The Rainy Day Picnic

On Sunday morning, Sofia and her little brother Tom were ready for a picnic in the park. Mum had made sandwiches, and Dad had packed some fruit and a big red blanket.

Then Sofia looked out of the window. Dark clouds were rolling across the sky. A moment later, rain began to beat against the glass.

"Oh no," said Tom. His face crumpled, and he looked as if he was going to cry.

Sofia had an idea. She pushed the sofa back against the wall and spread the red blanket on the living-room floor. Then she put Tom's toy animals all around the edge of the blanket.

"Welcome to the indoor park!" she said.

Dad played birdsong on his phone. Mum put a big plant in the middle of the blanket and called it a tree. They ate their sandwiches on the floor, and Tom gave pretend grapes to his toy lion.

After lunch, the rain stopped and the sun came out. But nobody wanted to go to the park.

"Can we have an indoor picnic every Sunday?" asked Tom.

Part C

Read the text. Then answer questions 16 to 23.

How Seeds Travel

A plant cannot walk, but its seeds can travel a long way. Why does this matter? If every seed fell straight down under its parent plant, the young plants would grow in the shade. They would also have to share water and space with the parent and with each other, and most of them would not survive. So plants have clever ways of sending their seeds away. Scientists call this seed dispersal.

Carried by the wind. Some seeds are so light that the wind can carry them. A dandelion seed has a tiny parachute of soft hairs, which can carry it a long way on a breezy day. A sycamore seed has a wing. As it falls, it spins like a small helicopter, and the wind pushes it away from the tree.

Floating on water. The coconut is one of the largest seeds in the world. Its thick, hairy outer layer traps air, so it floats. A coconut can drift on the ocean for months before it washes up on a beach and starts to grow.

Hitching a ride. Some seeds travel on animals. A burdock seed is covered in tiny hooks that catch on fur. In 1941, a Swiss engineer called George de Mestral noticed burdock seeds stuck to his dog's coat after a walk. He looked at them under a microscope and saw the hooks. This gave him an idea: he invented a fastener with tiny hooks and loops, which we now call Velcro. You may have it on your shoes or your school bag.

Other seeds are hidden inside sweet fruits. When a bird eats the fruit, the seeds pass through its body and are dropped somewhere new, often far from the parent plant.

16 / 1

What helps a dandelion seed travel on the wind?

17 / 1

Why can a coconut float?

18

- [ ] floating on the sea

21

/ 1

Give **one** reason why young plants do not grow well right under their parent plant.

22

/ 1

The interviewer, or in Years 1 to 3 the assessor, runs the sentence reading with `Sentence_Reading_Guide` and records it in Part 2. Part 3 gives the reading result for the final mark sheet.

Parent conversation record

Candidate name	
Year group applied for	
Date	
Staff member	
Parents or carers present	
Language used (and interpreter if any)	

About 15 minutes. Hold it while the student does the written tasks with another adult, or straight after. Use the family's preferred language; a Chinese-speaking colleague should lead or interpret if the staff member does not speak Chinese. The aim is a two-way conversation: to understand the child and the family's hopes, to explain how the international programme works, and to check that what the family wants matches what the school offers. Do not discuss the assessment results on the day.

1. Why the international programme?

Question	Notes
Why are you looking for a place in the international programme, and why now?	
What do you know about how the programme works (lessons in English, the UK-style curriculum, assessment, homework, activities)?	
Whose idea is the move, and how does your child feel about it?	

2. Schooling so far

Question	Notes
Schools attended, years, and type (Chinese mainstream, bilingual, international, overseas)	
Any year repeated or skipped? Any long gaps?	
Why is the child leaving their current school?	
Student registration (学籍): where is it held now, and what will happen to it? (admissions office to give the school's position)	
School reports, certificates and any assessments the family can share	

3. Languages

Question	Notes
Which languages are spoken at home, and by whom?	
How has the child learnt English so far (school lessons from which grade, classes outside school, tutor, online, time abroad, English-speaking carer)? About how many hours a week?	
Does the child read in English at home? In Chinese?	
How will the family support English at home (reading, media, activities), and support Chinese if that matters to the family?	

4. Learning, health and development

Ask gently and explain why: the school wants to have the right support ready from the first day.

Question	Notes
What is your child good at? What do they enjoy most?	
Has any teacher or doctor ever raised a concern about learning, speech and language, attention, behaviour, hearing or vision? Any assessments or reports?	
Any extra help at the current school?	
Medical conditions, allergies, medication (also on the school medical form)	
For young children: speech in Chinese for their age, toilet and self-care, sleep	

5. Wellbeing and the week

Question	Notes
How would you describe your child's personality? How do they cope with change?	
Friendships: does your child make friends easily?	
A typical weekday and weekend: after-school classes, tutoring, sport, music, screen time, sleep	
Any big changes in the family recently (a move, a new baby, a parent working away)? Share only what you are comfortable sharing.	

6. Expectations and partnership

Question	Notes
What would make this a successful first year for your child?	
What do you expect from the school (homework, reports, communication, class rankings, exam results)? Explain how the school reports progress and how it communicates.	
How does the family feel about co-curricular activities, sport, arts, service and wellbeing as part of education, not just exam subjects?	
Learning in a new language takes time: explain what is typical (social English often within one to two years; the English needed for academic work often takes several years) and how the school supports it. How does the family feel about this?	
How would the family like to be involved (events, meetings, volunteering)?	

7. Future plans

Question	Notes
What are your hopes for your child in the long term (university, country, career)?	
Do you plan to stay in the international programme through to the end of school?	
Explain the programme's pathway (for example IGCSE, then the sixth form programme) and how it differs from the 中考 and 高考 route, using the admissions office's wording. Does the family understand that moving back to the national exam route later may not be straightforward?	
Year 10 applicants: which IGCSE subjects does the student hope to take? Explain that IGCSE is a two-year course starting in Year 10.	

8. Boarding (only if the child will board)

Question	Notes
Has the child stayed away from home before (camps, boarding, family)? How did it go?	
How independent are they with daily routines, sleep and belongings?	
How will the family keep in touch, and how often will the child go home?	

9. Questions from the family

10. Staff view

	Rating	Notes
Match between the family's expectations and what the programme offers	☐1 ☐2 ☐3 ☐4	
Family's willingness to work in partnership with the school	☐1 ☐2 ☐3 ☐4	
Information to follow up (reports, medical, assessments, 学籍)

Paper version sat: _____ (v3.1; on the front page of the student paper). Complete within two working days from the **grading sheet**, **Reading front sheet**, **Interview sheet**, parent conversation record and homeroom teacher reference. This is the one overview that the head of section reads and that goes into the admissions system. The bands guide a professional decision; they are not a pass mark (guide, Sections 6 to 9).

1. English profile

Skill	Evidence (copy the scores)	Band
Listening	Grading sheet: ___ / ___ ; listening in conversation (Interview sheet)	☐A ☐B ☐C ☐D ☐E
Speaking	Interview sheet (and picture talk on the grading sheet, Years 1 to 3)	☐A ☐B ☐C ☐D ☐E
Reading	Reading front sheet. Years 1 to 3: book band _____ accuracy ___% questions ___ ; phonics ___ / 40 ; letters ___ / 26 and ___ / 18 ; tricky words ___ / 20. Years 4 to 6: paper ___ / 24. Years 7 to 12: paper ___ / 16	☐A ☐B ☐C ☐D ☐E
Reading aloud	Sentence reading (Reading front sheet): points ___ / 72 ; reading age _____ ; actual age _____ ; meaning checks ___ ; fluency ___	indicative ☐A ☐B ☐C ☐D ☐E
Writing	Grading sheet: ___ / 16	☐A ☐B ☐C ☐D ☐E
Overall English	The band most of the four skills sit in. If one skill is two or more bands below the others, say which.	☐A ☐B ☐C ☐D ☐E

A New to English, **B** Early acquisition, **C** Developing competence, **D** Competent, **E** Fluent (comparable to a fluent English speaker of the same age).

2. Maths and science

	Score	Band	Number problems (Years 7 to 12: fluency) / word problems (word questions) / applied (Years 7 to 12)	Not yet taught (NT) and language support (L)
Maths	___ / ___	☐1 ☐2 ☐3 ☐4	___ / ___ ___ / ___ ___ / 12	
Science (Years 5 to 10)	___ / ___	☐1 ☐2 ☐3 ☐4		

1 Well below expected (Years 7 to 12: below expected), **2** Working towards, **3** Expected, **4** Greater depth. The Years 7 to 12 papers are harder, so their boundaries are lower. Strong number problems with weak word problems may be an English barrier, not a maths difficulty. Years 7 to 12: strong fluency and word questions with weak applied problems means teaching in problem solving, not more content. NT questions score 0: say whether the student is likely to reach the expected band once taught.

Years 10 and 11: readiness for IGCSE (grading sheet; Section 6 of the year's instructions). English course: ☐ First Language ☐ English as a Second Language ☐ to decide. Maths tier: ☐ Extended ☐ Core ☐ to decide. Overall: ☐ Ready ☐ Ready with support ☐ Not yet ☐ (Year 11) start in Year 10.

Years 11 and 12: optional sciences and cognitive ability screen (grading sheet). Biology ___ / 15 band ___ Chemistry ___ / 15 band ___ Physics ___ / 15 band ___ (blank if not taken). Cognitive screen: non-verbal ___ / 12 quantitative ___ / 12 verbal ___ / 12 processing speed ___ / 60. Profile note: _____ (for planning

support, never for selection). **Year 12: readiness for A Level** (Section 6 of the Year 12 instructions): ☐ Ready ☐ Ready with support ☐ Pre-A Level year advised ☐ Not yet.

4. Recommendation

Use the decision guide in `00_Admissions_Guide.md`, Section 9. Tick one.

	Recommendation
☐	**Offer.** Ready to join the year group with normal class support.
☐	**Offer with English support.** Ready academically; needs a planned English programme (state the level below).
☐	**Offer with a learning plan.** Needs catch-up in named maths or science topics, or other planned support; review date set.
☐	**Further assessment before a decision.** For example a second visit, a trial day, a specialist assessment, or more information from the family or school.
☐	**Unable to offer at this time.** The programme cannot meet the student's needs now. Give the reason and, where possible, what would change the decision.

Year group confirmed: _____ (by age: yes / no; if no, give the reason and who approved it)

5. Support from the first day (if offered)

Area	Plan
English support level	☐ Intensive (new to English) ☐ Timetabled support lessons ☐ In-class support and monitoring ☐ None needed
Maths and science catch-up	
Reading (book band or reading age to start from)	
Pastoral (buddy, homeroom check-ins, boarding support)	
Information for the homeroom teacher	
Review date (for example after six weeks)	

6. Comments and feedback

Assessor (from the grading sheet): strengths, gaps, NT topics, English barrier or not.

Interviewer (from the Interview sheet): what the student is like, hopes and plans, anything of concern.

Feedback for the family. Start with the child's strengths; use plain words; say what support we will give and, if no offer is made, what would change the decision.

About this report

This report goes with the student's marked papers. It was made from the grading sheet, the reading and interview sheets and the parent conversation. The assessment was in English only, so the English bands show how far the student's English has come, and maths and science show what the student can do when the English is not the barrier. Some topics are taught in a different order in Chinese schools: where a student has not yet been taught a topic it scores 0 and the report says so.

The English bands

Band	Listening	Speaking	Reading	Writing
A New to English	Understands little or no English; may follow a routine instruction with gesture.	Silent, or single words and memorised phrases; may use Chinese.	May know some letter names or sounds; reads few or no words.	Copies, writes their name, or writes isolated words; may write in Chinese.
B Early acquisition	Understands simple, slow questions and instructions on familiar topics, with support.	Short phrases and simple sentences about familiar things; frequent errors.	Decodes simple words and short sentences; understands very simple texts with pictures.	Short simple sentences with familiar words; frequent errors in grammar and spelling; meaning mostly clear in short pieces.
C Developing competence	Follows most everyday talk and simple explanations; misses detail and implied meaning.	Connected sentences with "because", "but", "so"; errors common but meaning usually clear; everyday vocabulary.	Reads simple texts two or more years below age level with understanding; struggles with age-level texts.	A short connected piece; some joined sentences; errors frequent but rarely block meaning; basic punctuation.
D Competent	Follows most classroom talk at normal pace, including some implied meaning.	Speaks at length, explains and gives examples; occasional errors.	Reads age-level texts with some difficulty in vocabulary and inference.	Organised writing with a range of sentences; generally accurate with occasional errors; varied vocabulary.
E Fluent	Understands as a fluent speaker of the same age does.	Fluent and accurate for age.	Reads age-level texts as a fluent reader of the same age does.	Writing comparable to a fluent writer of the same age.

Reading age is an indicative figure from a short reading-aloud screen: 5 years 0 months plus 2 months for every point. It is a guide, not a standardised test.

Maths and science bands compare the score with what is expected for the year group: 1 Well below expected, 2 Working towards, 3 Expected, 4 Greater depth. The papers for older students are harder, so their boundaries are lower.
