water (1 drop of food colouring per 100 ml) in a jug	600	ml	per group		1200	Paper: absorbency strips, about 300 ml per group	Up to 2 Paper groups.	
Make beforehand	Powder 2 reference pots, about 2 teaspoons each: Baking soda (pure); K1 baking soda + cornflour; K2 salt + flour; X baking soda + salt, labelled only 'Mystery mixture X'	2	sets of 4 pots	per group		4	Powder 2: known samples to compare with the scene powder	1 set per Powder 2 group, up to 2. Made the day before with equal level teaspoons of each powder, shaken well in a lidded pot. You must see salt cubes in X under the magnifier. The requisition lists K1, K2 and X as sets of 3; the pure baking soda pot is covered by its baking soda and pot lines.	
Make beforehand	Evidence 3: scene powder (baking soda) in a labelled pot (about 2 teaspoons)	2	pots	per group		4	Powder 2: the scene sample	1 per Powder 2 group, up to 2. Check under the magnifier that it shows no salt cubes. An unopened Week 7 Evidence 3 bag (baking soda) can be tipped into the pot.	
Already in the room (from an earlier week): check it is there									
Card, laminating and stationery	Clear sticky tape	4	rolls	per group		8	Paper groups tape strips to pencils (1 roll per group); Ink 2 groups hang strips; dry strips stuck onto the recording sheets Reuse: Bought for Week 2 (6 rolls) and reused in Weeks 3 and 4; reuse	Paper: 1 roll per group (up to 2). Ink 2 kit card says 'sticky tape' without a number; 1 roll per group assumed (up to 2). The requisition lists 4 rolls; the Week 2 rolls cover it if enough tape is left, so no new order unless stock is low.	
Card, laminating and stationery	Pencils for hanging strips	20	pencils	per group		40	Paper: 4 per group to hang strips; Ink 2: 6 per group to hang strips Reuse: Bought for Week 3 (30 pencils, 5 per group, for baselines and hanging strips); reuse	Up to 2 Paper groups (8) and 2 Ink 2 groups (12), a split a class can have. These are extra to the students' writing pencils. The requisition lists 20; the Week 3 pencils cover it, so no new order.	
Card, laminating and stationery	Black card	2	pieces	per group		4	Powder 2: background for looking at the five samples under the magnifier Reuse: Bought for Week 4 (6 pieces); reuse	1 per Powder 2 group, up to 2 groups. The requisition lists 2 again; the Week 4 pieces cover it, so no new order.	
Card, laminating and stationery	Case files (A4 folder per student, with the evidence log and suspect tracker)	24	case files	per student		48	Evidence log row 8 (and other groups' results under the table); suspect tracker for Core e); recording sheet and worksheet filed here Reuse: Made before Week 1; kept in the class box		

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Card, laminating and stationery	Week 7 plan sheets, returned with the teacher's comments	24	plan sheets	per student		48	Groups follow their own plan; Lead Scientist circles the repeat number in the Hook; Core a) copies the question; the kit request on the back tells the teacher what each tray needs Reuse: Completed in Week 7; returned in the Do Now	Read and commented on after the Week 7 lesson; groups fix anything marked before starting.	
Card, laminating and stationery	Week 7 option cards (Soil, Paper, Ink 2, Powder 2; paired picture method steps)	6	cards	per group		12	Stays on the table beside the plan sheet as the bilingual step-by-step method, especially for Band 1 students Reuse: Printed (laminated if possible) for Week 7; reuse	1 per group for its own option.	
Card, laminating and stationery	Group role cards with duties, including the language buddy card (6 cards per set, laminated)	6	sets	per group		12	Roles confirmed in the Do Now: Safety Officer reads the kit card, Recorder keeps the group sheet, Measurer, Lead Scientist, Reporter; buddy and Band 1 student in the same pair Reuse: Printed and laminated before Week 1 (language support pack); reuse	Roles rotate weekly.	
Card, laminating and stationery	Scientist's Logbook (A5 booklet)	24	booklets	per student		48	One line under 'What I found' if time allows (otherwise evidence log row 8 counts) Reuse: Started in Week 1; kept in the class box		
Card, laminating and stationery	My Science Dictionary, Year 8 (A5 booklet)	24	booklets	per student		48	Key word meanings in English and Chinese Reuse: Given out in Week 1 (24 + 4 spares); reuse	Not named in the Week 8 lesson file; the Teacher Guide says the dictionary is open in every lesson.	
Card, laminating and stationery	Pencils for writing	24	pencils	per student		48	Recording sheet, worksheet, evidence log and exit ticket Reuse: Bought for Week 1 (1 per student); reuse		
Equipment and materials	Black washable felt-tip pens A to D (masking tape labels)	2	sets (pens A and B essential, C and D if available)	per group		4	Ink 2: reference pens dotted on strips beside the note ink strips N; teacher's pre-test and N strips Reuse: Bought and pre-tested before Week 1; used in Week 3	1 set per Ink 2 group, up to 2 groups. The requisition lists 8 pens, but these are the pens bought before Week 1 (two of each brand), so no new order. If only those 8 exist, two Ink 2 groups use both sets and no spare is left: check every pen still writes. Pen B goes on a student table only as a labelled reference pen (Case Bible Section 11).	
Equipment and materials	Small lidded pots	23	pots	per class		46	Soil: 5 per group (A to D, Evidence 6); Powder 2: 5 per group (Baking soda, K1, K2, X, Evidence 3); 3 for the teacher to mix K1, K2 and X Reuse: Bought for Week 4 (30 pots); reuse	Up to 2 Soil and 2 Powder 2 groups (a split a class can have) plus 3. The requisition lists 23 again; the Week 4 pots cover it if washed and kept, so no new order.	
Equipment and materials	Safety goggles	20	pairs	per group		40	4 per group for Soil (shaking bottles), Ink 2 (vinegar) and Powder 2 (vinegar, iodine); not needed for Paper Reuse: Class set of 24 used in Weeks 4 and 5; reuse	The requisition lists 24, which counts every option at 2 groups. At least one group does Paper, so at most 5 groups need goggles (20). The class set covers it.	
Equipment and materials	Magnifying glasses	5	magnifiers	per group		10	Soil (bits in the soil), Paper (pressed pattern) and Powder 2 (crystals), 1 per group; teacher checks X and the scene powder the day before Reuse: Used in Weeks 2 (12) and 4 (6); reuse	The requisition lists 6. At least one group does Ink 2, which needs none, so at most 5 groups need one.	
Equipment and materials	Rulers, 30 cm	7	rulers	per group		14	Soil 1 per group (layer heights), Paper 2 per group (strip heights), Ink 2 1 per group (band spread) Reuse: Used in Weeks 3 (6) and 6 (12); reuse	The requisition lists 8 (every option at 2 groups). The most any 2, 2, 1, 1 split needs is 7 (2 Paper groups, 2 Soil or Ink 2 groups, 1 of the other).	
Equipment and materials	Trays	8	trays	per group		16	1 kit tray per group, on the tables before students arrive; plus a tray to stand bottles in for each Soil group (up to 2) Reuse: 6 used every week since Week 1; reuse (2 more needed for the Soil bottles)	The kit card lists 'tray to stand bottles in' for Soil; a separate tray lets the bottles go to the windowsill until Week 9. Only the 2 extra trays may need finding.	
Equipment and materials	Spotting tiles, 12 wells (or white plastic lids)	4	tiles	per group		8	Powder 2: vinegar and iodine tests, 2 per group Reuse: Used in Week 4 (6); reuse	Up to 2 Powder 2 groups. The Week 4 tiles cover it, so no new order.	
Equipment and materials	Droppers (plastic pipettes)	2	droppers	per group		4	Powder 2: 5 drops of vinegar per well, 1 per group Reuse: Used in Weeks 4 and 5; reuse	Up to 2 Powder 2 groups.	
Equipment and materials	Small spoons or lolly sticks	10	spoons	per group		20	Powder 2: one clean spoon per sample, 5 per group Reuse: Used in Week 4 (36); reuse	Up to 2 Powder 2 groups. A dirty spoon is the most likely cause of contamination: wash and dry them well.	
Equipment and materials	Class box	1	box	per class		2	Case files and logbooks out at the start and back at the end Reuse: Week 1 class storage box; reuse		
Food and consumables	Kitchen roll (shop-bought)	2	sheets	per group		4	Paper: reference P4, 1 sheet per group Reuse: Kitchen roll ordered before Week 1; use the existing roll	Up to 2 Paper groups. The requisition lists 2 sheets; take them from the existing roll, so no new order.	

Teaching week 6 of 6

Year 7: no programme lesson (series ended at Week 10) | Year 8: Week 9 Build the case

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Year 7: no Ice Engineers lesson this week (the series ended with the Expo in Week 10)									
Year 8, Week 9: Build the case 构建证据链									
To get, print or make									
Printing (paper copies)	Worksheet: Build the case (Core a ranking table on page 1; Core b to d and Stretch a on page 2; Stretch b and Challenge on page 3; My thinking, fold-under word bank and exit ticket strip on page 4)	24	copies; 4 A4 pages, double-sided	per student		48	Ranking table, cleaning log sentence, re-count and each student's own CER conclusion with a confidence level; exit ticket at the foot of page 4	Kit card: 4 per group (24); no spares stated. Lesson file Section 3 says two sides, but the designed worksheet is 4 A4 pages (pages 1 to 3 say 'turn over'), so 24 x 2 = 48 sheets. The exit ticket strip sits below a cut line at the foot of page 4, so cutting it off a double-sided copy also cuts the foot of page 3 (Challenge c). Worksheets go into the case file. Print only from the design rebuilt after the language pass.	
Printing (paper copies)	Evidence board, A3 landscape (STRONG, SUPPORTING and WEAK columns, COMBINATION strip, empty right margin for the SET ASIDE label)	6	copies; A3 landscape, single-sided	per group		12	Each group places its evidence cards by strength, then moves card 4 to the margin after the twist; main rubric evidence (photographed) and filed in the case file	Requisition 'A3 printing' (13 sheets) covers these 6, the teacher's model and 6 A3 statement frames. A new board is needed for every class.	
Printing (paper copies)	Evidence board, enlarged teacher's model	1	copy; enlarged (size not stated), single-sided	per class		2	Teacher's model board for showing how cards are placed	Print spec says '1 enlarged for the teacher's model' but gives no size. The requisition counts it as a 7th A3 sheet and notes it may need a larger sheet: A3 is the board's own size, so 'enlarged' suggests A2 or A1 (poster printer). No card pack is listed for the model.	
Printing (paper copies)	Cleaning log card (the twist): NEW EVIDENCE stamp, Snowfield School Cleaning Log entry, 概要 gist line, cut-off strip 'SET ASIDE: contaminated evidence'	6	copies; A5 portrait, single-sided	per group		12	Handed to each group at minute 7 of the Do phase so groups find that the puddle was mop water and set Evidence 4 aside	Keep hidden in the envelope until minute 7 of the Do phase, after every group has a first board; never show it before Week 9 (Case Bible Section 14). Can be printed 2 per A4 sheet and cut (3 A4 sheets). Paper or card is not stated. The SET ASIDE strip is below a cut line: decide whether to cut it off beforehand or let groups cut it (no scissors on the kit card).	
Printing (paper copies)	Expert witness statement frame, A3 portrait (tick box for the group's evidence, four speaker boxes, jury question practice box)	6	copies; A3 portrait, single-sided	per group		12	Each student writes one of the four parts of the group's 2-minute Court of Science statement; returned to groups in the case file for Week 10	Print spec: 1 A3 per group, or 1 A4 per student (see the A4 row); print one option, not both. Kit card says 1 (A3) or 4 (A4) per group. Week 10 has no rehearsal time, so students finish their part today.	
Printing (paper copies)	Expert witness statement frame, A4 alternative (optional)	24	copies; A4 portrait, single-sided	per student		48	Alternative to the A3 frame: one copy per student	Only if you choose A4 instead of the 6 A3 frames. The design is A3; check it stays readable when scaled to A4.	
Printing (paper copies)	Self-assessment slip 'How am I doing?' (six strands, four tick boxes each, two writing prompts; Rubric_and_Reporting.md Section 7)	24	slips; A5 portrait, 2 per A4 landscape sheet, single-sided, cut on the dashed line	per student		48	Students rate themselves (about 4 minutes in Think and Reflect) before the teacher drafts rubric levels	Print spec: 12 A4 sheets for 24 students; no spares stated. The design is in the Rubric and Reporting printables (Self-assessment slips, 2 x A5 per A4; one version for all years), not in this lesson's printables. Teacher Guide prep calendar says print in Week 8.	
Printing (paper copies)	Expert witness role badges (Fingerprint, Ink, Powder, Liquid, Footprint, Soil and paper)	1	sheet; A4 portrait, single-sided, cut into 6 badges (about 9 cm by 6 cm)	per class		2	Given out with each group's expert role in Week 9 and worn at the Court of Science in Week 10	Print spec: 1 sheet per class (1 badge per group), but the Week 10 kit card lists 4 badges per group 'from Week 9' (24 badges, 4 sheets). Paper or card is not stated, and nothing says how badges are worn. Keep in the class box for Week 10.	
Printing (paper copies)	Kit card: Week 9 (teacher copy)	1	copy; A5 (half-A4), single-sided	per class		2	Per-group kit list, teacher prep, hazards and clean-up		
Printing (paper copies)	Concept cartoon: Who thinks like a scientist? (tunnel vision) (optional)	1	copy; A4 landscape, single-sided	per room		1	Display copy for the tunnel vision discussion	Optional print; the same content is on slide 11. One display copy serves every class taught in the room.	
Printing (paper copies)	Photo print: this class's Week 5 Ideas Parking Board (optional)	1	print; size not stated	per class		2	Hook: students find their own sticky note; Think and Reflect: sort the parked ideas	Teacher Guide prep calendar (Week 8) says print it; the kit card puts the photo on slide 4, so the print is optional, especially if the board is still up. Each class has its own board photo.	

Group	Item	Qty (one class)	Unit or how to print	Per	Plan	Total for your classes	What it is for	Check	Got it
Card, laminating and stationery	Evidence card pack: 9 cards per sheet (Evidence 1 to 7, T sign-in sheet and alibis, ? blank 'Our extra evidence')	6	sets; 1 A4 sheet each, single-sided, cut into 9 cards (about 6.5 cm by 9 cm)	per group		12	Groups write who each clue matches and its strength, then place the cards on the A3 board	Print spec: 1 sheet per group, on card if possible (requisition: 6 sheets of A4 white card). No strengths or matches are printed. Students write on the cards and fix them to the board, so a new set is needed for every class. How to keep each group's 9 cards together (clip or envelope) is not stated.	
Card, laminating and stationery	Blu Tack or glue sticks	6	packs or sticks	per group		12	Fix the evidence cards and the SET ASIDE strip to the A3 board	Card 4 must move off the board after the twist, so Blu Tack (or glue only after the re-count) works better than gluing at once; glued cards stay put when boards go into the case files.	
Card, laminating and stationery	Envelope	1	envelope	per class		2	Keeps the 6 cleaning log cards out of sight until minute 7 of the Do phase		
Equipment and materials	Camera or phone	1	device	per class		2	Photograph every evidence board (rubric evidence for strands 4 and 5; Week 10 final case file checklist item 11)	Use a school device and follow school rules on photographs.	
Already in the room (from an earlier week): check it is there									
Card, laminating and stationery	Case files with evidence logs (suspect tracker, scene map, sign-in sheet; A4 folder per student)	24	case files	per student		48	Do Now tick count; scene map and sign-in sheet checked after the cleaning log; evidence log row 9; boards, worksheets and statement frames filed inside Reuse: Made before Week 1; kept in the class box	Collect every case file at the end of this lesson: the teacher keeps them to draft rubric levels before Week 10.	
Card, laminating and stationery	Pencils	24	pencils	per student		48	Worksheet, evidence cards, board and statement frame Reuse: Week 1 class pencils (1 per student); reuse	Not named on the Week 9 kit card (the Week 1 and Week 10 kit cards list 1 pencil per student).	
Card, laminating and stationery	Group role cards with duties, including the language buddy card (6 cards per set, laminated)	6	sets	per group		12	Lead Scientist places cards, Recorder writes matches, Reporter checks with the evidence log (slide 7); Band 1 students sit with their language buddy Reuse: Printed and laminated with the language support pack before Week 1; reuse		
Card, laminating and stationery	Sentence frame card sets, Year 8 (A6 cards)	6	sets	per group		12	Week 9 frames ('One problem with this evidence is ___', confidence frames) for board talk and the CER Reuse: Printed with the language support pack before Week 1; reuse	Not named in the Week 9 lesson file; the language support pack gives 6 card sets per class, including the Week 9 frames.	
Card, laminating and stationery	My Science Dictionary, Year 8 (A5 booklet)	24	booklets	per student		48	Key words (strong, supporting and weak evidence, contamination, tunnel vision, confidence) Reuse: Given out in Week 1 (24 + 4 spares); reuse	Not named in the Week 9 lesson file; the Teacher Guide says the dictionary is open in every lesson.	
Equipment and materials	Class box	1	box	per class		2	Case files stay with the teacher; badges kept for Week 10 Reuse: Week 1 class storage box; reuse		
Equipment and materials	Week 5 Ideas Parking Board with its sticky notes (if still up) (optional)	1	board	per class		2	Hook (find your own note) and the tunnel vision sort: checked and supported, checked and not supported, cannot check yet Reuse: Made in Week 5; keep up or keep the notes	Kit card: the photo goes on slide 4, 'and the board itself if it is still up'.	
Equipment and materials	Photos of Week 8 results (each group's bottles, strips or tiles)		not stated; photos	per class			Groups use last week's results when matching Evidence 6 and 7 and the Ink 2 and Powder 2 clues Reuse: Taken by the teacher in Week 8 (minutes 18 to 21 of the Do)	Kit card lists them per class, but does not say how many or whether they are printed or shown on screen.	
Equipment and materials	Week 8 Reporter round board notes (each group's result under the four option headings)	1	set of notes (photo or copy)	per class		2	Every group needs the other groups' Week 8 results for its board Reuse: Written on the board in Week 8 (students also copied them under evidence log row 8); keep a photo or copy	If the board was wiped without a photo, use the results students copied into their evidence logs or the Week 8 recording sheets.	
Equipment and materials	Soil settling bottles from Week 8 (Soil groups), sealed on the windowsill		not stated for Week 9 (Week 8: 10 bottles per Soil group, no more than 2 Soil groups); bottles	per class			Soil groups look at their settled layers again: look only, do not open Reuse: Made by Soil groups in Week 8; already on the windowsill	No new items. Week 8 says pour the contents onto a flowerbed or into a bucket afterwards, never down the sink.	

Equipment, food and consumables to source (items not already in the room)

In the order they are first needed. Quantities are per lesson; the same item can appear in several weeks if it is used up. Filter by Group to see food only.

Needed in teaching week	Year	Lesson week	Group	Item	Qty (one class)	Unit	Plan	Total for your classes	On the requisition?	Check	Got it
1	Year 7	6	Equipment and materials	Scissors and a ruler (teacher prep)		not stated; tools			No: tool	Not listed in the file, but the kit card prep needs them. Prep-room stock is likely enough.	
1	Year 7	6	Equipment and materials	Plastic cups (Plan A)	30	cups	Plan A	60	Yes	The file does not say whether the hand-out cup is a fifth cup or one of cups A to D; if it is cup A, 24 are enough. Cups are stacked at clean-up and reused for later classes.	
1	Year 7	6	Equipment and materials	Plastic cups, identical, about 250 ml (Plan B)	25	cups	Plan B	50	Yes	Cups must be identical. Once marked, they are reused for later classes.	
1	Year 7	6	Equipment and materials	Trays	6	trays		12	Yes	Reused as group trays in Weeks 7 and 8.	
1	Year 7	6	Equipment and materials	Elastic bands (Plan A)	30	bands	Plan A	60	Yes, see note	The requisition row (36, tagged both) is the Plan B count; Plan A needs 30.	
1	Year 7	6	Equipment and materials	Elastic bands (Plan B)	36	bands	Plan B	72	Yes		
1	Year 7	6	Equipment and materials	Aluminium foil, 15 x 15 cm squares (Plan A)	3	squares	Plan A	6	Yes, see note	The requisition row (6 pieces, tagged both) is the Plan B count. Cut from the roll on the programme order; dry foil can be reused.	
1	Year 7	6	Equipment and materials	Newspaper, 15 x 15 cm squares (Plan A)	6	squares	Plan A	12	Yes, see note	The requisition row (12 pieces, tagged both) is the Plan B count. Collected, not bought; wet newspaper goes in the bin.	
1	Year 7	6	Equipment and materials	Cotton wool sheet, 15 x 15 cm squares (Plan A)	3	squares	Plan A	6	Yes, see note	The requisition row (6 pieces, tagged both) is the Plan B count. Wet cotton wool goes in the bin.	
1	Year 7	6	Equipment and materials	Fabric scraps, 15 x 15 cm squares (Plan A)	3	squares	Plan A	6	Yes, see note	The requisition row (6 pieces, tagged both) is the Plan B count. Collected from staff and students; the Plan A clean-up puts wet materials in the bin.	
1	Year 7	6	Equipment and materials	Bubble wrap, 15 x 15 cm squares (Plan A)	3	squares	Plan A	6	Yes, see note	The requisition row (6 pieces, tagged both) is the Plan B count. Dry bubble wrap can be reused (Week 8 box wraps if cool boxes are short).	
1	Year 7	6	Equipment and materials	Aluminium foil, jackets and lid squares (Plan B)	6	pieces: 3 jackets 25 x 10 cm + 3 lid squares 10 x 10 cm with a 1 cm slit	Plan B	12	Yes	Dried for reuse.	
1	Year 7	6	Equipment and materials	Newspaper, jackets and lid squares (Plan B)	12	pieces: 6 jackets 25 x 10 cm + 6 lid squares 10 x 10 cm with a 1 cm slit	Plan B	24	Yes	Collected, not bought; wet newspaper goes in the bin.	
1	Year 7	6	Equipment and materials	Cotton wool sheet, jackets and lid squares (Plan B)	6	pieces: 3 jackets 25 x 10 cm + 3 lid squares 10 x 10 cm with a 1 cm slit	Plan B	12	Yes	Wet cotton wool goes in the bin.	
1	Year 7	6	Equipment and materials	Fabric scraps, jackets and lid squares (Plan B)	6	pieces: 3 jackets 25 x 10 cm + 3 lid squares 10 x 10 cm with a 1 cm slit	Plan B	12	Yes	Dried for reuse.	
1	Year 7	6	Equipment and materials	Bubble wrap, jackets and lid squares (Plan B)	6	pieces: 3 jackets 25 x 10 cm + 3 lid squares 10 x 10 cm with a 1 cm slit	Plan B	12	Yes	Dried for reuse.	
1	Year 7	6	Equipment and materials	Measuring cylinders, 25 ml (or 10 ml) (Plan A)	6	cylinders	Plan A	12	Yes, see note	The requisition tags this row 'both'; it is Plan A only. Expected meltwater is 2 to 10 ml, so 10 ml cylinders read more precisely. The Teacher Guide (Week 5 row) allows a kitchen scale instead, but the worksheet records ml. Week 7 (Plan A) needs 12.	
1	Year 7	6	Equipment and materials	Measuring cylinder for marking the 150 ml line (Plan B)	1	cylinder	Plan B	1	Yes	Size not stated in the file; the requisition says 100 ml or larger. A 250 ml cylinder measures 150 ml in one fill.	
1	Year 7	6	Equipment and materials	Thermometers, spirit-filled (red) or digital (Plan B)	7	thermometers	Plan B	14	Yes	Never mercury. If short, the Teacher Guide allows one per two groups or a teacher-read class set of readings.	
1	Year 7	6	Equipment and materials	Ice-cube trays, same type (Plan A)	2	trays	Plan A	2	Yes	Two more trays and more freezer space for each extra class taught on the same day.	
1	Year 7	6	Equipment and materials	Cool box, insulated with lid (Plan A)	1	box	Plan A	1	Yes	Week 8 (Plan A) needs 6 cool boxes.	
1	Year 7	6	Equipment and materials	Freezer space (Plan A)	1	drawer	Plan A	1	Yes		
1	Year 7	6	Equipment and materials	Jugs: one of at least 2 litres + a second jug or flask (Plan B)	2	jugs	Plan B	4	Yes, see note	The requisition tags this row 'both'; it is Plan B only. About 3.6 litres are needed, so refill or use both. The Week 5 trial jug can be one of them.	
1	Year 7	6	Equipment and materials	Kettle (Plan B)	1	kettle	Plan B	1	Yes	Students never handle the kettle.	

Needed in teaching week	Year	Lesson week	Group	Item	Qty (one class)	Unit	Plan	Total for your classes	On the requisition?	Check	Got it
1	Year 7	6	Equipment and materials	Mop and bucket, or a roll of paper towels	1	set		1	Yes		
1	Year 7	6	Food and consumables	Paper towels (kitchen roll)	36	sheets		72	Yes	Plus a whole roll per class if there is no mop.	
1	Year 7	6	Food and consumables	Disposable gloves (Plan A)	12	pairs	Plan A	24	Yes		
1	Year 7	6	Food and consumables	Zip-lock sandwich bags, small (Plan A)	28	bags	Plan A	56	Yes, see note	The requisition tags this row 'both'; it is Plan A only.	
1	Year 7	6	Food and consumables	Ice cubes (Plan A)	28	cubes	Plan A	56	Yes	From the same tray type, filled to the same level, so the test is fair. The Teacher Guide (Sections 7 and 8) says about 24; the kit card's 28 takes priority.	
1	Year 7	6	Food and consumables	Warm water, about 50 °C (Plan B)	3.6	litres	Plan B	7.2	Yes	Never above 55 °C; mixed from kettle water and cold tap water during the Do Now.	
1	Year 8	4	Equipment and materials	Safety goggles	24	pairs		48	Yes	Kit card: 4 per group. The teacher controlling the iodine or modelling a powder also needs a pair (not stated).	
1	Year 8	4	Equipment and materials	Small clear plastic cups	42	cups		84	Yes	Cup size not stated. Rinse and reuse between classes. The 30 Week 3 cups can serve, so 12 more are needed.	
1	Year 8	4	Equipment and materials	Spotting tiles, 12 wells	6	tiles		12	Yes	Alternative on the kit card: 12 white plastic bottle lids per group (72 per class).	
1	Year 8	4	Equipment and materials	Droppers (plastic pipettes)	6	droppers		12	Yes		
1	Year 8	4	Equipment and materials	Iodine solution in dropper bottles (optional) (optional)	6	dropper bottles		12	Yes	Strength not stated; use the prep room's dilute iodine solution. Teacher-controlled, droppers only, one drop. If iodine is not used, show Slide 10 and use the water test to spot the starches. Decide the week before.	
1	Year 8	4	Equipment and materials	Small spoons or lolly sticks	36	spoons or sticks		72	Yes	Washed spoons can be reused between classes; lolly sticks are single use, so 36 per class.	
1	Year 8	4	Equipment and materials	Stirring sticks	36	sticks		72	Yes		
1	Year 8	4	Equipment and materials	Small lidded pots	30	pots		60	Yes	The kit card says 'labelled pots'; lids are not stated but stop spills and dust between classes. The Case Bible allows a lidded pot instead of a zip bag for the scene powder (6 more).	
1	Year 8	4	Equipment and materials	Small zip bags (evidence bags)	6	bags		12	Yes		
1	Year 8	4	Equipment and materials	Teaspoon (teacher's measuring spoon)		not stated (the requisition lists 1); teaspoon			Yes	Amounts are given in teaspoons but no teaspoon is named as kit.	
1	Year 8	4	Equipment and materials	Teacher demonstration set (Hook evidence bag; Learn: model one powder) (optional)		not stated (the kit card lists group kit only); set			No: add	Either use one group's tray before handing it out, or make a seventh set: a powder pot, an Evidence 3 bag, a water cup, tile, vinegar cup with dropper, magnifier and black card, and goggles for the teacher.	
1	Year 8	4	Food and consumables	Salt	12	teaspoons		24	Yes		
1	Year 8	4	Food and consumables	Sugar (white)	12	teaspoons		24	Yes		
1	Year 8	4	Food and consumables	Baking soda (小苏打)	30	teaspoons		60	Yes	Must fizz strongly with vinegar: test one portion before the lesson.	
1	Year 8	4	Food and consumables	Cornflour	12	teaspoons		24	Yes	Allergy check (corn) before the lesson.	
1	Year 8	4	Food and consumables	Plain flour (wheat)	12	teaspoons		24	Yes	Allergy check (wheat) before the lesson.	
1	Year 8	4	Food and consumables	White vinegar	180	ml		360	Yes		
1	Year 8	4	Food and consumables	Paper towels (the lab's own, from the sink dispenser)		not stated (the requisition assumes 3 per group, 18 sheets); sheets			Yes, see note	The kit card says 'Paper towels' with no number.	
1	Year 8	4	Food and consumables	Tap water for the water cups		not stated (36 small cups a third full); cups' worth			No: may already exist	From the lab tap. No jug for filling the cups is named.	
2	Year 7	7	Equipment and materials	Measuring cylinder, 25 ml (or a 20 ml syringe without a needle)	12	cylinders	Plan A	24	Yes	Week 6 (Plan A) used 6 and the Week 5 strip trial 1, so about 5 more are needed, or use 20 ml syringes without needles.	
2	Year 7	7	Equipment and materials	Small mixing cups	18	cups	Plan A	36	Yes, see note	Rinsed at clean-up. The requisition line 'Plastic cups 24' covers these 18 and the 6 water cups; the 30 plastic cups from Week 6 could be rinsed and reused.	
2	Year 7	7	Equipment and materials	Cup for water, about 200 ml	6	cups	Plan A	12	Yes, see note	Part of the requisition line 'Plastic cups 24'.	
2	Year 7	7	Equipment and materials	Teaspoons	18	teaspoons		36	Yes	Rinsed at clean-up.	

Needed in teaching week	Year	Lesson week	Group	Item	Qty (one class)	Unit	Plan	Total for your classes	On the requisition?	Check	Got it
2	Year 7	7	Equipment and materials	Freezer drawer (space for 54 thin strips on trays)	1	drawer	Plan A	2	Yes	The Teacher Guide Week 6 row says about 36 samples; the kit card's 54 is used. Each class needs its own space.	
2	Year 7	7	Equipment and materials	Dry shelf (room for two shallow trays for one week)	1	shelf	Plan B	2	Yes	Each class needs its own space until Week 8.	
2	Year 7	7	Equipment and materials	Large mixing bowl and a cup measure (for the salt dough)		not stated (a bowl and a cup measure are implied by the recipe); sets	Plan B		No: tool	Not on the kit card; may come from the canteen if it makes the dough.	
2	Year 7	7	Food and consumables	Untreated natural wood sawdust (or pet-bedding wood shavings)		not stated: depends on the approved plans; g			Yes, see note	Never MDF dust. The requisition buys 30 g as an upper limit (18 x 0.9 g and 18 x 0.6 g in 9 g and 6 g batches, plus spare). Buy in Week 6.	
2	Year 7	7	Food and consumables	Paper tissues		not stated: depends on the approved plans; g			Yes, see note	The requisition has 12 g (up to 18 portions).	
2	Year 7	7	Food and consumables	Shredded paper, finely shredded		not stated: depends on the approved plans; g			Yes, see note	The requisition has 12 g (up to 18 portions); collect from an office shredder.	
2	Year 7	7	Food and consumables	Cotton wool		not stated: depends on the approved plans; g			Yes, see note	The requisition has 12 g (up to 18 portions).	
2	Year 7	7	Food and consumables	Aluminium kitchen foil	60	pieces about 20 cm x 10 cm (about 1.2 square metres in all)		120	Yes	The strip trial troughs are on the Week 5 list, not here.	
2	Year 7	7	Food and consumables	Small paper cups (or paper twists) for fibre portions	36	cups		72	Yes	Paper twists of scrap paper also work.	
2	Year 7	7	Food and consumables	Zip-lock bags, small, for dough balls	54	bags	Plan B	108	Yes, see note	The requisition line of 58 bags covers these 54 and 4 spare-fibre bags. Spare dough balls need more bags (number not stated).	
2	Year 7	7	Food and consumables	Sealable bags for spare fibre		not stated (the kit card says 'labelled bags'; one per fibre type would be 4); bags			Yes, see note	Part of the requisition's 58 zip-lock bags, which allows 4 (one per fibre type).	
2	Year 7	7	Food and consumables	Paper towels (kitchen roll)	24	sheets		48	Yes		
2	Year 7	7	Food and consumables	Plain flour	500	g	Plan B	1000	Yes	The Week 5 trial dough is on the Week 5 list, not here. Check the allergy list before anyone handles flour.	
2	Year 7	7	Food and consumables	Salt	580	g	Plan B	1160	Yes		
2	Year 7	7	Food and consumables	Damp cloth for wiping tables	1	cloth	Plan B	2	Yes		
2	Year 8	5	Equipment and materials	Safety goggles	24	pairs		48	Yes	Goggles for the teacher during the Hook demo are not listed.	
2	Year 8	5	Equipment and materials	Small clear plastic cups	74	cups (per group 6 indicator, 5 reference, 1 scene liquid = 72; plus 2 indicator cups for the Hook demo)		148	Yes	Rinse and reuse for later classes, or recycle (kit card).	
2	Year 8	5	Equipment and materials	Cups of rinse water (only if using 2 droppers per group) (optional)	6	cups		12	Yes, see note	The requisition's cup note says add 6 rinse-water cups if using 2 droppers per group; they are not in its 74.	
2	Year 8	5	Equipment and materials	Droppers (plastic pipettes)	36	droppers		72	Yes	Kit card alternative: 2 per group (12) plus a cup of rinse water.	
2	Year 8	5	Equipment and materials	Trays	6	trays		12	Yes		
2	Year 8	5	Equipment and materials	Kettle	1	kettle		1	Yes		
2	Year 8	5	Equipment and materials	Heatproof jug	1	jug		1	Yes		
2	Year 8	5	Equipment and materials	Sieve	1	sieve		1	Yes		
2	Year 8	5	Equipment and materials	Clean bottle for the indicator	1	bottle		2	Yes		
2	Year 8	5	Equipment and materials	Fridge space	1	shelf space		1	Yes		
2	Year 8	5	Equipment and materials	Teacher's kitchen tools and containers: knife and chopping board (cabbage), grater (soap), teaspoon, measuring jug (500 ml and 200 ml), stirring spoon, and a jug or bottle each for the soap solution, baking soda solution and scene liquid		not stated (one of each tool and 3 containers are implied by the recipes); set			No: tool	Implied by the Case Bible recipes ('chop', 'grate', 'about 500 ml', '200 ml') but not listed anywhere. Check the prep room or canteen.	
2	Year 8	5	Equipment and materials	Cloths for wiping tables		not stated (requisition assumes 6, 1 per group); cloths			Yes, see note	Kit card says 'Wipe tables' without a number.	

Needed in teaching week	Year	Lesson week	Group	Item	Qty (one class)	Unit	Plan	Total for your classes	On the requisition?	Check	Got it
2	Year 8	5	Equipment and materials	Timer or stopwatch	1	timer		2	No: tool	An on-screen timer will do.	
2	Year 8	5	Equipment and materials	Camera or phone	1	camera		2	No: tool		
2	Year 8	5	Equipment and materials	Ideas Parking Board space on the wall	1	wall or board area		1	No: may already exist	Fixings for the header and the A3 chart (Blu-tack or pins) are not listed.	
2	Year 8	5	Food and consumables	Red cabbage (紫甘蓝)	0.25	head		0.5	Yes, see note	A quarter head per class (Case Bible Section 13). The requisition note says the canteen is asked for 1 head; that covers four batches.	
2	Year 8	5	Food and consumables	Lemon juice	60	ml		120	Yes	Food material: check the allergy list (Teacher Guide Section 6).	
2	Year 8	5	Food and consumables	White vinegar	60	ml, plus a little for the Hook demo		120	Yes	Requisition lists 70 ml (60 ml plus about 10 ml for the demo), which covers it.	
2	Year 8	5	Food and consumables	Baking soda (小苏打)		not stated: no strength is given for the baking soda solution (requisition assumes 2 teaspoons); plus a pinch if the soap solution only turns blue-purple; teaspoons			Yes, see note	Week 4 baking soda stock may cover it.	
2	Year 8	5	Food and consumables	Plain bar soap	1	teaspoon, grated (buy 1 plain bar; not washing-up liquid)		2	Yes	Washing-up liquid is often close to neutral and will not work (Case Bible Section 13).	
2	Year 8	5	Food and consumables	Bottled or purified water	560	ml		1120	Yes	Tap water can be slightly alkaline and turn the indicator blue-purple. The water for the soap and baking soda solutions is not specified.	
2	Year 8	5	Food and consumables	Paper towels (the lab's own, from the sink dispenser)		not stated (requisition assumes 3 sheets per group, 18); sheets			Yes, see note	Kit card lists 'Paper towels' with no number.	
3	Year 7	8	Equipment and materials	Cool box (insulated box with lid)	6	boxes (1 per group)	Plan A	12	Yes	Week 6 used one cool box; 6 are needed. Use bubble-wrapped boxes (below) if short.	
3	Year 7	8	Equipment and materials	Box with a lid, to wrap in bubble wrap (optional)	6	boxes	Plan A	12	Yes	Only if cool boxes are short.	
3	Year 7	8	Equipment and materials	Textbooks for the book stacks	78	books (about 12 per group for 4 stacks of 3, plus 6 for the demo rig)		156	Yes	Students' own books are fine. Plan A melting groups (up to 2) need no rigs; the quantity covers 6 strength groups.	
3	Year 7	8	Equipment and materials	Thin plastic bags to cover the top books	12	bags (2 per group)	Plan A	24	Yes	The Plan B kit card leaves these out, but the shared rig diagram and Slide 5 show the top books covered; decide whether Plan B needs 12 too.	
3	Year 7	8	Equipment and materials	Small carrier bags or freezer bags with handles	13	bags (2 per group plus 1 for the demo rig)		26	Yes		
3	Year 7	8	Equipment and materials	Buckets or deep washing-up bowls (catch trays)	13	buckets (2 per group plus 1 for the demo rig)		26	Yes		
3	Year 7	8	Equipment and materials	Plastic cups (to make the pour cups)	12	cups (2 per group)		24	Yes		
3	Year 7	8	Equipment and materials	Jug, about 2 litres	6	jugs (1 per group)		12	Yes		
3	Year 7	8	Equipment and materials	Waste bowl	6	bowls (1 per group)		12	Yes		
3	Year 7	8	Equipment and materials	Ruler, 30 cm	7	rulers (1 per group plus 1 for the teacher's demo rig)		14	Yes, see note	The requisition lists 6; the 7th is for the demo rig (Slide 5 notes), and any classroom ruler will do. The lesson file says only 'ruler'.	
3	Year 7	8	Equipment and materials	Measuring cylinder, 25 ml	1	cylinder		1	Yes	The lesson file says only 'a measuring cylinder'; the 25 ml size comes from the requisition (Week 7 groups used 25 ml cylinders).	
3	Year 7	8	Equipment and materials	Measuring cylinder, 10 ml	2	cylinders (1 per melting group, up to 2)	Plan A	4	Yes		
3	Year 7	8	Equipment and materials	Identical plastic lids or saucers	20	lids (10 per melting group, up to 2)	Plan A	40	Yes		
3	Year 7	8	Equipment and materials	Stopwatch	2	stopwatches (1 per melting group, up to 2)	Plan A	4	Yes, see note	The requisition tags it 'both'; only Plan A melting groups need it.	
3	Year 7	8	Equipment and materials	Towels (cloth)	13	towels (2 per group plus 1 for the teacher)		26	Yes		
3	Year 7	8	Equipment and materials	Mop and bucket	1	set		1	Yes		
3	Year 7	8	Food and consumables	Tap water	12	litres (about 2 litres per group jug)		24	No: may already exist		
3	Year 7	8	Food and consumables	Disposable gloves	18	pairs (3 per group)	Plan A	36	Yes		

Needed in teaching week	Year	Lesson week	Group	Item	Qty (one class)	Unit	Plan	Total for your classes	On the requisition?	Check	Got it
3	Year 7	8	Food and consumables	Paper towels (kitchen roll)		not stated (kit card says 'plus paper towels'); the requisition lists 1 roll; rolls			Yes, see note	No amount given in the lesson file.	
3	Year 8	6	Equipment and materials	Rulers, 30 cm	12	rulers (2 per group)		24	Yes	Week 3 used 6 (1 per group); 12 are needed this week.	
3	Year 8	6	Equipment and materials	Metre sticks or tape measures	7	metre sticks or tape measures (1 per group plus 1 for the Hook)		14	Yes	The kit card gives 1 per group; the Slide 4 notes need one at the front, so the requisition adds 1. Tape measures must be retracted slowly (Teacher Guide safety table).	
3	Year 8	6	Equipment and materials	Metre sticks for upright height stations (alternative to paper charts) (optional)	3	metre sticks		3	Yes, see note	The requisition note says 'add up to 3 more if the height stations use upright metre sticks'. Marking the tape needs a fine marker pen, which is not listed.	
3	Year 8	6	Equipment and materials	Paper height charts, 130 to 190 cm	3	charts		3	Yes	No printable design exists for the chart: buy ready-made charts or use the upright metre stick alternative. Leave up if Year 7 or 9 need them.	
3	Year 8	6	Equipment and materials	Hardback books	6	books (1 per group)		12	Yes	Borrow from the library or staff room.	
4	Year 8	7	Equipment and materials	Mini whiteboards (optional)	24	boards		48	Yes	Kit card: 4 per group. First Year 8 lesson to use them; the school may already have a class set. Students may answer in the logbook instead.	
4	Year 8	7	Equipment and materials	Small zip bags (evidence bags)	6	bags		12	Yes	Up to 2 of each type (6), but because at least one group takes Ink 2, no class uses more than 5. Reuse a Week 4 Evidence 3 bag only if it is still sealed.	
4	Year 8	7	Equipment and materials	Reference samples to show groups: soils A to D (A flowerbed by the science block entrance, B sports field edge, C sandpit, D tree bed by the main gate) and papers P1 to P4 (lab paper towel, canteen napkin, tissue, shop kitchen roll) (optional)		not stated for Week 7 (the Week 8 kit card collects about 2 cups of each soil; each Soil group uses about 4 tablespoons of each, and each Paper group needs enough of each paper for 3 strips); samples			No: may already exist	Listed in the Week 8 requisition (campus soil samples A to D, paper reference sets P1 to P4); collecting them now only moves that Week 8 task earlier, so do not order twice. No containers are named for Week 7.	
4	Year 8	7	Food and consumables	Paper towels (the lab's own, from the sink dispenser)	2	sheets		4	Yes, see note	Must come from the lab's own roll (the same roll as reference P1), not a purchase. The same sheet is smoothed flat and cut into 3 strips 2 cm by 12 cm in Week 8, so take a full sheet.	
4	Year 8	7	Food and consumables	Baking soda (小苏打) (optional)	6	teaspoons		12	Yes	Only if no unopened Week 4 Evidence 3 bag is left. Use the Week 4 baking soda if any remains.	
5	Year 7	10	Equipment and materials	Storage box, labelled 'Ice Engineers', for reusable kit	1	box		1	Yes	Separate from the class box used for logbooks. Label it before storing the kit.	
5	Year 7	10	Equipment and materials	Guillotine or scissors (teacher)	1	guillotine or pair of scissors		1	No: tool	Not on the kit card; needed for the 'Print and cut question cards' prep. Scissors have been in stock since Week 3.	
5	Year 7	10	Equipment and materials	Camera or phone	1	device		1	No: tool	Use a school device and follow the school's rules for photographing student work.	
5	Year 8	8	Equipment and materials	White coffee-filter strips, 2 cm by 10 cm	50	strips, plus spares (number not stated)		100	Yes	Cut from the coffee filters ordered before Week 1; check enough remain. The kit card adds 'plus spares' for both the strips and the N strips without a number.	
5	Year 8	8	Equipment and materials	Clear plastic bottles or jars with screw lids, about 300 ml, all identical (no glass)	20	bottles		40	Yes	Up to 2 Soil groups. Bottles stay labelled on the windowsill until Week 9, so every class with Soil groups needs its own set. Collected from staff and students since before Week 1; plastic only.	
5	Year 8	8	Equipment and materials	Timers (stopwatches)	5	timers		10	Yes, see note	The requisition lists 6. At least one group does Powder 2, which needs none, so at most 5.	
5	Year 8	8	Equipment and materials	Small clear plastic cups	44	cups		88	Yes, see note	The requisition lists 48 (every option at 2 groups plus 6). The most a class of 6 groups needs is 38 (2 Powder 2 groups, 2 Ink 2 groups, 1 Paper group) plus 6 for the pre-test earlier in the week; the pre-test cups can be rinsed and reused in the lesson. Cups bought for Weeks 3 to 5 can be used if washed.	
5	Year 8	8	Equipment and materials	Stirring sticks	22	sticks		44	Yes	Up to 2 Powder 2 and 2 Ink 2 groups (a split a class can have). Use any left from Week 4 first.	
5	Year 8	8	Equipment and materials	Teaspoons	3	teaspoons		6	Yes		
5	Year 8	8	Equipment and materials	Tablespoons	10	tablespoons		20	Yes	Up to 2 Soil groups. Also used by the teacher to fill the pots.	
5	Year 8	8	Equipment and materials	Flat sticks for levelling spoonfuls	2	sticks		4	Yes	Up to 2 Soil groups.	

Needed in teaching week	Year	Lesson week	Group	Item	Qty (one class)	Unit	Plan	Total for your classes	On the requisition?	Check	Got it
5	Year 8	8	Equipment and materials	Jugs for water	4	jugs		8	Yes	Up to 2 Soil and 2 Paper groups (a split a class can have).	
5	Year 8	8	Equipment and materials	Measuring jugs or measuring cylinders, 150 ml or more	4	jugs or cylinders		8	Yes	1 per Soil and Ink 2 group, up to 2 each.	
5	Year 8	8	Equipment and materials	Small bottle for each Ink 2 group's white vinegar (about 60 ml)		not stated (1 per Ink 2 group would be up to 2); bottles			Yes, see note	The kit card says only 'fill the vinegar bottle'. The requisition assumes 1 per Ink 2 group (2).	
5	Year 8	8	Equipment and materials	Scissors	4	pairs		8	Yes	Up to 2 Paper groups. Counted back in at clean-up.	
5	Year 8	8	Equipment and materials	Iodine solution in a dropper bottle (optional)	2	dropper bottles		4	Yes	Optional (skip it if time is short and use the water test for starch). 1 per Powder 2 group, up to 2; returned to the teacher at clean-up. Use the Week 4 bottles if they were bought.	
5	Year 8	8	Equipment and materials	Disposable gloves		not stated; gloves (shared box)			Yes, see note	The requisition lists 1 shared box.	
5	Year 8	8	Equipment and materials	Cloths for wiping tables		not stated; cloths			Yes, see note	The requisition lists 6 (1 per group).	
5	Year 8	8	Equipment and materials	Bucket	1	bucket		2	Yes		
5	Year 8	8	Equipment and materials	Newspaper (optional)		not stated; sheets			Yes, see note	Only if the soil is very wet. The requisition lists 4 sheets.	
5	Year 8	8	Equipment and materials	Bags for collecting soil, labelled	5	bags		5	Yes	Collected once; enough soil for several classes.	
5	Year 8	8	Equipment and materials	Camera or tablet	1	device		2	No: tool	Also photograph the soil bottles again before Week 9.	
5	Year 8	8	Equipment and materials	Hand soap at the sink		not stated (room supply); dispenser			No: may already exist		
5	Year 8	8	Food and consumables	Water (tap or bottled)		not stated in total: about 1.6 litres per Soil group and about 300 ml per Paper group; Ink 2 (water and salt water cups) and Powder 2 (10 cups a third full) amounts not stated; litres			No: may already exist	Lab tap water is fine; the Ink 2 kit card allows bottled or tap water.	
5	Year 8	8	Food and consumables	Paper towels (the lab's own, from the sink dispenser) for drying strips, spills and hands		not stated; sheets			Yes, see note	The requisition lists 26 (3 per group assumed, plus 2 for P1).	
5	Year 8	8	Food and consumables	Lab paper towels for reference P1 (the lab's own roll)	2	sheets		4	Yes	Must be the same roll as Evidence 7. Counted inside the requisition's paper towel line.	
5	Year 8	8	Food and consumables	Tissues	2	tissues		4	Yes	Up to 2 Paper groups.	
5	Year 8	8	Food and consumables	Canteen napkins	2	napkins		4	Yes	Ask the canteen.	
5	Year 8	8	Food and consumables	Food colouring	6	drops		12	Yes	Up to 2 Paper groups. Stains skin and clothes.	
5	Year 8	8	Food and consumables	White vinegar	180	ml, plus a little for the pre-test		360	Yes	Up to 2 Ink 2 and 2 Powder 2 groups (120 + 60). The pre-test amount is not stated.	
5	Year 8	8	Food and consumables	Salt	7	level teaspoons		14	Yes	The Ink 2 figure assumes each group makes 100 ml of salt water; the kit card gives only the recipe.	
5	Year 8	8	Food and consumables	Baking soda (小苏打)	12	level teaspoons		24	Yes	Up to 2 Powder 2 groups. Use any baking soda left from Week 4.	
5	Year 8	8	Food and consumables	Cornflour	2	level teaspoons		4	Yes	Allergy check (corn).	
5	Year 8	8	Food and consumables	Plain flour (wheat)	2	level teaspoons		4	Yes	Allergy check (wheat).	
6	Year 8	9	Equipment and materials	Camera or phone	1	device		2	No: tool	Use a school device and follow school rules on photographs.	

Printing and card for the next six weeks

Sheets in total, six weeks

A4 paper	**2080**	A4 card	**66**
A3 paper	**51**	A4 90 gsm (booklet)	**0**
A5 paper	**93**		

Teaching week	Year	Lesson week	Item	Copies (one class)	How to print	Total copies for your classes	Paper or card	Sheets per copy	Sheets in total	Check	Done
1	Year 7	6	Worksheet Plan A: Ice cube rescue (Core A to D, Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip on page 5)	24	copies; 5 A4 pages, double-sided (3 sheets; page 5, the exit ticket, prints alone on sheet 3)	48	A4 paper	3	144	No spares stated. The design runs to 5 pages with 'turn over' on pages 1 to 4, so print double-sided: 24 x 3 = 72 A4 sheets. The Core D sort-card strip ('CUT HERE') sits in the middle of page 3, so cutting it out also cuts into page 4 on the back (Challenge). Print only from the design rebuilt after the language pass.	
1	Year 7	6	Worksheet Plan B: Keep it warm (Core A to D, Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip on page 5)	24	copies; 5 A4 pages, double-sided (3 sheets; page 5, the exit ticket, prints alone on sheet 3)	48	A4 paper	3	144	No spares stated. The design runs to 5 pages with 'turn over' on pages 1 to 4, so print double-sided: 24 x 3 = 72 A4 sheets. The Core D sort-card strip ('CUT HERE') sits in the middle of page 3, so cutting it out also cuts into page 4 on the back (Challenge). Print only from the design rebuilt after the language pass.	
1	Year 7	6	Planning frame Plan A: Pykrete strips (Week 7 Section 6a design; page 1 done in Week 6)	8	copies; 5 A4 pages, double-sided (3 sheets)	16	A4 paper	3	48	8 = 1 per group + 2 spares (Week 7 print spec); the Week 6 file says 6 copies. The spec says two sides of A4 or one A3 sheet folded, and the requisition counts 8 A3 sheets for that, but the design runs to 5 A4 pages, so print 5 pages double-sided (8 x 3 = 24 A4 sheets) unless the design is cut back to two pages. Printed from the Week 7 design (Section 6a).	
1	Year 7	6	Planning frame Plan B: Straw-brick science (Week 7 Section 6a design; page 1 done in Week 6)	8	copies; 5 A4 pages, double-sided (3 sheets)	16	A4 paper	3	48	8 = 1 per group + 2 spares (Week 7 print spec); the Week 6 file says 6 copies. The spec says two sides of A4 or one A3 sheet folded, and the requisition counts 8 A3 sheets for that, but the design runs to 5 A4 pages, so print 5 pages double-sided (8 x 3 = 24 A4 sheets) unless the design is cut back to two pages. Printed from the Week 7 design (Section 6a).	
1	Year 7	6	Concept cartoon: snowman in a coat (A3 board copy)	1	copy; A3 landscape, single-sided (A4 landscape design enlarged), then laminated	1	A3 paper	1	1	Print spec: 1 laminated A3 copy for the board. One copy can stay up for every class taught in the same room.	
1	Year 7	6	Kit card Plan A: Ice cube rescue (half-A4, marked Teacher copy)	1	copy; A5, single-sided	1	A5 paper	1	1	Print quantity not stated; the design is marked 'Teacher copy', so 1 is assumed. The Teacher Guide says the Safety Officer checks the kit card at the start of every Do phase; print 6 more for the trays if wanted.	
1	Year 7	6	Kit card Plan B: Keep it warm (half-A4, marked Teacher copy)	1	copy; A5, single-sided	1	A5 paper	1	1	Print quantity not stated; the design is marked 'Teacher copy', so 1 is assumed. The Teacher Guide says the Safety Officer checks the kit card at the start of every Do phase; print 6 more for the trays if wanted.	
1	Year 8	4	Worksheet: The white powder (Core results grid with picture key, b and c with sorting strip; Stretch flowchart key; Challenge; My thinking; fold-under word bank; exit ticket strip)	24	copies; 3 A4 pages, double-sided (pages 1 and 2 back to back, page 3 on its own sheet, back blank)	48	A4 paper	2	96	No spares stated. Pages 1 and 2 both say 'turn over'. The exit ticket sits below a cut line at the foot of page 3, so with page 3 single-sided nothing is lost when the strip is cut off: 24 x 2 = 48 sheets. No scissors are named for cutting off the strip. The worksheet goes into the case file afterwards: the Week 7 kit card lists the 'Week 4 results grid (in case files)' for planning, and Powder 2 groups use it as a reference in Week 8. Print only from the design rebuilt after the language pass.	
1	Year 8	4	Powder testing lab card (table top, lab card 6.1): tile and cup layout, 'What to look for' table, safety footer	6	copies; A5 landscape, single-sided, then laminated	12	A5 paper	1	12	Print 6 (one per group). Laminated and not written on, so one set serves every class. If the printer has no A5 paper, print 2 per A4 sheet and cut (3 A4 sheets).	

Teaching week	Year	Lesson week	Item	Copies (one class)	How to print	Total copies for your classes	Paper or card	Sheets per copy	Sheets in total	Check	Done
1	Year 8	4	Kit card: Week 4 The white powder (half-A4, marked 'Teacher copy')	1	copy; A5 landscape (half-A4), single-sided	2	A5 paper	1	2	The kit list names the scene powder: 'Evidence bag ... (baking soda)', so keep it on the teacher's desk, not on group trays. The Teacher Guide says the Safety Officer checks the kit card at the start of every Do phase: Safety Officers can use Slide 7 and the lab card's safety footer instead. One copy serves every class.	
1	Year 8	4	White powder identification key poster	1	copy; A3 portrait, single-sided	1	A3 paper	1	1	Do not put it up until every class has done Week 4: it gives away the Stretch key. One per room serves every class taught there.	
2	Year 7	7	Worksheet Plan A: The ice ship mission (Do Now box, Core A story cloze, Core B my job, Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip)	24	copies; 3 A4 pages, double-sided (pages 1 and 2 back to back, page 3 on a second sheet)	48	A4 paper	2	96	No spares stated. Pages 1 and 2 say 'turn over'; page 3 carries the cut-off exit ticket, so leave its back blank: 2 sheets per copy, 48 sheets. Print only the plan named on the handover note (Week 4 freezer decision).	
2	Year 7	7	Worksheet Plan B: Straw-brick science (same sections as Plan A, with the Plan B making jobs, Challenge and word bank additions)	24	copies; 3 A4 pages, double-sided (pages 1 and 2 back to back, page 3 on a second sheet)	48	A4 paper	2	96	No spares stated. 2 sheets per copy, 48 sheets. Print only the plan named on the handover note.	
2	Year 7	7	Kit card Plan A: Pykrete strips (teacher copy)	1	copy; A5 landscape, double-sided	2	A5 paper	1	2	Designed as A5 (half-A4), side 1 and side 2, marked 'Teacher copy'.	
2	Year 7	7	Kit card Plan B: Straw-brick science (teacher copy)	1	copy; A5 landscape, double-sided	2	A5 paper	1	2	Designed as A5 (half-A4), side 1 and side 2, marked 'Teacher copy'.	
2	Year 7	7	Class project board Plan A (A3 landscape)	1	copy; A3 landscape, single-sided	2	A3 paper	1	2	One board per class, kept up until Week 9; laminate if possible. Covered by the requisition line 'A3 paper for A3 prints' (1 sheet).	
2	Year 7	7	Class project board Plan B (A3 landscape, Test column printed 'Strength 强度')	1	copy; A3 landscape, single-sided	2	A3 paper	1	2	One board per class, kept up until Week 9; laminate if possible. Covered by the requisition line 'A3 paper for A3 prints' (1 sheet).	
2	Year 7	7	Sample labels (32 per A4 sheet, 4 x 8, bilingual code key at the top)	2	sheets; A4, single-sided, 32 labels each (64 labels)	4	A4 paper	1	4	Same sheet for both plans (students tick Plan A ice or Plan B dough). Cut into single labels before the lesson.	
2	Year 8	5	Worksheet: results table (Core a to d), Stretch tracker, Challenge, My thinking, fold-under word bank and exit ticket strip	24	copies; 3 A4 pages, double-sided (pages 1 and 2 on one sheet, page 3 on its own sheet)	48	A4 paper	2	96	1 per student; no spares stated. 24 x 2 = 48 sheets. Page 3 has a blank back, so cutting off the exit ticket loses nothing (scissors are not listed; folding and tearing on the cut line also works). Print only from the designs rebuilt after the language pass (Teacher Guide Section 8). Core d) points to the suspect cards in the case file (the same details are printed under d)); Challenge b) uses the scene map in the case file.	
2	Year 8	5	Checkpoint paper (Questions 1 to 6, 12 marks)	25	copies; 2 A4 pages, double-sided (24 students plus 1 left on the incoming teacher's seat)	50	A4 paper	1	50	Kit card: 1 per student. Teacher Guide Section 10: the current teacher leaves a copy on the incoming teacher's seat. No spares stated. Checkpoint_Y8.md says one side of A4, but the designed paper is 2 pages with 'turn over', so 25 sheets printed double-sided. Papers go on desks before students arrive. The checkpoint is not reused: print fresh for every class.	
2	Year 8	5	Checkpoint mark scheme (teacher copy)	1	copy; 1 A4 page, single-sided	1	A4 paper	1	1	Teacher only; keep away from students. Chinese answers that earn marks are listed in Checkpoint_Y8.md Section 0, not on the designed mark scheme.	
2	Year 8	5	Kit card (half-A4, two sides: kit, prep and clean-up; hazards and controls)	1	copy; A5, 2 sides, double-sided	1	A5 paper	1	1	Marked 'Teacher copy'; no print count stated, 1 assumed. The Teacher Guide says the Safety Officer checks the kit card at the start of every Do phase: print 6 if each tray should carry one.	
2	Year 8	5	pH colour chart for red cabbage indicator (A5 landscape, colour), laminated	6	copies; A5 landscape, single-sided, colour, then laminated	12	A5 paper	1	12	Requisition lists colour printing (7, including the A3 copy) and 6 A5 laminating pouches. Colour names are printed in every box, so it still works in greyscale. Laminated charts can serve every class.	
2	Year 8	5	pH colour chart, enlarged A3 copy for the wall	1	copy; A3 landscape, single-sided, colour if possible	1	A3 paper	1	1	The file says only '1 enlarged A3 copy for the wall'; colour and laminating are not stated (the requisition counts it as a colour print).	

Teaching week	Year	Lesson week	Item	Copies (one class)	How to print	Total copies for your classes	Paper or card	Sheets per copy	Sheets in total	Check	Done
2	Year 8	5	Ideas Parking Board header sign	1	copy; 1 A4 landscape page, single-sided, black and white	1	A4 paper	1	1	Print 1 (file). Keep it up: the Week 6 Do Now points to the board, and Week 9 uses the board or its photo. See the open question on keeping each class's notes separate.	
2	Year 8	5	Lesson plan (Section 1, one page) for the incoming teacher	1	copy; 1 A4 page, single-sided	2	A4 paper	1	2	One copy can serve every observed class if the same incoming teacher keeps it.	
2	Year 8	5	Handover note form (Tracker_Spec Section 6, Science Detectives version)	1	copy; 1 A4 page, single-sided	2	A4 paper	1	2	Teacher document; fill in after the checkpoint scores are in tracker column Q. A paper copy also goes in the class assessment folder (Teacher Guide Section 10).	
3	Year 7	8	Worksheet, Plan A: Test day (group results sheet)	24	copies; 5 A4 pages, double-sided (3 sheets), stapled	48	A4 paper	3	144	Designed as 5 A4 pages, but the lesson file expects one sheet that may run onto the back; check before printing 72 sheets. Page 5 holds only the exit ticket, so the third sheet has a blank back. Spares not stated.	
3	Year 7	8	Worksheet, Plan B: Test day (group results sheet)	24	copies; 4 A4 pages, double-sided (2 sheets), stapled	48	A4 paper	2	96	The exit ticket is at the foot of page 4. Printed double-sided, cutting it off also cuts the foot of page 3 (Challenge b and its Ideas line). Check the layout before printing 48 sheets. Spares not stated.	
3	Year 7	8	Kit card, Plan A: Test day, ice strips		not stated; the card is marked Teacher copy, but the Safety Officer in each group reads its hazards aloud; copies; A5, 2 sides, double-sided		A5 paper	1		Decide: 1 teacher copy, or 1 per group for the Safety Officers.	
3	Year 7	8	Kit card, Plan B: Test day, dough strips		not stated; the card is marked Teacher copy, but the Safety Officer in each group reads its hazards aloud; copies; A5, 2 sides, double-sided		A5 paper	1		Decide: 1 teacher copy, or 1 per group for the Safety Officers.	
3	Year 7	8	Strength test rig labelled diagram (6a), A4 group copies	6	copies; 1 A4 landscape page, single-sided, then laminated	6	A4 paper	1	6	Laminated and reusable in future years, so print once for all classes.	
3	Year 7	8	Strength test rig labelled diagram (6a), A3 board copy	1	copy; A3 landscape, single-sided	1	A3 paper	1	1		
3	Year 7	8	Melting test station card (6b)	2	copies; 1 A5 landscape page, single-sided, then laminated	4	A5 paper	1	4	The print spec says 2 per class; once laminated, the same pair can serve later classes.	
3	Year 8	6	Worksheet: Footprints and height (Core, Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip with the Week 7 option vote)	24	copies; 4 A4 pages, double-sided	48	A4 paper	2	96	No spares stated. 24 copies x 2 sheets = 48 A4 sheets. The lesson file says 'two sides', but the designed worksheet has 4 pages (pages 1 to 3 say 'turn over'). Cutting off the exit ticket strip at the foot of page 4 also cuts the bottom of page 3 (Challenge a) writing lines) on the back. Print only from the design rebuilt after the language pass.	
3	Year 8	6	Scene footprint, true size (group copies)	6	copies; A4 portrait, single-sided, printed at 100% (actual size)	12	A4 paper	1	12	The requisition lists 7 prints (6 groups plus 1 scene table). Never print 'fit to page'; check every copy measures exactly 24.0 cm with a ruler. Footprints go into case files at clean-up, so 6 new copies are needed for each class.	
3	Year 8	6	Scene footprint, true size (scene table and teacher's Hook copy)	1	copy; A4 portrait, single-sided, printed at 100% (actual size)	1	A4 paper	1	1	Counted in the requisition's 7 prints. If the optional Week 1 scene table used a 24 cm paper footprint, that copy can be reused: check it measures 24 cm.	
3	Year 8	6	Sample class data card (24 made-up Year 8 students, S01 to S24)	7	copies; A5 portrait, single-sided, then laminated	7	A5 paper	1	7	Print notes give 6 (1 per group) plus 1 for the teacher; the kit card says 1 per group. Laminated 'if possible', so the cards can be collected and serve every class. Print on A5, or 2 up on A4 and cut.	
3	Year 8	6	Height station sign	3	copies; A4 portrait, single-sided	3	A4 paper	1	3	The requisition names the signs only as an ingredient of the height stations ('ordinary print'). They can stay up with the charts for every class.	
3	Year 8	6	Kit card (half-A4, teacher copy)	1	copy; A5 landscape, single-sided	1	A5 paper	1	1	The design is marked 'Teacher copy'. The Teacher Guide has the Safety Officer check the kit card at the start of every Do phase; extra copies for group trays are not stated.	

Teaching week	Year	Lesson week	Item	Copies (one class)	How to print	Total copies for your classes	Paper or card	Sheets per copy	Sheets in total	Check	Done
4	Year 7	9	Worksheet: What does it mean? (Do Now box, Core A to C, Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip)	24	copies; 4 A4 pages, double-sided	48	A4 paper	2	96	48 A4 sheets per class. No spares stated. Pages 1 to 3 say 'turn over', so print double-sided. Cutting off the exit ticket strip (page 4) also cuts a strip out of page 3 (Challenge b), so collect the whole worksheet. Print only from the design rebuilt after the language pass.	
4	Year 7	9	Class data pooling sheet (Section 6a)	6	copies; A4 landscape, 2 sides (side 1 strength, side 2 melting), double-sided; 1 per group	12	A4 paper	1	12	Side 2 (Table 2, melting) is for Plan A melting groups only; Plan B classes could print side 1 only. No spares stated.	
4	Year 7	9	Class data pooling sheet enlarged to A3 for the board (side 1, strength)	1	copy; A3 landscape, single-sided	2	A3 paper	1	2	Covered by the requisition's A3 paper line (8 sheets: 7 posters plus this enlargement). The file asks for 1 A3 enlargement, but the melting table is on side 2: Plan A classes with melting-test groups need it on the board too (on the back, or on a second A3 sheet that is not in the requisition). See open questions.	
4	Year 7	9	Investigation poster template (Section 6b), seven numbered panels	7	copies; A3 portrait, single-sided; 6 groups plus 1 spare	14	A3 paper	1	14	Covered by the requisition's A3 paper line. Posters are stored flat in the group folders: check the folders take A3.	
4	Year 7	9	Poster panel cards, Panels 1 to 7 (Section 6b), with 'Cut here' lines	7	sets; 4 A4 sheets per set, single-sided, cut out by students; 6 groups plus 1 spare set	14	A4 paper	4	56	28 A4 sheets per class. The cards are designed the same size as the poster panels, so print at 100% (no fit to page); this also keeps the Panel 4 graph grid at 1 cm squares.	
4	Year 7	9	Sample class data card, Plan A ice strips (Section 6c): side 1 strength, side 2 melting	3	copies; A4 portrait, 2 sides, double-sided, laminated	6	A4 paper	1	6	Print spec says 3 of each plan per class; only the set matching your plan is given out. Laminated and kept on the teacher desk, so the same cards can serve other classes; Week 10 stores them with the reusable kit.	
4	Year 7	9	Sample class data card, Plan B dough strips (Section 6c)	3	copies; A4 portrait, single-sided, laminated	6	A4 paper	1	6	Print spec says 3 of each plan per class; only the set matching your plan is given out. Laminated and kept on the teacher desk, so the same cards can serve other classes; Week 10 stores them with the reusable kit.	
4	Year 7	9	Sample class data: teacher answers (group means and class means) (optional)	1	copy; A4 portrait, single-sided, teacher copy	1	A4 paper	1	1	No print spec; the designed page is marked Teacher copy. The same answers are in Sections 4 and 6c of the lesson file.	
4	Year 7	9	Self-assessment slip (assessment/Rubric_and_Reporting.md, Section 7)	24	slips; A5 portrait, 2 per A4 sheet, single-sided, cut in half (12 A4 sheets)	48	A4 paper	0.5	24	The Teacher Guide prep calendar puts this print job in Week 8. Collected separately from the posters.	
4	Year 7	9	Talk frame card: Our 2-minute Expo talk (Week 10 file, Section 6b)	24	copies; folded A4 (A5 when folded), 4 panels, double-sided	48	A4 paper	1	48	Designed with the Week 10 printables as a folded A4 card (the spec allows this when the five parts do not fit on one A5 side). The bilingual version must be the one printed now, in Week 9.	
4	Year 7	9	Kit card (half-A4, teacher copy, one card for Plan A and Plan B)	1	copy; A5, 2 sides, double-sided	2	A5 paper	1	2		
4	Year 8	7	Plan sheet (worksheet): Core a) to f), Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip and kit request box	24	copies; 4 A4 pages, double-sided	48	A4 paper	2	96	Kit card: plan sheets, 4 per group (24). No spares stated. Lesson file Section 3 says 'two sides', but the designed plan sheet is 4 A4 pages (pages 1 to 3 say 'turn over'), so 24 x 2 = 48 sheets. Printed double-sided, page 3 is on the back of page 4: the first cut line on page 4 sits a little under halfway down, so cutting off the exit ticket also cuts away the lower half of page 3 (Stretch c and all of Challenge); cutting off only the kit request cuts away Challenge b and c. The kit request is meant to be one per group (Safety Officer) but is printed on every copy. Plan sheets are collected, returned with comments in the Week 8 Do Now (Week 8 file), then go into the case file. Print only from the designs rebuilt after the language pass.	

Teaching week	Year	Lesson week	Item	Copies (one class)	How to print	Total copies for your classes	Paper or card	Sheets per copy	Sheets in total	Check	Done
4	Year 8	7	Option cards: Soil, Paper, Ink 2, Powder 2 (story hook, question, samples, picture method steps, main hazards, Think about)	10	copies; 1 A4 page each, single-sided; 6 group copies (1 per group, its own option) plus 4 spares (1 of each option)	20	A4 paper	1	20	Print after allocating options ('1 per group taking that option, plus 1 spare of each'). With six groups, every option at least once and no more than two groups per option, the split is always 2, 2, 1, 1, so 3, 3, 2 and 2 copies (10). Laminate if possible. Keep them: the Week 8 file says the Week 7 option card stays on the table beside the plan sheet on lab day.	
4	Year 8	7	Kit card: Week 7 planning lesson (half-A4, teacher copy)	1	copy; A5, single-sided	2	A5 paper	1	2	Marked 'Teacher copy'. No print count is stated; 1 teacher copy assumed.	
4	Year 8	7	Week 8 kit lists by option: Soil, Paper, Ink 2, Powder 2 (teacher copy)	1	set; 4 A5 pages (one per option), single-sided	2	A5 paper	4	8	Titled 'Week 8 kit list by option: plan with these' and marked 'Teacher copy'. No print count is stated; 1 teacher set assumed. The lesson file specifies them as half-A4, so they can also go 2 per A4 sheet (2 sheets). The full Week 8 kit cards in the Week 8 file take priority.	
5	Year 7	10	Final skills check paper, Year 7 (assessment/Skills_Check_Y7.md, Section 1): the same paper as Week 1, fresh copies	24	copies; 2 A4 pages (two sides of A4), double-sided	48	A4 paper	1	48	Print from the same master as Week 1 (or use spare copies printed with Week 1) and do not alter it, not even the Chinese. Check the 'Week 10' tick box is on the paper. Print in class order. Kit card: 1 per student; no spares stated.	
5	Year 7	10	Interest survey (assessment/Interest_Survey.md, Section 1), fresh copies	24	copies; half-A4, 2 per A4 sheet with a cut line, single-sided (12 sheets)	48	A4 paper	0.5	24	Fresh copies, not the Week 1 ones. Print in class order and cut in half. Collected separately from everything else. Kit card: 1 per student; no spares stated.	
5	Year 7	10	Expo notes worksheet: Core notes table, Stretch, Challenge, My thinking, fold-under word bank, exit ticket strip	24	copies; 3 A4 pages, double-sided (pages 1 and 2 back to back, page 3 on its own sheet)	48	A4 paper	2	96	Kit card: 1 per student; no spares stated. The design is 3 A4 pages (pages 1 and 2 say 'turn over'); lesson file Section 3 does not say how many sides. Printed this way, 24 x 2 = 48 sheets, and cutting off the exit ticket at the foot of page 3 loses nothing on the back. Collected with the exit tickets; strong My thinking answers go into the programme summary.	
5	Year 7	10	Peer feedback slip, 'Two stars and a wish' (assessment/Rubric_and_Reporting.md, Section 6)	24	slips; A6, 4 per A4 sheet with dashed cut lines, single-sided (6 sheets)	48	A4 paper	0.25	12	Print spec: 6 sheets per class 'plus spares', but the number of spares is not given. Before the lesson, write on each slip's 'For' line the group that student will write for (the group they ask).	
5	Year 7	10	Expo run sheet (6a), teacher copy	1	copy; 1 A4 portrait page, single-sided	2	A4 paper	1	2		
5	Year 7	10	Strand 6 talk record (6d), teacher copy	1	copy; 2 A4 landscape pages (talks 1 to 3, talks 4 to 6), single-sided	2	A4 paper	2	4	Lesson file: 1 per class. The design splits the 24 rows (six blocks of four) over two A4 landscape sheets. Fill in the student names in talk order before the lesson.	
5	Year 7	10	Gallery walk sign (6e)	2	copies; 1 A4 portrait page, single-sided	4	A4 paper	1	4		
5	Year 7	10	Kit card: Ice Engineers Expo (half-A4, teacher copy, one card for Plan A and Plan B)	1	copy; A5, double-sided (side 1: kit, hazards and clean-up; side 2: teacher prep)	2	A5 paper	1	2	Marked 'Teacher copy'. No print count is stated; 1 teacher copy assumed.	
5	Year 7	10	Skills report, Ice Engineers version (assessment/Rubric_and_Reporting.md, Section 5)	24	copies; 1 A4 portrait page, single-sided	48	A4 paper	1	48	Not used in the lesson itself: printed after marking and rubric levels (close-out step 4), filled in by hand or by mail merge from the tracker. One page per student (Teacher Guide Section 5).	
5	Year 7	10	Expo question cards (6c): 12 questions per A4 sheet, cut into 24 cards	1	set of 24 cards; 2 A4 sheets, single-sided, on card if possible	2	A4 card	2	4	Print spec: 2 sheets per class (24 cards, one per student), on card if possible. If the 12-per-sheet layout were not readable, the fallback is 6 per sheet (4 sheets per class); the designed sheet uses 12. The requisition's 27 sheets of white card cover these 2 sheets and the 25 certificates. Cards are not written on and Section 7 stores them with the reusable kit, so one set could serve every class.	

Teaching week	Year	Lesson week	Item	Copies (one class)	How to print	Total copies for your classes	Paper or card	Sheets per copy	Sheets in total	Check	Done
5	Year 7	10	Certificates, Ice Engineers version (assessment/Rubric_and_Reporting.md, Section 4): Gold, Silver, Bronze, Participation and Most Improved Scientist, with the optional line 'Ice Engineers Expo 冰雪工程师成果展'	25	certificates; 1 A4 landscape page each, single-sided, on card if available (24 award certificates + 1 Most Improved Scientist)	50	A4 card	1	50	Award levels need strand 6 (judged today) and Most Improved needs today's skills check marked, so the recommended option is to present them within a week (Section 7); mark tracker column AL when printed. If they must be given today, print only the awards already fixed from the Week 9 draft levels and hand-complete the rest after the lesson. If Most Improved is still tied after tie-break 1, both students receive it (one extra sheet). Plain A4 paper if no card.	
5	Year 8	8	Worksheet: Core a) to e), Stretch, Challenge, My thinking, fold-under word bank and exit ticket strip	24	copies; 3 A4 pages: pages 1 and 2 double-sided, page 3 single-sided	48	A4 paper	2	96	One per student; no spares stated. The design is 3 A4 pages (pages 1 and 2 say 'turn over'): print pages 1 and 2 on one sheet and page 3 on its own sheet, because the exit ticket is cut from its foot. 24 x 2 = 48 sheets. Goes into the case file (rubric strand 3 and part of strand 4). Print only from the design rebuilt after the language pass (Teacher Guide prep calendar).	
5	Year 8	8	Group recording sheets: Soil (6.2), Paper (6.3), Ink 2 (6.4), Powder 2 (6.5)	10	copies; 2 A4 pages each, double-sided; 1 per group for its own option plus 1 spare of each option	20	A4 paper	1	20	Lesson file: 1 per group doing the option plus 1 spare. With six groups, every option at least once and no more than two per option (Week 7 allocation rule), the split is always 2, 2, 1, 1, so 3, 3, 2 and 2 copies (10 sheets). If printing before the options are allocated, print 3 of each (12). Page 1 of each says 'turn over'. Goes into the case file (main rubric evidence for strand 3).	
5	Year 8	8	Kit cards: Soil, Paper, Ink 2, Powder 2 (half-A4)	10	copies; A5, single-sided (or 2 per A4 sheet); 1 per group for its own option plus 1 of each option for the teacher's file	20	A5 paper	1	20	Lesson file: print each card for every group doing that option, plus one for the teacher's file (6 + 4 = 10). The designed cards are marked 'Teacher copy 教师用', which does not suit the group copies. Cards are not written on, so they can serve later classes.	
5	Year 8	8	Lab day run sheet (6.1), A4 landscape, teacher copy	1	copy; 1 A4 page, single-sided	2	A4 paper	1	2	One copy can serve every class.	
5	Year 8	8	Lab day run sheet (6.1), enlarged A3 copy for the wall	1	copy; 1 A3 page, single-sided	1	A3 paper	1	1	The requisition lists it as 1 A3 sheet ('A3 printing'). One copy can stay up for every class.	
5	Year 8	8	Backup lab report cards (6.6): Soil, Paper, Ink 2, Powder 2 (4 A6 cards on one A4 sheet, cut lines)	1	sheet; 1 A4 page, single-sided, cut into 4 cards	2	A4 paper	1	2	Kept in the teacher's folder. Attach the dried Ink 2 pre-test strips to the Ink 2 card (teacher note, not printed). An unused card can be kept for the next class; a card given to a group goes into its case file, so reprint it.	
6	Year 8	9	Worksheet: Build the case (Core a ranking table on page 1; Core b to d and Stretch a on page 2; Stretch b and Challenge on page 3; My thinking, fold-under word bank and exit ticket strip on page 4)	24	copies; 4 A4 pages, double-sided	48	A4 paper	2	96	Kit card: 4 per group (24); no spares stated. Lesson file Section 3 says two sides, but the designed worksheet is 4 A4 pages (pages 1 to 3 say 'turn over'), so 24 x 2 = 48 sheets. The exit ticket strip sits below a cut line at the foot of page 4, so cutting it off a double-sided copy also cuts the foot of page 3 (Challenge c). Worksheets go into the case file. Print only from the design rebuilt after the language pass.	
6	Year 8	9	Evidence board, A3 landscape (STRONG, SUPPORTING and WEAK columns, COMBINATION strip, empty right margin for the SET ASIDE label)	6	copies; A3 landscape, single-sided	12	A3 paper	1	12	Requisition 'A3 printing' (13 sheets) covers these 6, the teacher's model and 6 A3 statement frames. A new board is needed for every class.	
6	Year 8	9	Evidence board, enlarged teacher's model	1	copy; enlarged (size not stated), single-sided	2	A3 paper	1	2	Print spec says '1 enlarged for the teacher's model' but gives no size. The requisition counts it as a 7th A3 sheet and notes it may need a larger sheet: A3 is the board's own size, so 'enlarged' suggests A2 or A1 (poster printer). No card pack is listed for the model.	
6	Year 8	9	Cleaning log card (the twist): NEW EVIDENCE stamp, Snowfield School Cleaning Log entry, 概要 gist line, cut-off strip 'SET ASIDE: contaminated evidence'	6	copies; A5 portrait, single-sided	12	A5 paper	1	12	Keep hidden in the envelope until minute 7 of the Do phase, after every group has a first board; never show it before Week 9 (Case Bible Section 14). Can be printed 2 per A4 sheet and cut (3 A4 sheets). Paper or card is not stated. The SET ASIDE strip is below a cut line: decide whether to cut it off beforehand or let groups cut it (no scissors on the kit card).	

Teaching week	Year	Lesson week	Item	Copies (one class)	How to print	Total copies for your classes	Paper or card	Sheets per copy	Sheets in total	Check	Done
6	Year 8	9	Expert witness statement frame, A3 portrait (tick box for the group's evidence, four speaker boxes, jury question practice box)	6	copies; A3 portrait, single-sided	12	A3 paper	1	12	Print spec: 1 A3 per group, or 1 A4 per student (see the A4 row); print one option, not both. Kit card says 1 (A3) or 4 (A4) per group. Week 10 has no rehearsal time, so students finish their part today.	
6	Year 8	9	Expert witness statement frame, A4 alternative (optional)	24	copies; A4 portrait, single-sided	48	A4 paper	1	48	Only if you choose A4 instead of the 6 A3 frames. The design is A3; check it stays readable when scaled to A4.	
6	Year 8	9	Self-assessment slip 'How am I doing?' (six strands, four tick boxes each, two writing prompts; Rubric_and_Reporting.md Section 7)	24	slips; A5 portrait, 2 per A4 landscape sheet, single-sided, cut on the dashed line	48	A4 paper	0.5	24	Print spec: 12 A4 sheets for 24 students; no spares stated. The design is in the Rubric and Reporting printables (Self-assessment slips, 2 x A5 per A4; one version for all years), not in this lesson's printables. Teacher Guide prep calendar says print in Week 8.	
6	Year 8	9	Expert witness role badges (Fingerprint, Ink, Powder, Liquid, Footprint, Soil and paper)	1	sheet; A4 portrait, single-sided, cut into 6 badges (about 9 cm by 6 cm)	2	A4 paper	1	2	Print spec: 1 sheet per class (1 badge per group), but the Week 10 kit card lists 4 badges per group 'from Week 9' (24 badges, 4 sheets). Paper or card is not stated, and nothing says how badges are worn. Keep in the class box for Week 10.	
6	Year 8	9	Kit card: Week 9 (teacher copy)	1	copy; A5 (half-A4), single-sided	2	A5 paper	1	2		
6	Year 8	9	Concept cartoon: Who thinks like a scientist? (tunnel vision) (optional)	1	copy; A4 landscape, single-sided	1	A4 paper	1	1	Optional print; the same content is on slide 11. One display copy serves every class taught in the room.	
6	Year 8	9	Photo print: this class's Week 5 Ideas Parking Board (optional)	1	print; size not stated	2		1	2	Teacher Guide prep calendar (Week 8) says print it; the kit card puts the photo on slide 4, so the print is optional, especially if the board is still up. Each class has its own board photo.	
6	Year 8	9	Evidence card pack: 9 cards per sheet (Evidence 1 to 7, T sign-in sheet and alibis, ? blank 'Our extra evidence')	6	sets; 1 A4 sheet each, single-sided, cut into 9 cards (about 6.5 cm by 9 cm)	12	A4 card	1	12	Print spec: 1 sheet per group, on card if possible (requisition: 6 sheets of A4 white card). No strengths or matches are printed. Students write on the cards and fix them to the board, so a new set is needed for every class. How to keep each group's 9 cards together (clip or envelope) is not stated.	

Open questions to settle before each lesson (from the checked lesson data)

Teaching week	Year	Lesson week	Question	Decision
1	Year 7	6	Worksheet length: the lesson file says the A4 worksheet 'may run onto the back of the page', but the design runs to 5 A4 pages with 'turn over' on pages 1 to 4. Confirm 5 pages double-sided (3 sheets per student, 72 per class), with the exit ticket page printed alone on the third sheet.	
1	Year 7	6	Core D sort cards: the Band 1 and 2 card strip ('CUT HERE') sits in the middle of worksheet page 3, so cutting it out also cuts into page 4 on the back, and no scissors are listed for students (nor for the teacher's cutting of material squares, jackets and lid slits). Should the card strip be printed separately (how many Band 1 and 2 students need it?), or should students sort without cutting? How many pairs of scissors are needed?	
1	Year 7	6	Planning frame format: the Week 6 file (6b) and the Week 7 print spec say two pages (two sides of A4 or one A3 sheet folded), and the requisition counts 8 A3 sheets for that, but the design runs to 5 A4 pages per plan. Print the 5-page design double-sided (3 A4 sheets per copy), or cut the design back to two pages?	
1	Year 7	6	Planning frame copies: the Week 6 file says 6 (1 per group); the Week 7 print spec says 6 plus 2 spares. This data uses 8; confirm.	
1	Year 7	6	Kit card copies: no print quantity is given and the design is marked 'Teacher copy'. The Teacher Guide says the Safety Officer checks the kit card at the start of every Do phase. Print 1 teacher copy only, or 6 more for the trays?	
1	Year 7	6	Plan A cups: is the cup that holds each group's 4 bagged cubes a fifth cup (30 cups per class) or one of cups A to D (24)?	
1	Year 7	6	Plan A ice: the kit card says freeze two trays the day before (28 cubes), while the Teacher Guide (Week 4 row) says request ice from the canteen and Sections 7 and 8 say about 24 cubes. Which source, and how many Year 7 classes have this lesson on the same day (each needs its own 28 cubes, two trays and freezer space)?	
1	Year 7	6	Plan A measuring: the kit card allows 25 ml or 10 ml cylinders and the Teacher Guide (Week 5 row) allows a kitchen scale. With 2 to 10 ml of meltwater expected, are 10 ml cylinders available? If a scale is used, the worksheet heading (ml) would need to read g.	
1	Year 7	6	No worksheet spares are stated (24 per class). Add spares for new or absent students? Also, the worksheet write-up is Rubric evidence: are worksheets collected after the lesson or kept by students?	
1	Year 7	6	Requisition: several Plan-only rows are tagged 'both' (zip-lock bags, 25 ml measuring cylinders, jugs) and the elastic band and material rows give the Plan B counts only (Plan A needs 30 bands and 3 or 6 squares per material); there is no teacher-made row for the Plan A labelled cups. Should the requisition be split by plan?	
1	Year 8	4	Kit card: the lesson file gives no print count. The design is marked 'Teacher copy' and names the scene powder as baking soda, so 1 teacher copy is listed, but the Teacher Guide says the Safety Officer checks the kit card at the start of every Do phase. Should Safety Officers use Slide 7 and the lab card's safety footer instead?	
1	Year 8	4	No quantity is stated for paper towels, table cloths, the adhesive for sticking in the chromatograms, the teacher's measuring teaspoon or the water for the cups. Confirm the requisition figures (18 sheets, 6 cloths, 6 rolls of clear tape, 1 teaspoon)?	
1	Year 8	4	The Hook (holding up the evidence bag) and the Learn demo (modelling one powder) need teacher kit, and the teacher handling iodine needs goggles, but the kit card lists group kit only. Use one group's tray, or prepare a seventh set and a pair of teacher goggles?	
1	Year 8	4	Week 3 made one set of 5 chromatograms per group, but every student's Week 3 worksheet has a 5-slot box and the Week 3 plan says the chromatograms go in the case file. Whose worksheet or case file gets each group's set, and where are the Week 3 worksheets kept?	
1	Year 8	4	Iodine solution: the strength and source are not stated. Does the prep room have dilute iodine solution for 6 dropper bottles, or will the class use Slide 10 (water test) instead?	
1	Year 8	4	The lab card shows the six water cups labelled with the powder names, but the kit card does not ask for this. Add 36 labels per class, or let students write on the cups?	
1	Year 8	4	No spare worksheets are stated (24 copies, 1 per student). Add spares for new or absent students?	
1	Year 8	4	Powder pots and Evidence 3 bags: refill fresh for every class (the quantities are per class), or top up and reuse them between classes when they are clean?	
2	Year 7	7	Fibre quantities to buy are not stated (sawdust, tissue, shredded paper, cotton wool), nor the number of spare-fibre bags; they depend on each class's approved plans. Is the requisition's upper limit (30 g sawdust and 12 g each of tissue, shredded paper and cotton wool per class, and 4 spare-fibre bags) the amount to buy?	

2	Year 7	7	Masking tape is listed in each group's kit with no quantity. Are 6 rolls (the requisition figure) needed, or can groups share 2 or 3?	
2	Year 7	7	Each group has its own flat tray of 9 troughs carried to the freezer (Plan A) or drying shelf (Plan B), but the kit card also says the class's 54 strips fit on two shallow trays. Do the 6 group trays go into the freezer drawer, or are the troughs moved onto two shallow trays? (The Teacher Guide Week 6 row also says about 36 samples; the kit card says 54.)	
2	Year 7	7	Plan B: the number of spare dough balls (and bags) is not stated, and no mixing bowl or cup measure is listed. Who makes the dough (teacher, technician or canteen), and with whose equipment?	
2	Year 7	7	Fibre portions must be ready before the lesson, but plans are approved during it. Should portions be made from the Week 6 page 1 drafts (Box 2), and how much spare fibre should be kept for groups that change samples?	
2	Year 7	7	No logbook line is planned in this lesson's 4-minute Think and Reflect, though the Teacher Guide asks for one every lesson. Skip the logbook this week?	
2	Year 7	7	No worksheet spares are stated (24 copies, 1 per student). Add spares for new or absent students?	
2	Year 7	7	With more than one Year 7 class, each class needs its own freezer drawer or shelf space until Week 8 and its own class project board until Week 9. Is that space available?	
2	Year 8	5	Scene liquid amount: the kit card says about 10 ml per group (60 ml), but Case Bible Section 12 says about 20 ml per group (120 ml), and the Case Bible says it wins over lesson files. Which should the requisition use?	
2	Year 8	5	Baking soda solution: no file gives a recipe (strength) or volume. It is needed for the reference cups (60 ml), half of the scene liquid (30 or 60 ml) and the Hook demo. The requisition assumes 2 teaspoons of baking soda in about 100 ml of water. Is that right?	
2	Year 8	5	Paper towels and table cloths: the kit card gives no numbers (the requisition assumes 3 towels per group, 18, and 6 cloths). Confirm, or use the lab's own supply.	
2	Year 8	5	Hook demo: how much vinegar and baking soda solution is 'a little'? The requisition adds 10 ml of vinegar. Should the teacher wear goggles for the demo? They are not listed.	
2	Year 8	5	Checkpoint paper: Checkpoint_Y8.md says one side of A4, but the designed paper is 2 A4 pages ('turn over'). Print double-sided on one sheet, as assumed here? No spares are stated; 25 per class assumed (24 plus the incoming teacher's copy).	
2	Year 8	5	Checkpoint timing: Checkpoint_Y8.md Section 0 says the checkpoint runs after the mystery liquid test, but the lesson plan and Teacher Guide Section 3 put it first, in place of the Do Now. The lesson plan order is used here; should Checkpoint_Y8.md be corrected?	
2	Year 8	5	The recipes imply kitchen tools and containers (knife, chopping board, grater, teaspoon, measuring jug, stirring spoon, and a jug or bottle each for the soap solution, baking soda solution and scene liquid), but no file lists them. Are they in the prep room or canteen?	
2	Year 8	5	Ideas Parking Board: one header and one wall space are stated. With several classes, does each class get its own section or board, or is the board photographed and cleared after each class? Week 6 points to the board and Week 9 needs each class's own notes.	
2	Year 8	5	Indicator for several classes: one 500 ml batch serves one class and keeps for 3 days. Should a fresh batch be made the day before each class's lesson, or a double batch when two classes fall within 3 days? The requisition note says the canteen is asked for 1 head of red cabbage: how many heads per week?	
2	Year 8	5	The kit card's 15 minutes on the day covers making two solutions and the scene liquid, filling and labelling 74 cups, testing, and putting out checkpoint papers. That is tight. Should cups be labelled the day before (added here as an optional task)?	
2	Year 8	5	Kit card: it is marked 'Teacher copy' with no print count, so 1 is assumed. Should each tray also carry a copy for the Safety Officer (the Teacher Guide says the Safety Officer checks the kit card at the start of every Do phase)?	
2	Year 8	5	A3 wall pH chart: should it be printed in colour and laminated? The file says only '1 enlarged A3 copy for the wall'.	
2	Year 8	5	Worksheets: no spares are stated (24 per class printed). Add spares for new or absent students? Who cuts off the exit ticket strip (scissors are not listed)?	
3	Year 7	8	Hook strips: the kit card and requisition list 2 spare plain strips from the trial batch, but Slides 3 and 4 hold up one plain and one fibre strip. The trial batch is two plain strips in the Teacher Guide and three in the Week 7 kit card, and the Week 7 kit card has them all tested on the rig. Where do one plain and one fibre spare strip come from (for example, a group's tenth spare trough)?	
3	Year 7	8	Kit cards: how many copies? The card is marked Teacher copy, but in the Do Now each group's Safety Officer reads the kit card hazards aloud (1 copy, or 6, per plan).	
3	Year 7	8	Plan B top-book plastic bags: the Plan B kit card leaves them out, but the shared rig diagram (6a) and Slide 5 show the top books covered. Does Plan B need 12 as well?	

3	Year 7	8	Quantities not stated in the lesson file: paper towels ('plus paper towels'), the marker pen, and how much bubble wrap is needed to wrap 6 boxes (the Week 6 Plan A pieces were small 15 cm squares). The requisition lists 1 roll, 1 pen and 6 box wraps; please confirm.	
3	Year 7	8	Worksheet length: the designs run to 5 A4 pages (Plan A, 3 sheets) and 4 A4 pages (Plan B, 2 sheets), while the lesson file expects one sheet that may run onto the back. On Plan B the exit ticket is at the foot of page 4, so printing double-sided means cutting it off removes the foot of page 3 (Challenge b). Confirm the layout before printing. Worksheet spares are not stated.	
3	Year 7	8	Demo rig: only the Plan A kit card lists 'Set up one demo rig at the front', but the shared Learn phase demonstrates a rig in both plans. Confirm a demo rig is needed in Plan B too; the quantities here include one in both plans (6 extra books, 1 bag, 1 hanger string, 1 bucket, 1 ruler; the requisition lists only 6 rulers).	
3	Year 7	8	Exit ticket wording: Section 1 says 'one result with its unit and one thing that went well or badly', but the worksheet and Slide 14 ask for 'one thing that was hard to keep the same'. Which is intended?	
3	Year 7	8	Logbooks: the Teacher Guide says every lesson ends with a logbook line, but the Week 8 plan does not include one. Are logbooks needed this week?	
3	Year 8	6	Worksheet format: the lesson file says 'two sides', but the designed worksheet has 4 A4 pages (pages 1 to 3 say 'turn over'), entered as 2 double-sided sheets per copy. The exit ticket strip at the foot of page 4 is on the back of page 3, so cutting it off removes part of the Challenge a) writing lines. Print the last sheet single-sided (3 sheets per copy), or collect the whole worksheet instead of cutting the strip?	
3	Year 8	6	No worksheet spares are stated (24 copies, 1 per student). Add spares for new or absent students?	
3	Year 8	6	Height stations: the file says 2 or 3; 3 was entered for stations, charts and signs. Which number, and will the 130 to 190 cm paper height charts be bought (no printable design exists) or will the upright metre stick and marked masking tape option be used (then 2 or 3 extra metre sticks and a marker pen, which is not listed)?	
3	Year 8	6	Masking tape: no amount is stated in the lesson file; the requisition lists 1 roll. Confirm 1 roll, or reuse the Week 1 roll?	
3	Year 8	6	Scene footprints 'go into case files' at clean-up, but case files are one per student and there are 6 footprints per class. Whose case file gets the group copy, and should 6 new copies be printed for each class (entered as per class)?	
3	Year 8	6	The kit card design is marked 'Teacher copy', but the Teacher Guide has each group's Safety Officer check the kit card at the start of the Do phase. Print 6 group copies as well?	
3	Year 8	6	The scatter graph and height estimate are 'rubric strand 4 evidence for the final case file', but the file does not say whether worksheets are collected, filed in case files or kept by students.	
3	Year 8	6	Ideas Parking Board: the Week 5 file says photograph it before taking it down, but Slide 2 asks the teacher to point to it. Is it still on the wall for each class, or should the photo be shown?	
4	Year 7	9	Posters are A3 and the kit card says to store them flat in the group folders: are the folders A3 size? If not, where do the posters go?	
4	Year 7	9	Plan A classes with melting-test groups: the melting table is on side 2 of the pooling sheet, but the file and the requisition give only 1 A3 enlargement. Should side 2 go on the back of that A3 sheet, or on a second A3 sheet so both tables can be shown at once?	
4	Year 7	9	Sample class data cards: the print spec says 3 of each plan per class (6 laminating pouches). Should only the 3 cards for your plan be printed (3 pouches), and can one laminated set serve all classes?	
4	Year 7	9	Calculators are not on the kit card, but students divide totals in the Do Now and on the pooling sheet (for example 1375 ÷ 3). Should calculators be provided?	
4	Year 7	9	The Slide 12 speaker notes mention a cue card for students who present the results part with language support, but there is no cue card printable. Is the talk frame card meant, or should a cue card be made?	
4	Year 7	9	The Teacher Guide routine has a logbook line in every Think and Reflect, but this lesson's 8 minutes go to the self-assessment slip, talk planning and the exit ticket. Are logbooks skipped this week?	
4	Year 7	9	No spares are stated for the worksheets, pooling sheets, self-assessment slips or talk frame cards. Should a few spares be printed?	
4	Year 7	9	The current requisition lists scissors (6) and 30 cm rulers (12) again, although 12 pairs of scissors (Week 3) and 24 rulers (Week 5) were already bought. Can those be reused so no new order is placed?	
4	Year 8	7	Plan sheet: the lesson file says a two-sided worksheet, but the design is 4 A4 pages printed double-sided. Page 3 is on the back of page 4, so cutting off the exit ticket (first cut line, a little under halfway down page 4) removes Stretch c and all of Challenge, and cutting off the kit request removes Challenge b and c. Collect the plan sheet uncut, or print the second sheet single-sided (3 sheets per copy, 72 per class)?	

4	Year 8	7	The kit request box is meant to be one per group, filled in by the Safety Officer, but it is printed on every student's plan sheet. Should only the Safety Officer's copy be used?	
4	Year 8	7	Option cards: the spec is 10 per class (6 group copies plus 4 spares), and they are used again in Week 8. As laminated cards are not written on, should one reusable set of 3 per option (12) be made for every class instead?	
4	Year 8	7	Reference soils and papers 'now if possible, so groups can see them': no amount or container is stated for Week 7. Show the Week 8 samples early, or a small labelled sample of each?	
4	Year 8	7	The kit card gives about 30 minutes for all Week 7 teacher prep, including collecting the reference soils and papers if possible, but the Week 8 kit cards give about 45 minutes for that collection alone. Count the collection in Week 7 or Week 8?	
4	Year 8	7	Evidence 6 container: the lesson file and kit card say a sealed labelled bag; Case Bible Section 12 and the Teacher Guide prep calendar say a labelled jar. Which should be used?	
4	Year 8	7	Evidence 7: the same sheet is smoothed flat and cut into strips in Week 8. If one teacher has several classes, should one Evidence 7 sheet be staged per Paper group per class?	
4	Year 8	7	Kit card and Week 8 kit lists: no print count is stated (1 teacher copy assumed). Should groups also get the kit list for their option ('plan with these') when filling in the kit request?	
4	Year 8	7	No spare plan sheets are stated (24 copies, 1 per student). Add spares for new or absent students?	
5	Year 7	10	Peer feedback slips: the print spec says 6 sheets per class 'plus spares' but gives no number. How many spare slips should be printed?	
5	Year 7	10	No spares are stated for the skills check, survey or Expo notes (1 per student). Print spares for new or absent students? For the skills check, spare copies printed with Week 1 may be used if any exist.	
5	Year 7	10	Wall fixings for the posters and glue or tape for sticking the feedback slips on the back of each poster are not on the kit card, and no amount is given. Use the existing masking tape and the Week 9 glue sticks?	
5	Year 7	10	Expo notes worksheet: the design is 3 A4 pages, but the lesson file does not say single- or double-sided. Print as 2 sheets double-sided (48 per class) or 3 sheets single-sided (72 per class)?	
5	Year 7	10	Question cards: print a new set for each class (as the kit card prep suggests), or one set for every class, as the cards are not written on and are stored as reusable kit?	
5	Year 7	10	Certificates: present them today from the Week 9 draft levels, or (recommended) at a short ceremony within a week? The date and place need booking before the lesson so that Slide 10 can be filled in.	
5	Year 7	10	Gallery walk: at break or a later session, but who supervises it, and is it one event for all Year 7 classes or one per class?	
5	Year 7	10	Kit card: no print count is stated (1 teacher copy assumed).	
5	Year 7	10	Skills check mark scheme: was the Week 1 marking copy kept, or does a teacher copy need printing (page count not stated)?	
5	Year 8	8	Kit cards: the lesson file says print one for every group doing that option (the Safety Officer reads it aloud) plus one for the teacher's file (10 per class), but the designed cards are marked 'Teacher copy 教师用'. Should the label come off the group copies, and can the cards be reused across classes?	
5	Year 8	8	Recording sheets and kit cards depend on each class's option split. Print 10 recording sheets per class after allocating options (3, 3, 2, 2), or 12 (3 of each) if printing before allocation?	
5	Year 8	8	The requisition counts every option at 2 groups, which a class of 6 groups (split 2, 2, 1, 1) cannot reach for shared kit: goggles 20 not 24, magnifiers 5 not 6, timers 5 not 6, rulers 7 not 8, cups 44 not 48, labels 39 not 49. Keep the requisition's higher figures as a margin, or reduce them?	
5	Year 8	8	No quantity is stated for paper towels (every option), disposable gloves, cloths, newspaper, hand soap, water, spare filter strips and spare N strips, Ink 2 sticky tape, the Ink 2 salt water volume or the vinegar for the teacher's pre-test. The requisition assumes 26 paper towels, 1 box of gloves, 6 cloths and 4 sheets of newspaper. Confirm.	
5	Year 8	8	Ink 2 kit card says 'fill the vinegar bottle': one small bottle per Ink 2 group (up to 2), or one bottle the teacher pours from?	
5	Year 8	8	Pens A to D: were extra sets bought for Week 3 (the Week 3 requisition lists 24 pens)? If only the 8 pens bought before Week 1 exist, two Ink 2 groups use both sets and no spare is left.	
5	Year 8	8	Soil: is the 'tray to stand bottles in' a second tray per Soil group (8 trays in all) or the group's kit tray? Bottles stay on the windowsill until Week 9, so each class with Soil groups also needs its own 20 bottles: are enough identical bottles collected for every class?	
5	Year 8	8	Who sticks the dried Ink 2 strips into the strip box on the recording sheet, and when (teacher or technician after the lesson, or the group in Week 9)?	

5	Year 8	8	Backup lab report cards: one sheet per class, or one set kept in the teacher's folder for all classes and reprinted only when a card is given out?	
5	Year 8	8	Evidence 7 and Evidence 3: use the sealed Week 7 bags (Evidence 7 smoothed flat with an arrow added; Evidence 3 tipped into a pot) for the first class, or make new ones as the Week 8 kit card describes?	
5	Year 8	8	Worksheet: no spares are stated (24 copies, 1 per student). Add spares for new or absent students?	
6	Year 8	9	Worksheet: the lesson file says two sides, but the design is 4 A4 pages (2 sheets double-sided), and the exit ticket strip sits below a cut line at the foot of page 4, so cutting it off also cuts the foot of page 3 (Challenge c). Print the second sheet single-sided (3 sheets per copy), or collect exit tickets without cutting?	
6	Year 8	9	Teacher's enlarged model evidence board: no size is given (A3 is the board's own size). Print at A2 or A1, use a plain A3, or show it on screen? Does the model need its own (7th) evidence card pack?	
6	Year 8	9	Expert witness badges: the Week 9 print spec says 1 sheet per class (6 badges, 1 per group), but the Week 10 kit card lists 4 badges per group from Week 9 (24 badges, 4 sheets). Which is right? Should they be on card, and how are they worn (pins, lanyards or badge holders are not listed)?	
6	Year 8	9	Expert witness statement frame: 6 A3 (1 per group) or 24 A4 (1 per student)? Each student writes one of the four parts, and the Week 10 kit card expects one frame per group in the case file.	
6	Year 8	9	Photos of Week 8 results: how many, and are they printed for groups to use at their boards or shown on screen?	
6	Year 8	9	Cleaning log card: cut off the SET ASIDE strip beforehand, or give groups scissors (none on the kit card)? Paper or card?	
6	Year 8	9	Soil settling bottles: Week 8 says pour the contents away 'afterwards' and Week 10 does not use them. Empty them after the last Week 9 class?	
6	Year 8	9	Ideas Parking Board: if the board has been taken down, should the Week 5 sticky notes be kept for the tunnel vision sort, or is the sort done from the photo on screen?	
6	Year 8	9	No spares are stated for worksheets, self-assessment slips or evidence card packs. Add spares for new or absent students?	
6	Year 8	9	Band 1 support says students copy 小心地滑 from the fold-under word bank, but the word bank (lesson file Section 3 and the designed page 4) does not include 'Wet floor 小心地滑'. Add it to the word bank, or point students to slide 8?
