Fur, Feathers or Scales?

A Year 1 taster lesson | Open Day

Hello, scientists!

👀 Look

✋ Feel

💬 Talk

Teacher: 1 minute. Hello chant (wave, clap, sit). "Today we are animal scientists!" Everyone puts on pretend goggles.

The mystery bag

soft

smooth

bumpy

Teacher: 3 minutes. Three children feel inside (no looking) and say how it feels. Everyone repeats the word with the action. Then reveal.

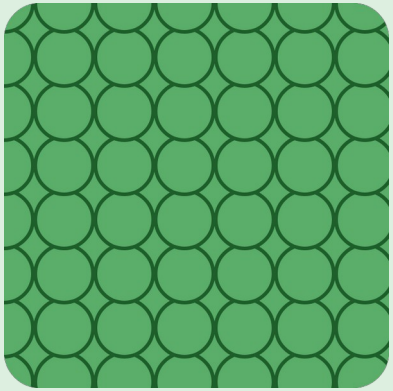

Fur, feathers or scales?

fur ?

feathers ?

scales ?

Teacher: The big question. Say it with a rhythm, children copy, pointing at each swatch. Then click to meet each one.

Fur: soft and fluffy

soft and fluffy

cat

rabbit

lion

The cat has fur.

Teacher: 1 minute. Pass the fur swatch round fast while you talk. Point to each animal: "The cat has fur." Children repeat.

Feathers: soft and light

soft and light

duck

owl

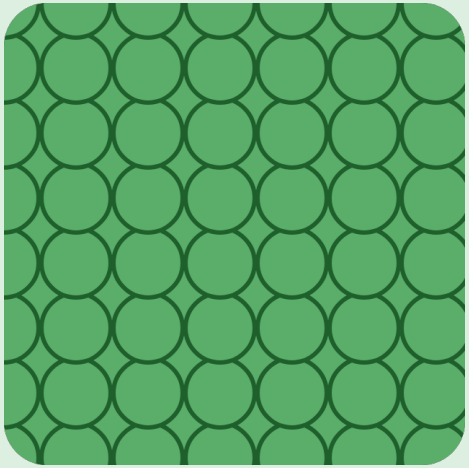

parrot

The duck has feathers.

Teacher: 1 minute. Pass the feathers swatch round fast while you talk. Point to each animal: "The duck has feathers." Children repeat.

Scales: bumpy and hard

bumpy and hard

fish

snake

crocodile

The fish has scales.

Teacher: 1 minute. Pass the scales swatch round fast while you talk. Point to each animal: "The fish has scales." Children repeat.

Let's sort!

fur	feathers	scales
		

The lion has fur.

?

Teacher: Model with one animal only. "Lion… fur, feathers or scales?" Feel the swatch, decide, stick. Say "The lion has fur."

Team time: look, feel, talk, stick

1. Look

at the animal

2. Feel

the swatches

3. Talk

"The duck has feathers."

4. Stick

it on the mat

7 minutes. Everyone sticks, everyone talks.

Teacher: Show the four steps with actions. Then send groups to their trays. Start a 7-minute timer on your phone. Click to the next slide and leave it up.

Your turn: fur, feathers or scales?

 **fur**

 **feathers**

 **scales**

The _____ has _____. It is _____.

Teacher: Leave this up during team time. Circulate: "Why?" "How does it feel?" Give a 1-minute warning, then "Hands on heads, eyes on me."

Show time!

The _____ has _____.

It is soft / smooth / bumpy.

👂 **Scientists listen.**

Teacher: 4 minutes. Each group holds up its mat. Every child says one sentence (Lower KG: one word + point). Parents clap after each group.

Did we all agree?

fur

feathers

scales

✅ Thumbs up if your mat says the same!

Teacher: Compare with the groups' mats. Any disagreement is a win: ask "Why?" and feel the swatch together. Thumbs up when it matches.

What about these?

dog

chicken

lizard

sheep

fur

feathers

scales

Teacher: 2 minutes, whole group. Point to each new animal: children point to the fur / feathers / scales column and say the word. Ask "Why?"

You are animal scientists!

At home tonight: find something soft, smooth and bumpy.

Ask: "Fur, feathers or scales?" about a pet or a toy.

Teacher: 2 minutes. Badge for every child. Take-home sheet to every parent: a sorting hunt at home. Then Goodbye.

Goodbye, scientists!

Goodbye, goodbye!
Wave your hand

Goodbye, goodbye!
Clap your hands

Goodbye, goodbye!
You're a star!

Goodbye, goodbye!
See you soon!

Teacher: Chant each line twice with the action. Then click to the parents slide and leave it on screen.
