Version register

Which version of the papers each year group uses, and what each version contains. Every paper and booklet shows its version on the front page and in the footer of every page. **Mark a paper only with the booklet of the same version**: the question numbers, marks and band guides differ.

Shared by every version: the reading screens (`shared/`), the interview, parent and homeroom teacher forms and the candidate summary (`forms/`).

Adding a version. Give it the next number, save its files with the suffix (_v4 and so on), put the version on the front page and in the footer, and add a row to the table above with the date, the year groups and what changed.

Candidate log

Fill in one row for each candidate on the day, so that every result can be traced to the version the student sat.
