Halfway Up

From the ground, the climbing wall had looked easy. Now, eight metres up, Mei was not so sure.

Her right hand was on a small red hold, no bigger than a coin. Her left foot rested on a ledge so narrow that only her toes fitted on it. Below her, the sports hall had gone strangely quiet. She could hear her own breathing, fast and loud.

"You're doing great, Mei!" That was Coach Zhang, who was holding her rope. His voice sounded very far away.

Mei looked up. The next hold was a blue one, just out of reach. To get it, she would have to let go with one hand and push up hard with her legs. For one terrible second, she would be holding on with almost nothing.

She had done this move a hundred times at training, two metres above a soft mat. It was exactly the same move. That was what she told herself. Her body did not believe her.

Her arms began to shake. Sweat made her fingers slippery. She thought about the other girls in the competition, who had all reached the top. She thought about how easy it would be to shout "Lower me down!" and float gently back to the floor. Nobody would really blame her.

Then a small voice called out from somewhere near the door. "Go on, Mei!"

It was Bo, her little brother. He was six, and he was standing on a chair so that he could see. Mum was holding on to the back of his T-shirt. He was waving a sign made from a cereal box. In wobbly letters, it said: MEI CAN FLY.

Mei almost laughed. Something tight in her chest seemed to loosen. She breathed out slowly, bent her knees and pushed.

Her fingers closed around the blue hold.

Five moves later, she slapped the top of the wall, and the quiet hall exploded into noise.

8 / 1

How high up the wall is Mei at the start of the story? _____

9 / 1

Maths

You have 25 minutes. Do as much as you can.

There are three sections: **A**, **B** and **C**.

Write your answer in the box. **Show** your working in the working box.

Your teacher can read any question to you.

Sections A and B: you may **not** use a calculator.

Section C: you **may** use a calculator.

Section A: Fluency (no calculator)

What the maths words mean

Simplify: $3a + 5a = 8a$

Expand: $3(x + 2) = 3x + 6$

Factorise: $x^2 + 5x = x(x + 5)$

Standard form: $4500 = 4.5 \times 10^3$

Make x the subject: $y = x + 4$, so $x = y - 4$

1 / 2

(a) **Write** 2^{-3} as a fraction.

(b) **Simplify** $(2x^3)^2$

2 / 2

Work out $(3 \times 10^4) \times (5 \times 10^{-7})$

Give your answer in standard form.

Working

3 / 2

Expand and simplify $(2x - 3)(x + 4)$

Working

4 / 1

Factorise $x^2 - 2x - 15$

5 / 2

Solve the simultaneous equations.

$2x + 3y = 7$

$5x - 2y = 8$

Working

$x =$ $y =$

6 / 1

Make x the subject of the formula $y = \dfrac{3x - 2}{5}$

Working

$x =$

Section B: Word questions (no calculator)

These questions are in words only. **Read** each one carefully.
You can **write** an equation, then **solve** it.

Example: write an equation, then solve it

Mei is 3 years older than Jun. Their ages add up to 29. How old is Jun?

Let Jun's age be j. Then Mei's age is $j + 3$.

Equation: $j + (j + 3) = 29$

Solve: $2j + 3 = 29$, so $2j = 26$, so $j = 13$

Answer: Jun is 13 years old.

7 / 2

A printer prints 84 pages in 6 minutes.
It always prints at the same speed.

Interviewer signature and date _____

Parent conversation record

Candidate name	
Year group applied for	
Date	
Staff member	
Parents or carers present	
Language used (and interpreter if any)	

About 15 minutes. Hold it while the student does the written tasks with another adult, or straight after. Use the family's preferred language; a Chinese-speaking colleague should lead or interpret if the staff member does not speak Chinese. The aim is a two-way conversation: to understand the child and the family's hopes, to explain how the international programme works, and to check that what the family wants matches what the school offers. Do not discuss the assessment results on the day.

1. Why the international programme?

Question	Notes
Why are you looking for a place in the international programme, and why now?	
What do you know about how the programme works (lessons in English, the UK-style curriculum, assessment, homework, activities)?	
Whose idea is the move, and how does your child feel about it?	

2. Schooling so far

Question	Notes
Schools attended, years, and type (Chinese mainstream, bilingual, international, overseas)	
Any year repeated or skipped? Any long gaps?	
Why is the child leaving their current school?	
Student registration (学籍): where is it held now, and what will happen to it? (admissions office to give the school's position)	
School reports, certificates and any assessments the family can share	

3. Languages

Question	Notes
Which languages are spoken at home, and by whom?	
How has the child learnt English so far (school lessons from which grade, classes outside school, tutor, online, time abroad, English-speaking carer)? About how many hours a week?	
Does the child read in English at home? In Chinese?	
How will the family support English at home (reading, media, activities), and support Chinese if that matters to the family?	

4. Learning, health and development

Ask gently and explain why: the school wants to have the right support ready from the first day.

Question	Notes
What is your child good at? What do they enjoy most?	
Has any teacher or doctor ever raised a concern about learning, speech and language, attention, behaviour, hearing or vision? Any assessments or reports?	
Any extra help at the current school?	
Medical conditions, allergies, medication (also on the school medical form)	
For young children: speech in Chinese for their age, toilet and self-care, sleep	

5. Wellbeing and the week

Question	Notes
How would you describe your child's personality? How do they cope with change?	
Friendships: does your child make friends easily?	
A typical weekday and weekend: after-school classes, tutoring, sport, music, screen time, sleep	
Any big changes in the family recently (a move, a new baby, a parent working away)? Share only what you are comfortable sharing.	

6. Expectations and partnership

Question	Notes
What would make this a successful first year for your child?	
What do you expect from the school (homework, reports, communication, class rankings, exam results)? Explain how the school reports progress and how it communicates.	
How does the family feel about co-curricular activities, sport, arts, service and wellbeing as part of education, not just exam subjects?	
Learning in a new language takes time: explain what is typical (social English often within one to two years; the English needed for academic work often takes several years) and how the school supports it. How does the family feel about this?	
How would the family like to be involved (events, meetings, volunteering)?	

7. Future plans

Question	Notes
What are your hopes for your child in the long term (university, country, career)?	
Do you plan to stay in the international programme through to the end of school?	
Explain the programme's pathway (for example IGCSE, then the sixth form programme) and how it differs from the 中考 and 高考 route, using the admissions office's wording. Does the family understand that moving back to the national exam route later may not be straightforward?	
Year 10 applicants: which IGCSE subjects does the student hope to take? Explain that IGCSE is a two-year course starting in Year 10.	

8. Boarding (only if the child will board)

Question	Notes
Has the child stayed away from home before (camps, boarding, family)? How did it go?	
How independent are they with daily routines, sleep and belongings?	
How will the family keep in touch, and how often will the child go home?

Paper version sat: _____ (v3.1; on the front page of the student paper). Complete within two working days from the **grading sheet**, **Reading front sheet**, **Interview sheet**, parent conversation record and homeroom teacher reference. This is the one overview that the head of section reads and that goes into the admissions system. The bands guide a professional decision; they are not a pass mark (guide, Sections 6 to 9).

1. English profile

Skill	Evidence (copy the scores)	Band
Listening	Grading sheet: ___ / ___ ; listening in conversation (Interview sheet)	☐A ☐B ☐C ☐D ☐E
Speaking	Interview sheet (and picture talk on the grading sheet, Years 1 to 3)	☐A ☐B ☐C ☐D ☐E
Reading	Reading front sheet. Years 1 to 3: book band _____ accuracy ___% questions ___ ; phonics ___ / 40 ; letters ___ / 26 and ___ / 18 ; tricky words ___ / 20. Years 4 to 6: paper ___ / 24. Years 7 to 10: paper ___ / 16	☐A ☐B ☐C ☐D ☐E
Reading aloud	Sentence reading (Reading front sheet): points ___ / 72 ; reading age _____ ; actual age _____ ; meaning checks ___ ; fluency ___	indicative ☐A ☐B ☐C ☐D ☐E
Writing	Grading sheet: ___ / 16	☐A ☐B ☐C ☐D ☐E
Overall English	The band most of the four skills sit in. If one skill is two or more bands below the others, say which.	☐A ☐B ☐C ☐D ☐E

A New to English, **B** Early acquisition, **C** Developing competence, **D** Competent, **E** Fluent (comparable to a fluent English speaker of the same age).

2. Maths and science

	Score	Band	Number problems (Years 7 to 10: fluency) / word problems (word questions) / applied (Years 7 to 10)	Not yet taught (NT) and language support (L)
Maths	___ / ___	☐1 ☐2 ☐3 ☐4	___ / ___ ___ / ___ ___ / 12	
Science (Years 5 to 10)	___ / ___	☐1 ☐2 ☐3 ☐4		

1 Well below expected (Years 7 to 10: below expected), **2** Working towards, **3** Expected, **4** Greater depth. The Years 7 to 10 papers are harder, so their boundaries are lower. Strong number problems with weak word problems may be an English barrier, not a maths difficulty. Years 7 to 10: strong fluency and word questions with weak applied problems means teaching in problem solving, not more content. NT questions score 0: say whether the student is likely to reach the expected band once taught.

Year 10 only: readiness for IGCSE (grading sheet; Year 10 instructions, Section 6). English course: ☐ First Language ☐ English as a Second Language ☐ to decide. Maths tier: ☐ Extended ☐ Core ☐ to decide. Overall: ☐ Ready ☐ Ready with support ☐ Not yet.

About this report

This report goes with the student's marked papers. It was made from the grading sheet, the reading and interview sheets and the parent conversation. The assessment was in English only, so the English bands show how far the student's English has come, and maths and science show what the student can do when the English is not the barrier. Some topics are taught in a different order in Chinese schools: where a student has not yet been taught a topic it scores 0 and the report says so.

The English bands

Band	Listening	Speaking	Reading	Writing
A New to English	Understands little or no English; may follow a routine instruction with gesture.	Silent, or single words and memorised phrases; may use Chinese.	May know some letter names or sounds; reads few or no words.	Copies, writes their name, or writes isolated words; may write in Chinese.
B Early acquisition	Understands simple, slow questions and instructions on familiar topics, with support.	Short phrases and simple sentences about familiar things; frequent errors.	Decodes simple words and short sentences; understands very simple texts with pictures.	Short simple sentences with familiar words; frequent errors in grammar and spelling; meaning mostly clear in short pieces.
C Developing competence	Follows most everyday talk and simple explanations; misses detail and implied meaning.	Connected sentences with "because", "but", "so"; errors common but meaning usually clear; everyday vocabulary.	Reads simple texts two or more years below age level with understanding; struggles with age-level texts.	A short connected piece; some joined sentences; errors frequent but rarely block meaning; basic punctuation.
D Competent	Follows most classroom talk at normal pace, including some implied meaning.	Speaks at length, explains and gives examples; occasional errors.	Reads age-level texts with some difficulty in vocabulary and inference.	Organised writing with a range of sentences; generally accurate with occasional errors; varied vocabulary.
E Fluent	Understands as a fluent speaker of the same age does.	Fluent and accurate for age.	Reads age-level texts as a fluent reader of the same age does.	Writing comparable to a fluent writer of the same age.

Reading age is an indicative figure from a short reading-aloud screen: 5 years 0 months plus 2 months for every point. It is a guide, not a standardised test.

Maths and science bands compare the score with what is expected for the year group: 1 Well below expected, 2 Working towards, 3 Expected, 4 Greater depth. The papers for older students are harder, so their boundaries are lower.
